SPEED, SENSES, & CONDITIONS

Fey Ancestry. You have Advantage on saving throws you make to avoid or end the Charmed condition.

Trance. You don't need to sleep, and magic can't put you to sleep. You can finish a Long Rest in 4 hours if you spend those hours in a trancelike meditation, during which you retain consciousness.

Elven Lineage (Drow). You know the Dancing Lights cantrip, and you can cast the Faerie Fire and Darkness spells once each per Long Rest. Intelligence is your spellcasting ability for the spells you cast with this trait. You can also cast either of those spells using any spell slots you have of the appropriate level.

RACIAL TRAITS

Darkvision. You can see in dim light within 120 feet of you as if it were bright light, and in darkness as if it were dim light.

Lucky (4/Long Rest). When you roll a d20 for a D20 Test, you can give yourself Advantage on the roll.
Alternatively, when a creature rolls a d20 for an attack roll against you, you can impose Disadvantage on that roll.

Fey-Touched. You can cast each of this feat's spells without a spell slot once per Long Rest. You can also cast these spells using spell slots you have of the appropriate level. Your spellcasting ability for these spells is Intelligence.

Spellcasting. You can use an Arcane Focus or your Spellbook as a Spellcasting Focus for your Wizard spells.

Ritual Adept. You can cast any ritual spell in your book as a Ritual, but you must read from the book to cast a spell in this way.

Arcane Recovery (1/Long Rest). When you finish a Short Rest, you can choose expended spell slots up to 5th level to recover. The spell slots can have a combined level that is equal to or less than 6.

Memorize Spell. When you finish a Short Rest, you can replace one prepared level 1+ spell with a different one from your spellbook.

Arcane Ward (1/Long Rest). When you cast an Abjuration spell with a spell slot, you can create a magical ward on yourself that lasts until you finish a Long Rest. The ward has a HP maximum of 29. When you take damage, apply any of your relevant Resistances or Vulnerabilities, the ward then takes the damage instead. If the damage reduces the ward to 0 HPs, you take any remaining damage. While the ward has 0 HPs, it can't absorb damage, but it remains. Whenever you cast an Abjuration spell with a spell slot, the ward regains a number of HPs equal to twice the spell slot's level. Alternatively, as a Bonus Action, you can expend a spell slot, and the ward regains a number of HPs equal to twice the level of the spell slot expended.

Projected Ward (Reaction). When a creature that you can see within 30 feet of yourself takes damage, you can cause your Arcane Ward to absorb that damage, after applying any relevant Resistances or Vulnerabilities that creature has. If this damage reduces the ward to 0 HP, the warded creature takes any remaining damage.

Spell Breaker. You can cast Dispel Magic as a Bonus Action, and you can add your Proficiency Bonus to its ability check. When you cast either spell with a spell slot, that slot isn't expended if the spell fails to stop a spell.

INVENTORY — ADVENTURING GEAR, ARMS, ARMOR, AND OTHER EQUIPMENT

Staff of Power. This staff can be wielded as a magic quarterstaff that grants a +2 bonus to attack and damage rolls made with it. While holding it, you gain a +2 bonus to Armor Class, saving throws, and spell attack rolls.

The staff has 20 charges for the following properties. The staff regains 2d8 + 4 expended charges daily at dawn. If you expend the last charge, roll a d20. On a 1, the staff retains its +2 bonus to attack and damage rolls but loses all other properties. On a 20, the staff regains 1d8 + 2 charges.

Power Strike. When you hit with a melee attack using the staff, you can expend 1 charge to deal an extra 1d6 force damage to the target.

Spells. While holding this staff, you can use an action to expend 1 or more of its charges to cast one of the following spells from it, using your spell save DC and spell attack bonus: *cone of cold* (5 charges), *fireball* (5th-level version, 5 charges), *globe of invulnerability* (6 charges), *hold monster* (5 charges), *levitate* (2 charges), *lightning bolt* (5th-level version, 5 charges), *magic missile* (1 charge), *ray of enfeeblement* (1 charge), or *wall of force* (5 charges).

Retributive Strike. You can use an action to break the staff over your knee or against a solid surface, performing a retributive strike. The staff is destroyed and releases its remaining magic in an explosion that expands to fill a 30-foot-radius sphere centered on it.

You have a 50 percent chance to instantly travel to a random plane of existence, avoiding the explosion. If you fail to avoid the effect, you take force damage equal to 16 x the number of charges in the staff. Every other creature in the area must make a DC 17 Dexterity saving throw. On a failed save, a creature takes an amount of damage based on how far away it is from the point of origin, as shown in the following table. On a successful save, a creature takes half as much damage.

