ATTACKS & SPELLCASTING

Elemental Adept, Cold. Spells you cast ignore cold resistance. Treat any 1 on a damage die as a 2 with cold spells.

Fey Touched. You can cast this feat's spells without a spell slot once per long rest. You can also cast these spells using spell slots you have of the appropriate level. Your spellcasting ability for these spells is Charisma.

Origin Feats: Alert(2024). When you roll Initiative, you can add your Proficiency Bonus to the roll. Additionally, immediately after you roll Initiative, you can swap your Initiative with the Initiative of one willing ally in the same combat. You can't make this swap if you or the ally has the Incapacitated condition.

Spellcasting. Drawing from your innate magic, you can cast spells. You can prepare 15 spells from your spell list. You can use an arcane focus as your spellcasting focus.

Innate Sorcery (Bonus Action). You can unleash Innate Sorcery for 1 minute and spell save DC of your Sorcerer spells increases by 1. You also gain Advantage on the attack rolls of Sorcerer spells you cast during this duration.

Font of Magic (Bonus Action). You have 10 Sorcery Points. You can transform unexpended sorcery points into one spell slot (2 > 1st, 3 > 2nd, 5 > 3rd, 6 > 4th, 7 > 5th) on your turn or you can expend one spell slot and gain a number of sorcery points equal to the slot's level.

Metamagic. You can use only one Metamagic option on a spell when you cast it, unless otherwise noted.

Transmuted Spell. When you cast a spell that deals a type of damage from the following list, you can spend 1 Sorcery Point to change that damage type to one of the other listed types: Acid, Cold, Fire, Lightning, Poison, Thunder.

Quicken Spell. When you cast a spell that has a casting time of an action, you can spend 2 Sorcery Points to change the casting time to a Bonus Action for this casting. You can't modify a spell in this way if you've already cast a level 1+ spell on the current turn, nor can you cast a level 1+ spell on this turn after modifying a spell in this way.

Careful Spell. When you cast a spell that forces other creatures to make a saving throw, you can protect some of those creatures from the spell's full force. To do so, spend 1 Sorcery Point and choose a number of those creatures up to your Charisma modifier (minimum of one creature). A chosen creature automatically succeeds on its saving throw against the spell, and it takes no damage if it would normally take half damage on a successful save.

Subtle Spell. When you cast a spell, you can spend 1 Sorcery Point to cast it without any Verbal, Somatic, or Material components, except Material components that are consumed by the spell or that have a cost specified in the spell.

Sorcerous Restoration (1/Long Rest). When you finish a Short Rest, you can regain expended Sorcery Points, but no more than a number equal to half your Sorcerer level (round down). Once you use this feature, you can't do so again until you finish a Long Rest.

Sorcery Incarnate (Bonus Action). If you have no uses of Innate Sorcery left, you can use it if you spend 2 Sorcery Points when you take the Bonus Action to activate it. In addition, while your Innate Sorcery feature is active, you can use up to two of your Metamagic options on each spell you cast.

Draconic Resilience. When you aren't wearing armor, your AC equals 15.

Elemental Affinity. You have resistance to cold damage. Also, when you cast a spell that deals cold damage, add 5 to one damage roll of that spell.

Message

Transmutation Cantrip

CASTING TIME	1 action
RANGE	120 feet
DURATION	1 round
COMPONENTS	V, S, M (a short piece of copper wire)

You point your finger toward a creature within range and whisper a message. The target (and only the target) hears the message and can reply in a whisper that only you can hear.

You can cast this spell through solid objects if you are familiar with the target and know it is beyond the barrier. Magical silence, 1 foot of stone, 1 inch of common metal, a thin sheet of lead, or 3 feet of wood blocks the spell. The spell doesn't have to follow a straight line and can travel freely around corners or through openings.

Prestidigitation

Transmutation Cantrip

CASTING TIME	1 action
RANGE	10 feet
DURATION	Up to 1 hour
COMPONENTS	V, S

This spell is a minor magical trick that novice spellcasters use for practice. You create one of the following magical effects within range:

- You create an instantaneous, harmless sensory effect, such as a shower of sparks, a puff of wind, faint musical notes, or an odd odor.
- You instantaneously light or snuff out a candle, a torch, or a small campfire.
- You instantaneously clean or soil an object no larger than 1 cubic foot.
- You chill, warm, or flavor up to 1 cubic foot of nonliving material for 1 hour.
- You make a color, a small mark, or a symbol appear on an object or a surface for 1 hour.
- You create a nonmagical trinket or an illusory image that can fit in your hand and that lasts until the end of your next turn.