Mizzium Apparatus. Innovation is a dangerous pursuit, at least the way the mages of the Izzet League engage in it. As protection against the risk of an experiment going awry, they have developed a device to help channel and control their magic. This apparatus is a collection of leather straps, flexible tubing, glass cylinders, and plates, bracers, and fittings made from a magic-infused metal alloy called mizzium, all assembled into a harness. The item weighs 8 pounds.

While you are wearing the mizzium apparatus, you can use it as an arcane focus. In addition, you can attempt to cast a spell that you do not know or have prepared. The spell you choose must be on your class's spell list and of a level for which you have a spell slot, and you must provide the spell's components.

You expend a spell slot to cast the spell as normal, but before resolving it you must make an Intelligence (Arcana) check. The DC is 10 + twice the level of the spell slot you expend to cast the spell.

On a successful check, you cast the spell as normal, using your spell save DC and spellcasting ability modifier. On a failed check, you cast a different spell from the one you intended. Randomly determine the spell you cast by rolling on the table for the level of the spell slot you expended. If the slot is 6th level or higher, roll on the table for 5th-level spells.

If you try to cast a cantrip you don't know, the DC for the Intelligence (Arcana) check is 10, and on a failed check, there is no effect.

1ST-LEVEL SPELLS

- Misty Step (Fey-Touched)

Dancing Lights

Illusion Cantrip

CASTING TIME	Action
RANGE	120 feet
DURATION	Concentration, up to 1 minute
COMPONENTS	V, S, M (a bit of phosphorous)

You create up to four torch-size lights within range, making them appear as torches, lanterns, or glowing orbs that hover for the duration. Alternatively, you combine the four lights into one glowing Medium form that is vaguely humanlike. Whichever form you choose, each light sheds Dim Light in a 10-foot radius.

As a Bonus Action, you can move the lights up to 60 feet to a space within range. A light must be within 20 feet of another light created by this spell, and a light vanishes if it exceeds the spell's range.

Intelligence (Drow) *Player's Handbook (2024)*

Mending

Transmutation Cantrip

CASTING TIME	1 minute
RANGE	Touch
DURATION	Instantaneous
COMPONENTS	V, S, M (two lodestones)

This spell repairs a single break or tear in an object you touch, such as a broken chain link, two halves of a broken key, a torn cloak, or a leaking wineskin. As long as the break or tear is no larger than 1 foot in any dimension, you mend it, leaving no trace of the former damage.

This spell can physically repair a magic item, but it can't restore magic to such an object.

Level 1: Spellcasting (Wizard) *Player's Handbook (2024)*

Message

Transmutation Cantrip

CASTING TIME	Action
RANGE	120 feet
DURATION	1 round
COMPONENTS	S, M (a copper wire)

You point toward a creature within range and whisper a message. The target (and only the target) hears the message and can reply in a whisper that only you can hear.

You can cast this spell through solid objects if you are familiar with the target and know it is beyond the barrier. Magical silence; 1 foot of stone, metal, or wood; or a thin sheet of lead blocks the spell.

Level 1: Spellcasting (Wizard) *Player's Handbook (2024)*

Mind Sliver

Enchantment Cantrip

CASTING TIME	Action
RANGE	60 feet
DURATION	1 round
COMPONENTS	V

You try to temporarily sliver the mind of one creature you can see within range. The target must succeed on an Intelligence saving throw or take 1d6 Psychic damage and subtract 1d4 from the next saving throw it makes before the end of your next turn.

Cantrip Upgrade. The damage increases by 1d6 when you reach levels 5 (2d6), 11 (3d6), and 17 (4d6).

Level 1: Spellcasting (Wizard) *Player's Handbook (2024)*

Prestidigitation

Transmutation Cantrip

CASTING TIME	Action
RANGE	10 feet
DURATION	Up to 1 hour
COMPONENTS	V, S

You create a magical effect within range. Choose the effect from the options below. If you cast this spell multiple times, you can have up to three of its non-instantaneous effects active at a time.

Sensory Effect. You create an instantaneous, harmless sensory effect, such as a shower of sparks, a puff of wind, faint musical notes, or an odd odor.

Fire Play. You instantaneously light or snuff out a candle, a torch, or a small campfire.

Clean or Soil. You instantaneously clean or soil an object no larger than 1 cubic foot.

Minor Sensation. You chill, warm, or flavor up to 1 cubic foot of nonliving material for 1 hour.