If you cast this spell multiple times, you can have up to three of its non-instantaneous effects active at a time, and you can dismiss such an effect as an action.

A frigid beam of blue-white light streaks toward a creature within range. Make a ranged spell attack against the target. On a hit, it takes 1d8 cold damage, and its speed is reduced by 10 feet until the start of your next turn.

The spell's damage increases by 1d8 when you reach 5th level (2d8), 11th level (3d8), and 17th level (4d8).

Shape Water

Transmutation Cantrip

CASTING TIME	1 action
RANGE	30 feet
DURATION	Instantaneous or 1 hour (see below)
COMPONENTS	S

You choose an area of water that you can see within range and that fits within a 5-foot cube. You manipulate it in one of the following ways:

- You instantaneously move or otherwise change the flow of the water as you direct, up to 5 feet in any direction. This movement doesn't have enough force to cause damage.
- You cause the water to form into simple shapes and animate at your direction. This change lasts for 1 hour.
- You change the water's color or opacity. The water must be changed in the same way throughout. This change lasts for 1 hour.
- You freeze the water, provided that there are no creatures in it. The water unfreezes in 1 hour.

If you cast this spell multiple times, you can have no more than two of its non-instantaneous effects active at a time, and you can dismiss such an effect as an action.

Absorb Elements

1st-level abjuration

CASTING TIME	1 reaction, which you take when you take acid, cold, fire, lightning, or thunder damage
RANGE	Self
DURATION	1 round
COMPONENTS	S

The spell captures some of the incoming energy, lessening its effect on you and storing it for your next melee attack. You have resistance to the triggering damage type until the start of your next turn. Also, the first time you hit with a melee attack on your next turn, the target takes an extra 1d6 damage of the triggering type, and the spell ends.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, the extra damage increases by 1d6 for each slot level above 1st.

Chromatic Orb DND 2024

1st-level evocation

CASTING TIME	1 action
RANGE	90 feet
DURATION	Instantaneous
COMPONENTS	V, S, M (a diamond worth at least 50 gp)

You hurl an orb of energy at a target within range. Choose Acid, Cold, Fire, Lightning, Poison, or Thunder for the type of orb you create, and then make a ranged spell attack against the target. On a hit, the target takes 3d8 damage of the chosen type.

If you roll the same number on two or more of the d8s, the orb leaps to a different target of your choice within 30 feet of the target. Make an attack roll against the new target, and make a new damage roll. The orb can't leap again unless you cast the spell with a level 2+ spell slot.

At Higher Levels. The damage increases by 1d8 for each spell slot level above 1. The orb can leap a maximum number of times equal to the level of the slot expended, and a creature can be targeted only once by each casting of this spell.

Command DND 2024

1st-level enchantment

CASTING TIME	1 action
RANGE	60 feet
DURATION	1 round
COMPONENTS	V

You speak a one-word command to a creature you can see within range. The target must succeed on a Wisdom saving throw or follow the command on its next turn. Choose the command from these options:

Approach. The target moves toward you by the shortest and most direct route, ending its turn if it moves within 5 feet of you.

Drop. The target drops whatever it is holding and then ends its turn.

Flee. The target spends its turn moving away from you by the fastest available means.

Grovel. The target has the Prone condition and then ends its turn.

Help. On its turn, the target doesn't move and takes no action or Bonus Action.

At Higher Levels. You can affect one additional creature for each spell slot level above 1.

Dissonant Whispers

1st-level enchantment

CASTING TIME 1 action

RANGE 60 feet

DURATION Instantaneous

COMPONENTS V

You whisper a discordant melody that only one creature of your choice within range can hear, wracking it with terrible pain. The target must make a Wisdom saving throw. On a failed save, it takes 3d6 psychic damage and must immediately use its reaction, if available, to move as far as its speed allows away from you. The creature doesn't move into obviously dangerous ground, such as a fire or a pit. On a successful save, the target takes half as much damage and doesn't have to move away. A deafened creature automatically succeeds on the save.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, the damage increases by 1d6 for each slot level above 1st.