Magic Mark. You make a color, a small mark, or a symbol appear on an object or a surface for 1 hour.

Minor Creation. You create a nonmagical trinket or an illusory image that can fit in your hand. It lasts until the end of your next turn. A trinket can deal no damage and has no monetary worth.

Level 1: Spellcasting (Wizard) *Player's Handbook (2024)*

Toll the Dead

Necromancy Cantrip

CASTING TIME	Action
RANGE	60 feet
DURATION	Instantaneous
COMPONENTS	V, S

You point at one creature you can see within range, and the single chime of a dolorous bell is audible within 10 feet of the target. The target must succeed on a Wisdom saving throw or take 1d8 Necrotic damage. If the target is missing any of its Hit Points, it instead takes 1d12 Necrotic damage.

Cantrip Upgrade. The damage increases by one die when you reach levels 5 (2d8 or 2d12), 11 (3d8 or 3d12), and 17 (4d8 or 4d12).

Level 1: Spellcasting (Wizard) *Player's Handbook (2024)*

Absorb Elements

1st-level abjuration

CASTING TIME	1 reaction, which you take when you take acid, cold, fire, lightning, or thunder damage
RANGE	Self
DURATION	1 round
COMPONENTS	S

The spell captures some of the incoming energy, lessening its effect on you and storing it for your next melee attack. You have resistance to the triggering damage type until the start of your next turn. Also, the first time you hit with a melee attack on your next turn, the target takes an extra 1d6 damage of the triggering type, and the spell ends.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, the extra damage increases by 1d6 for each slot level above 1st.

Level 1: Spellcasting (Wizard) *Xanathar's Guide to Everything*

Comprehend Languages

1st-level divination (ritual)

CASTING TIME	Action or Ritual
RANGE	Self
DURATION	1 hour
COMPONENTS	V, S, M (a pinch of soot and salt)

For the duration, you understand the literal meaning of any language that you hear or see signed. You also understand any written language that you see, but you must be touching the surface on which the words are written. It takes about 1 minute to read one page of text. This spell doesn't decode symbols or secret messages.

Level 1: Spellcasting (Wizard) *Player's Handbook (2024)*

Faerie Fire

1st-level evocation

CASTING TIME	Action
RANGE	60 feet
DURATION	Concentration, up to 1 minute
COMPONENTS	V

Objects in a 20-foot Cube within range are outlined in blue, green, or violet light (your choice). Each creature in the Cube is also outlined if it fails a Dexterity saving throw. For the duration, objects and affected creatures shed Dim Light in a 10-foot radius and can't benefit from the Invisible condition.

Attack rolls against an affected creature or object have Advantage if the attacker can see it.

Intelligence (Drow) *Player's Handbook (2024)*

Feather Fall

1st-level transmutation

CASTING TIME	Reaction, which you take when you or a creature you can see within 60 feet of you falls
RANGE	60 feet
DURATION	1 minute
COMPONENTS	V, M (a small feather or piece of down)

Choose up to five falling creatures within range. A falling creature's rate of descent slows to 60 feet per round until the spell ends. If a creature lands before the spell ends, the creature takes no damage from the fall, and the spell ends for that creature.

Level 1: Spellcasting (Wizard) *Player's Handbook (2024)*

Find Familiar

1st-level conjuration (ritual)

CASTING TIME	1 hour or Ritual
RANGE	10 feet
DURATION	Instantaneous
COMPONENTS	V, S, M (burning incense worth 10+ GP, which the spell consumes)

You gain the service of a familiar, a spirit that takes an animal form you choose: **Bat, Cat, Frog, Hawk, Lizard, Octopus, Owl, Rat, Raven, Spider, Weasel**, or another Beast that has a Challenge Rating of 0. Appearing in an unoccupied space within range, the familiar has the statistics of the chosen form, though it is a Celestial, Fey, or Fiend (your choice) instead of a Beast. Your familiar acts independently of you, but it obeys your commands.

Telepathic Connection. While your familiar is within 100 feet of you, you can communicate with it telepathically. Additionally, as a Bonus Action, you can see through the familiar's eyes and hear what it hears until the start of your next turn, gaining the benefits of any special senses it has.

Finally, when you cast a spell with a range of touch, your familiar can deliver the touch. Your familiar must be within 100 feet of you, and it must take a Reaction to deliver the touch when you cast the spell.

Combat. The familiar is an ally to you and your allies. It rolls its own Initiative and acts on its own turn. A familiar can't attack, but it can take other actions as normal.