Player's Handbook

Frosted Lens

1st-level conjuration

CASTING TIME 1 action

RANGE Self

DURATION 10 Minutes

COMPONENTS V, S

You form a magical lens in a free hand, made from perfectly clear ice. As long as you hold the lens in your hand, you may look through it at any time. Doing so provides advantage on Wisdom (Perception) and Intelligence (Investigation) checks that involve looking at small details of an object or creature up to 100 feet away. Your field of view though the lens is narrow, so it does not provide advantage when the check involves looking around you to spot something (E.g: Finding a creature that you can hear but cannot see).

You can also attack with the lens, although doing so ends the spell. When you cast this spell, or as an action on a later turn, you can hurl the lens at a creature within 30 feet of you. Make a ranged spell attack. On a hit, the lens shatters in a burst of cold and the target takes 3d6 cold damage.

CASTING TIME 1 action

RANGE 60 feet

DURATION Instantaneous

COMPONENTS S, M (a drop of water or piece of ice)

You create a shard of ice and fling it at one creature within range. Make a ranged spell attack against the target. On a hit, the target takes 1d10 piercing damage. Hit or miss, the shard then explodes. The target and each creature within 5 feet of the point where the ice exploded must succeed on a Dexterity saving throw or take 2d6 cold damage.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, the cold damage increases by 1d6 for each slot level above 1st.

Alter Self DND 2024

2nd-level transmutation

CASTING TIME 1 action

RANGE Self

DURATION Concentration, up to 1 hour

COMPONENTS V, S

You alter your physical form. Choose one of the following options. Its effects last for the duration, during which you can take a Magic action to replace the option you chose with a different one.

Aquatic Adaptation. You sprout gills and grow webs between your fingers. You can breathe underwater and gain a Swim Speed equal to your Speed.

Change Appearance. You alter your appearance. You decide what you look like, including your height, weight, facial features, sound of your voice, hair length, coloration, and other distinguishing characteristics. You can make yourself appear as a member of another species, though none of your statistics change. You can't appear as a creature of a different size, and your basic shape stays the same; if you're bipedal, you can't use this spell to become quadrupedal, for instance. For the duration, you can take a Magic action to change your appearance in this way again.

Natural Weapons. You grow claws (Slashing), fangs (Piercing), horns (Piercing), or hooves (Bludgeoning). When you use your Unarmed Strike to deal damage with that new growth, it deals 1d6 damage of the type in parentheses instead of dealing the normal damage for your Unarmed Strike, and you use your spellcasting ability modifier for the attack and damage rolls rather than using Strength.

Until the spell ends, the creature can use an action to exhale energy of the chosen type in a 15-foot cone. Each creature in that area must make a Dexterity saving throw, taking 3d6 damage of the chosen type on a failed save, or half as much damage on a successful one.

At Higher Levels. When you cast this spell using a spell slot of 3rd level or higher, the damage increases by 1d6 for each slot level above 2nd.

2nd-level illusion

CASTING TIME 1 action

RANGE Self

DURATION 1 minute

COMPONENTS V, S

Three illusory duplicates of yourself appear in your space. Until the spell ends, the duplicates move with you and mimic your actions, shifting position so it's impossible to track which image is real.

Each time a creature hits you with an attack roll during the spell's duration, roll a d6 for each of your remaining duplicates. If any of the d6s rolls a 3 or higher, one of the duplicates is hit instead of you, and the duplicate is destroyed. The duplicates otherwise ignore all other damage and effects.

The spell ends when all three duplicates are destroyed. A creature is unaffected by this spell if it has the Blinded condition, Blindsight, or Truesight.

CASTING TIME	1 reaction, which you take when you see a creature within 60 feet of you casting a spell
RANGE	60 feet
DURATION	Instantaneous
COMPONENTS	S

You attempt to interrupt a creature in the process of casting a spell. If the creature is casting a spell of 3rd level or lower, its spell fails and has no effect. On a success, the creature's spell fails and has no effect.

DURATION	Concentration, up to 1 minute
COMPONENTS	V, S, M (a white feather or the heart of a hen)

You project a phantasmal image of a creature's worst fears. Each creature in a 30-foot cone must succeed on a Wisdom saving throw or drop whatever it is holding and become frightened for the duration.

While frightened by this spell, a creature must take the Dash action and move away from you by the safest available route on each of its turns, unless there is nowhere to move. If the creature ends its turn in a location where it doesn't have line of sight to you, the creature can make a Wisdom saving throw. On a successful save, the spell ends for that creature.

CASTING TIME	10 minutes
RANGE	Self
DURATION	Instantaneous
COMPONENTS	V, S, M (incense worth at least 250 gp, which the spell consumes, and four ivory strips worth at least 50 gp each)

Name or describe a famous person, place, or object. The spell brings to your mind a brief summary of the significant lore about that famous thing, as described by the DM.

The lore might consist of important details, amusing revelations, or even secret lore that has never been widely known. The more information you already know about the thing, the more precise and detailed the information you receive is. That information is accurate but might be couched in figurative language or poetry, as determined by the DM.

If the famous thing you chose isn't actually famous, you hear sad musical notes played on a trombone, and the spell fails.

The creature is an ally to you and your allies. In combat, the creature shares your Initiative count, but it takes its turn immediately after yours. It obeys your verbal commands (no action required by you). If you don't issue any, it takes the Dodge action and uses its movement to avoid danger.

Faerie Fire. You can expend 1 charge as an action to cast *faerie fire* from the ring.

Ball Lightning. You can expend 2 charges as an action to create one to four 3-foot-diameter spheres of lightning. The more spheres you create, the less powerful each sphere is individually.

Each sphere appears in an unoccupied space you can see within 120 feet of you. The spheres last as long as you concentrate (as if concentrating on a spell), up to 1 minute. Each sphere sheds dim light in a 30-foot radius.

As a bonus action, you can move each sphere up to 30 feet, but no farther than 120 feet away from you. When a creature other than you comes within 5 feet of a sphere, the sphere discharges lightning at that creature and disappears. That creature must make a DC 15 Dexterity saving throw. On a failed save, the creature takes lightning damage based on the number of spheres you created.

Shooting Stars. You can expend 1 to 3 charges as an action. For every charge you expend, you launch a glowing mote of light from the ring at a point you can see within 60 feet of you. Each creature within a 15-foot cube originating from that point is showered in sparks and must make a DC 15 Dexterity saving throw, taking 5d4 fire damage on a failed save, or half as much damage on a successful one.

Even in death, the titan's core roars — a gift to those who bend flame and fury alike.

This majestic crown, jagged crystal pulses with inner flame. It was carved from the smoldering core of Koralith's fused elemental soul.

While attuned, when you cast a spell that deals fire, cold, lightning, or thunder damage, you may deal additional 1d4 damage as per instance. You can use this feature a number of times equal to your Spellcasting modifier, and you regain all expended uses when you finish a Long Rest.

Blinding Shockwave: Once per long rest, as a reaction to being hit by a melee attack, you can release a shockwave of heat. The attacker takes 2d8 fire damage and must succeed against your Spell Save DC Constitution saving throw or be blinded until the start of their next turn.

Ember Refutation: When casting a spell that deals fire damage, you can choose to make that spell ignore resistance to fire damage once per short rest.

Forged deep within the heart of the frozen North, the Inevitable Force Necklace was a labor of both devotion and necessity. Orv Bezmadan, master smith and cleric of the Forge, saw in the raw, bitter magic of the North a force that could be channeled, but not tamed. Alongside his unlikely apprentice, Neryssa Snow—a scion of ancient draconic blood—they crafted the necklace as a conduit to weave inner strength into the biting cold of magic. While Orv hammered the silvered threads under sacred flames, Neryssa infused them with whispers of her lineage, the ancient breath of frost dragons pulsing within the metal. The result was an artifact that merged heart and ice: a boon to those who embraced their strength, but a beacon for forces drawn to overwhelming power.

This intricate necklace is fashioned from braided silver threads, with a centerpiece resembling a frozen, swirling vortex. Upon attunement, a faint chill clings to the wearer's presence.

While attuned to this necklace, when you cast a spell that deals cold damage, you add your Charisma modifier to the damage dealt by the spell.

Flows:

Tempest Strike. Once per turn, when making a weapon or spell attack, the wielder may channel the storm's wrath, dealing an additional 1d6 Lightning Damage on a successful hit.