Disappearance of the Familiar. When the familiar drops to 0 Hit Points, it disappears. It reappears after you cast this spell again. As a Magic action, you can temporarily dismiss the familiar to a pocket dimension. Alternatively, you can dismiss it forever. As a Magic action while it is temporarily dismissed, you can cause it to reappear in an unoccupied space within 30 feet of you. Whenever the familiar drops to 0 Hit Points or disappears into the pocket dimension, it leaves behind in its space anything it was wearing or carrying.

One Familiar Only. You can't have more than one familiar at a time. If you cast this spell while you have a familiar, you instead cause it to adopt a new eligible form.

Level 1: Spellcasting (Wizard) *Player's Handbook (2024)*

Gift of Alacrity

1st-level divination (dunamancy)

CASTING TIME	1 action
RANGE	Touch
DURATION	8 hours
COMPONENTS	V, S

You touch a willing creature. For the duration, the target can add 1d8 to its initiative rolls.

Fey-Touched *Explorer's Guide to Wildemount*

Mage Armor

1st-level abjuration

CASTING TIME	Action
RANGE	Touch
DURATION	8 hours
COMPONENTS	V, S, M (a piece of cured leather)

You touch a willing creature who isn't wearing armor. Until the spell ends, the target's base AC becomes 13 plus its Dexterity modifier. The spell ends early if the target dons armor.

Level 1: Spellcasting (Wizard) *Player's Handbook (2024)*

Protection from Evil and Good

1st-level abjuration

CASTING TIME	Action
RANGE	Touch
DURATION	Concentration, up to 10 minutes
COMPONENTS	V, S, M (a flask of Holy Water worth 25+ GP, which the spell consumes)

Until the spell ends, one willing creature you touch is protected against creatures that are Aberrations, Celestials, Elementals, Fey, Fiends, or Undead. The protection grants several benefits. Creatures of those types have Disadvantage on attack rolls against the target. The target also can't be possessed by or gain the Charmed or Frightened conditions from them. If the target is already possessed, Charmed, or Frightened by such a creature, the target has Advantage on any new saving throw against the relevant effect.

Level 1: Spellcasting (Wizard) *Player's Handbook (2024)*

Shield

1st-level abjuration

CASTING TIME	Reaction, which you take when you are hit by an attack roll or targeted by the Magic Missile spell
RANGE	Self
DURATION	1 round
COMPONENTS	V, S

An imperceptible barrier of magical force protects you. Until the start of your next turn, you have a +5 bonus to AC, including against the triggering attack, and you take no damage from *Magic Missile*.

Level 1: Spellcasting (Wizard) *Player's Handbook (2024)*

Unseen Servant

1st-level conjuration (ritual)

CASTING TIME	Action or Ritual
RANGE	60 feet
DURATION	1 hour
COMPONENTS	V, S, M (a piece of string and of wood)

This spell creates an Invisible, mindless, shapeless, Medium force that performs simple tasks at your command until the spell ends. The servant springs into existence in an unoccupied space on the ground within range. It has AC 10, 1 Hit Point, and a Strength of 2, and it can't attack. If it drops to 0 Hit Points, the spell ends.

Once on each of your turns as a Bonus Action, you can mentally command the servant to move up to 15 feet and interact with an object. The servant can perform simple tasks that a human could do, such as fetching things, cleaning, mending, folding clothes, lighting fires, serving food, and pouring drinks. Once you give the command, the servant performs the task to the best of its ability until it completes the task, then waits for your next command.

If you command the servant to perform a task that would move it more than 60 feet away from you, the spell ends.

Level 1: Spellcasting (Wizard) *Player's Handbook (2024)*

Arcane Lock

2nd-level abjuration

CASTING TIME	Action
RANGE	Touch
DURATION	Until dispelled
COMPONENTS	V, S, M (gold dust worth 25+ GP, which the spell consumes)

You touch a closed door, window, gate, container, or hatch and magically lock it for the duration. This lock can't be unlocked by any nonmagical means. You and any creatures you designate when you cast the spell can open and close the object despite the lock. You can also set a password that, when spoken within 5 feet of the object, unlocks it for 1 minute.

Level 3: Abjuration Savant (Wizard) *Player's Handbook (2024)*

Calcified Memories

2nd-level divination (ritual)

CASTING TIME	1 action
RANGE	touch
DURATION	instantanious
COMPONENTS	V, S

You touch the bones of a deceased creature. When you do so, a ghostly grey illusion of the fallen creature appears above its corpse to reenact the last 6 seconds of its life. The illusion only shows the creature's actions, such as reacting to an unseen monster or choking from poisonous gas, but does not show the monster or effect causing the behavior. This spell has no effect on undead creatures. Once a corpse's death has been revealed in this way, it can't be shown again for 24 hours.

Level 1: Spellcasting (Wizard) *Steinhardt's Guide to the Eldritch Hunt*

Darkness

2nd-level evocation

CASTING TIME	Action
RANGE	60 feet
DURATION	Concentration, up to 10 minutes
COMPONENTS	V, M (bat fur and a piece of coal)

For the duration, magical Darkness spreads from a point within range and fills a 15-foot-radius Sphere. Darkvision can't see through it, and nonmagical light can't illuminate it.

Alternatively, you cast the spell on an object that isn't being worn or carried, causing the Darkness to fill a 15-foot Emanation originating from that object. Covering that object with something opaque, such as a bowl or helm, blocks the Darkness.

If any of this spell's area overlaps with an area of Bright Light or Dim Light created by a spell of level 2 or lower, that other spell is dispelled.

Intelligence (Drow) *Player's Handbook (2024)*

Detect Thoughts

2nd-level divination

CASTING TIME	Action
RANGE	Self
DURATION	Concentration, up to 1 minute
COMPONENTS	V, S, M (1 Copper Piece)

You activate one of the effects below. Until the spell ends, you can activate either effect as a Magic action on your later turns.

Sense Thoughts. You sense the presence of thoughts within 30 feet of yourself that belong to creatures that know languages or are telepathic. You don't read the thoughts, but you know that a thinking creature is present.

The spell is blocked by 1 foot of stone, dirt, or wood; 1 inch of metal; or a thin sheet of lead.

Read Thoughts. Target one creature you can see within 30 feet of yourself or one creature within 30 feet of yourself that you detected with the Sense Thoughts option. You learn what is most on the target's mind right now. If the target doesn't know any languages and isn't telepathic, you learn nothing.

As a Magic action on your next turn, you can try to probe deeper into the target's mind. If you probe deeper, the target makes a Wisdom saving throw. On a failed save, you discern the target's reasoning, emotions, and something that looms large in its mind (such as a worry, love, or hate). On a successful save, the spell ends. Either way, the target knows that you are probing into its mind, and until you shift your attention away from the target's mind, the target can take an action on its turn to make an Intelligence (Arcana) check against your spell save DC, ending the spell on a success.

Level 1: Spellcasting (Wizard) *Player's Handbook (2024)*

Misty Step

2nd-level conjuration

CASTING TIME	Bonus Action
RANGE	Self
DURATION	Instantaneous
COMPONENTS	V

Briefly surrounded by silvery mist, you teleport up to 30 feet to an unoccupied space you can see.

Fey-Touched *Player's Handbook (2024)*

Pathfinder's Wisp

2nd-level divination (ritual)

CASTING TIME	1 action
RANGE	60 feet
DURATION	1 hour
COMPONENTS	V, S

You summon a small, glowing wisp of light that hovers within 30 feet of you. On subsequent turns, you can move the wisp up to 30 feet to a space you can see within range (no action required). The wisp emits bright light in a 10-foot radius and dim light for an additional 10 feet.

Choose any number of creatures within range when you cast this spell; the wisp aids them in navigating dangerous areas. While a target is within the bright light of the wisp, it has advantage on Wisdom (Perception) checks made to detect traps and hazards, such as hidden pits or dangerous terrain. If a target is forced to make a saving throw to avoid or resist a trap or environmental hazard, it has advantage on the saving throw if the trap or hazard is within the bright light of the wisp.

The wisp is incorporeal and can't interact with objects or be harmed. If it is ever more than 60 feet from you, it vanishes and the spell ends.

At Higher Levels. When you cast this spell using a spell slot of 4th level or higher, the radius of the wisp's bright light and dim light each increase by 5 feet for each slot level above 3rd.

Level 1: Spellcasting (Wizard) *HailJoe Spells*

Soul Ward

2nd-level necromancy

CASTING TIME	1 action
RANGE	Touch
DURATION	1 hour
COMPONENTS	V, S

You touch a creature, cloaking it in a faint, ghostly aura. For the duration, the target has advantage on death saving throws and on saving throws against being charmed, frightened, or possessed.

If the target fails a saving throw against being charmed, frightened, or possessed, the spell ends.

At Higher Levels. When you cast this spell using a spell slot of 3rd level or higher, you can target one additional creature for each slot level above 2nd.