Windswept Ascent. Once per day, as a bonus action, the wielder can gain a flying speed of 30 feet (hover) for 1 minute. During this time, the wielder can also double their movement speed for only one turn with no action required. When wielder uses this feature, arcs of lightning crackle around their form, and the air trembles with the whisper of a distant thunderstorm.

These crystal lenses fit over the eyes. While wearing them, you can see much better than normal out to a range of 1 foot. You have advantage on Intelligence (Investigation) checks that rely on sight while searching an area or studying an object within that range.

This wand has 7 charges for the following properties. It regains 1d6 + 1 expended charges daily at dawn. If you expend the wand's last charge, roll a d20. On a 1, the wand crumbles into ashes and is destroyed.

Spells. While holding the wand, you can use an action to expend some of its charges to cast one of the following spells (save DC 17): *hold monster* (5 charges) or *hold person* (2 charges).

Assisted Escape. While holding the wand, you can use your reaction to expend 1 charge and gain advantage on a saving throw you make to avoid being paralyzed or restrained, or you can expend 1 charge and gain advantage on any check you make to escape a grapple.

While holding this wand, you gain a +1 bonus to spell attack rolls. In addition, you ignore half cover when making a spell attack.

You have resistance to cold damage while you hold this staff.

The staff has 10 charges. While holding it, you can use an action to expend 1 or more of its charges to cast one of the following spells from it, using your spell save DC: *cone of cold* (5 charges), *fog cloud* (1 charge), *ice storm* (4 charges), or *wall of ice* (4 charges).

The staff regains 1d6 + 4 expended charges daily at dawn. If you expend the last charge, roll a d20. On a 1, the staff turns to water and is destroyed.

You gain a +1 bonus to AC and saving throws while you wear this cloak.

An arcane focus is a special item—an orb, a crystal, a rod, a specially constructed staff, a wand—like length of wood, or some similar item designed to channel the power of arcane spells. A sorcerer, warlock, or wizard can use such an item as a spellcasting focus.

A backpack is a leather pack carried on the back, typically with straps to secure it. A backpack can hold 1 cubic foot/30 pounds of gear.

You can also strap items, such as a bedroll or a coil of rope, to the outside of a backpack.

This tin box contains a cup and simple cutlery. The box clamps together, and one side can be used as a cooking pan and the other as a plate or shallow bowl.

This small container holds flint, fire steel, and tinder (usually dry cloth soaked in light oil) used to kindle a fire. Using it to light a torch—or anything else with abundant, exposed fuel—takes an action. Lighting any other fire takes 1 minute.

A torch burns for 1 hour, providing bright light in a 20-foot radius and dim light for an additional 20 feet. If you make a melee attack with a burning torch and hit, it deals 1 fire damage.

Rations consist of dry foods suitable for extended travel, including jerky, dried fruit, hardtack, and nuts.

Rope, whether made of hemp or silk, has 2 hit points and can be burst with a DC 17 Strength check.

This bag has an interior space considerably larger than its outside dimensions, roughly 2 feet in diameter at the mouth and 4 feet deep. The bag can hold up to 500 pounds, not exceeding a volume of 64 cubic feet. The bag weighs 15 pounds, regardless of its contents. Retrieving an item from the bag requires an action.

If the bag is overloaded, pierced, or torn, it ruptures and is destroyed, and its contents are scattered in the Astral Plane. If the bag is turned inside out, its contents spill forth, unharmed, but the bag must be put right before it can be used again. Breathing creatures inside the bag can survive up to a number of minutes equal to 10 divided by the number of creatures (minimum 1 minute), after which time they begin to suffocate.

Placing a *bag of holding* inside an extradimensional space created by a *handy haversack*, *portable hole*, or similar item instantly destroys both items and opens a gate to the Astral Plane. The gate originates where the one item was placed inside the other. Any creature within 10 feet of the gate is sucked through it to a random location on the Astral Plane. The gate then closes. The gate is one-way only and can't be reopened.

This fine black cloth, soft as silk, is folded up to the dimensions of a handkerchief. It unfolds into a circular sheet 6 feet in diameter.

You can use an action to unfold a *portable hole* and place it on or against a solid surface, whereupon the *portable hole* creates an extradimensional hole 10 feet deep. The cylindrical space within the hole exists on a different plane, so it can't be used to create open passages. Any creature inside an open *portable hole* can exit the hole by climbing out of it.

You can use an action to close a *portable hole* by taking hold of the edges of the cloth and folding it up. Folding the cloth closes the hole, and any creatures or objects within remain in the extradimensional space. No matter what's in it, the hole weighs next to nothing.

If the hole is folded up, a creature within the hole's extradimensional space can use an action to make a DC 10 Strength check. On a successful check, the creature forces its way out and appears within 5 feet of the *portable hole* or the creature carrying it. A breathing creature within a closed *portable hole* can survive for up to 10 minutes, after which time it begins to suffocate.

A *spell scroll* bears the words of a single spell, written in a mystical cipher. If the spell is on your class's spell list, you can use an action to read the scroll and cast its spell without having to provide any of the spell's components. Otherwise, the scroll is unintelligible.

If the spell is on your class's spell list but of a higher level than you can normally cast, you must make an ability check using your spellcasting ability to determine whether you cast it successfully. The DC equals 10 + the spell's level. On a failed check, the spell disappears from the scroll with no other effect.

Once the spell is cast, the words on the scroll fade, and the scroll itself crumbles to dust.

The level of the spell on the scroll determines the spell's saving throw DC (13) and attack bonus (+5), as well as the scroll's rarity (Uncommon).

This ornate wooden board has the letters of the Common alphabet printed on one side, alongside the words "Yes" and "No" and symbols representing "Weal" and "Woe." The board comes with a heart-shaped, wooden planchette. This planchette must be resting on the lettered side of the board for the board's magic to function.

This board has 3 charges and regains 1 expended charge daily at dawn. While touching the planchette, you can take 1 minute to cast one of the spells on the table below. The table indicates how many charges you must expend to cast the spell. As you cast the spell, you call on the spirits of the dead to help guide the planchette across the board's surface, answering your questions by pointing to the letters or words on the board.

While holding this rod, you gain a +1 bonus spell attack rolls and to the saving throw DCs of your warlock spells. In addition, you can regain one warlock spell slot as an action while holding the rod. You can't use this property again until you finish a long rest.

Spells you cast ignore cold resistance. In addition, when you roll damage for a spell you cast that deals cold damage, you can treat any 1 on a damage die as a 2.

Increase your Charisma by 1, to a maximum of 20.

You gain the following benefits:
Initiative Proficiency: When you roll Initiative, you can add your Proficiency Bonus to the roll.
Initiative Swap: Immediately after you roll Initiative, you can swap your Initiative with the Initiative of one willing ally in the same combat. You can't make this swap if you or the ally has the Incapacitated condition.

Drawing from your innate magic, you can cast spells.
CANTRIPS
You know four Sorcerer cantrips of your choice. Whenever you gain a Sorcerer level, you can replace one of your cantrips from this feature with another Sorcerer cantrip of your choice. When you reach Sorcerer levels 4 and 10, you learn another Sorcerer cantrip of your choice, as shown in the Cantrips column of the Sorcerer Features table.
SPELL SLOTS
The Sorcerer Features table shows how many spell slots you have to cast your level 1+ spells. You regain all expended slots when you finish a Long Rest.
PREPARED SPELLS OF LEVEL 1+
You prepare the list of level 1+ spells that are available for you to cast with this feature. To start, choose two level 1 Sorcerer spells.
The number of spells on your list increases as you gain Sorcerer levels, as shown in the Prepared Spells column of the Sorcerer Features table. Whenever that number increases, choose additional Sorcerer spells until the number of spells on your list matches the number in the Sorcerer Features table. The chosen spells must be of a level for which you have spell slots. For example, if you're a level 3 Sorcerer, your list of prepared spells can include six Sorcerer spells of level 1 or 2 in any combination.
If another Sorcerer feature gives you spells that you always have prepared, those spells don't count against the number of spells you can prepare with this feature, but those spells otherwise count as Sorcerer spells for you.
CHANGING YOUR PREPARED SPELLS
Whenever you gain a Sorcerer level, you can replace one spell on your list with another Sorcerer spell for which you have spell slots.
SPELLCASTING ABILITY
Charisma is your spellcasting ability for your sorcerer spells, since the power of your magic relies on your ability to project your will into the world. You use your Charisma whenever a spell refers to your spellcasting ability. In addition, you use your Charisma modifier when setting the saving throw DC for a sorcerer spell you cast and when making an attack roll with one.
Spell save DC = 8 + your proficiency bonus + your Charisma modifier
Spell attack modifier = your proficiency bonus + your Charisma modifier

An event in your past left an indelible mark on you, infusing you with simmering magic. As a Bonus Action, you can unleash that magic for 1 minute, during which you gain the following benefits:

- The spell save DC of your Sorcerer spells increases by 1.
- You have Advantage on the attack rolls of Sorcerer spells you cast.

You can tap into the wellspring of magic within yourself. This wellspring is represented by Sorcery Points, which allow you to create a variety of magical effects.
You have 2 Sorcery Points, and you gain more as you reach higher levels, as shown in the Sorcery Points column of the Sorcerer Features table. You can't have more Sorcery Points than the number shown in the table for your level. You regain all expended Sorcery Points when you finish a Long Rest.
You can use your Sorcery Points to fuel the options below, along with other features, such as Metamagic, that use those points.
CONVERTING SPELL SLOTS TO SORCERY POINTS
You can expend a spell slot to gain a number of Sorcery Points equal to the slot's level (no action required).
CREATING SPELL SLOTS
As a Bonus Action, you can transform unexpended Sorcery Points into one spell slot. The Creating Spell Slots table shows the cost of creating a spell slot of a given level, and it lists the minimum Sorcerer level you must be to create a slot. You can create a spell slot no higher than level 5.
CREATING SPELLSLOTS

Spell Slot Level	Sorcery Point Cost	Min. Sorcerer Level
1st	2	2
2nd	3	3
3rd	5	5
4th	6	7
5th	7	9

Spell Slots Are Not Permanent. Any spell slot you create with this feature vanishes when you finish a Long Rest.

Because your magic flows from within, you can alter your spells to suit your needs; you gain two Metamagic options of your choice from "Metamagic Options" later in this class's description. You use the chosen options to temporarily modify spells you cast. To use an option, you must spend the number of Sorcery Points that it costs.
You can use only one Metamagic option on a spell when you cast it unless otherwise noted in one of those options.
Whenever you gain a Sorcerer level, you can replace one of your Metamagic options with one you don't know. You gain two more options at Sorcerer level 10 and two more at Sorcerer level 17.

When you cast a spell that deals a type of damage from the following list, you can spend 1 Sorcery Point to change that damage type to one of the other listed types: Acid, Cold, Fire, Lightning, Poison, Thunder.

When you cast a spell that has a casting time of an action, you can spend 2 Sorcery Points to change the casting time to a Bonus Action for this casting. You can't modify a spell in this way if you've already cast a level 1+ spell on the current turn, nor can you cast a level 1+ spell on this turn after modifying a spell in this way.

When you cast a spell that forces other creatures to make a saving throw, you can protect some of those creatures from the spell's full force. To do so, spend 1 Sorcery Point and choose a number of those creatures up to your Charisma modifier (minimum of one creature). A chosen creature automatically succeeds on its saving throw against the spell, and it takes no damage if it would normally take half damage on a successful save.

When you cast a spell, you can spend 1 Sorcery Point to cast it without any Verbal, Somatic, or Material components, except Material components that are consumed by the spell or that have a cost specified in the spell.

When you finish a Short Rest, you can regain expended Sorcery Points, but no more than a number equal to half your Sorcerer level (round down). Once you use this feature, you can't do so again until you finish a Long Rest.

If you have no uses of Innate Sorcery left, you can use it if you spend 2 Sorcery Points when you take the Bonus Action to activate it.

In addition, while your Innate Sorcery feature is active, you can use up to two of your Metamagic options on each spell you cast.

The magic in your body manifests physical traits of your draconic gift. Your Hit Point maximum increases by 3, and it increases by 1 whenever you gain another Sorcerer level.

Parts of you are also covered by dragon-like scales. While you aren't wearing armor, your base Armor Class equals 10 plus your Dexterity and Charisma modifiers.

Your draconic magic has an affinity with a damage type associated with dragons. Choose one of those types: Acid, Cold, Fire, Lightning, or Poison.

You have Resistance to that damage type, and when you cast a spell that deals damage of that type, you can add your Charisma modifier to one damage roll of that spell.