Level 1: Spellcasting (Wizard) *HailJoe Spells*

Umbral Armor

2nd-level abjuration

CASTING TIME	1 action
RANGE	Self
DURATION	1 hour
COMPONENTS	V, S

Protective shadows envelop you, granting you resistance to necrotic damage for the duration. The first time you are hit by a melee attack on a turn, the attacker must succeed on a Dexterity saving throw or take 2d8 necrotic damage. The necrotic backlash can occur only once per round.

At Higher Levels. When you cast this spell using a spell slot of 3rd level or higher, the damage increases by 1d8 for each slot level above 2nd.

Level 3: Abjuration Savant (Wizard) *HailJoe Spells*

Counterspell

3rd-level abjuration

CASTING TIME	Reaction, which you take when you see a creature within 60 feet of yourself casting a spell with Verbal, Somatic, or Material components
RANGE	60 feet
DURATION	Instantaneous
COMPONENTS	S

You attempt to interrupt a creature in the process of casting a spell. The creature makes a Constitution saving throw. On a failed save, the spell dissipates with no effect, and the action, Bonus Action, or Reaction used to cast it is wasted. If that spell was cast with a spell slot, the slot isn't expended.

Level 10: Spell Breaker (Wizard) *Player's Handbook (2024)*

Dispel Magic

3rd-level abjuration

CASTING TIME	Action
RANGE	120 feet
DURATION	Instantaneous
COMPONENTS	V, S

Choose one creature, object, or magical effect within range. Any ongoing spell of level 3 or lower on the target ends. For each ongoing spell of level 4 or higher on the target, make an ability check using your spellcasting ability (DC 10 plus that spell's level). On a successful check, the spell ends.

Using a Higher-Level Spell Slot. You automatically end a spell on the target if the spell's level is equal to or less than the level of the spell slot you use.

Level 10: Spell Breaker (Wizard) *Player's Handbook (2024)*

Ghostlight Beacon

3rd-level divination (ritual)

CASTING TIME	1 minute
RANGE	30 feet
DURATION	1 minute
COMPONENTS	V, S, M (a shard of moonstone)

You summon a radiant, ghostly beacon that floats above your hand, pulsing with a soft, silvery light. The beacon illuminates a 30-foot radius around it, revealing hidden echoes of the past for the duration. These echoes appear as translucent, ghostly forms of creatures, people, or objects that were present in the area within the last 24 hours. The echoes are purely visual and display brief, fragmented moments of their last actions and locations, lasting only a few seconds before fading away. These echoes do not carry sound, and their features are indistinct, showing only general forms and movements.

Illusions within the beacon's light visibly flicker and shimmer, revealing fragments of their true nature to observers. This effect does not dispel the illusion or reveal hidden creatures or objects, but clearly identifies such effects as magical. Invisible creatures or objects within the area momentarily distort the light, hinting at their presence without exposing their precise location.

The beacon also highlights any deliberate changes made to the environment within its radius, such as moved objects, altered terrain, or disturbed surfaces, outlining them with a faint glow. The spell reveals the most recent change made within the last 24 hours, or a sequence of changes if multiple alterations were made.

At Higher Levels. When you cast this spell using a spell slot of 3rd level or higher, you can extend the time period the spell reveals by 24 hours.

Additional Wizard Spell *HailJoe Spells*

Glyph of Warding

3rd-level abjuration

CASTING TIME	1 hour
RANGE	Touch
DURATION	Until dispelled or triggered
COMPONENTS	V, S, M (powdered diamond worth 200+ GP, which the spell consumes)

You inscribe a glyph that later unleashes a magical effect. You inscribe it either on a surface (such as a table or a section of floor) or within an object that can be closed (such as a book or chest) to conceal the glyph. The glyph can cover an area no larger than 10 feet in diameter. If the surface or object is moved more than 10 feet from where you cast this spell, the glyph is broken, and the spell ends without being triggered.

The glyph is nearly imperceptible and requires a successful Wisdom (Perception) check against your spell save DC to notice.

When you inscribe the glyph, you set its trigger and choose whether it's an explosive rune or a spell glyph, as explained below.

Set the Trigger. You decide what triggers the glyph when you cast the spell. For glyphs inscribed on a surface, common triggers include touching or stepping on the glyph, removing another object covering it, or approaching within a certain distance of it. For glyphs inscribed within an object, common triggers include opening that object or seeing the glyph. Once a glyph is triggered, this spell ends.

You can refine the trigger so that only creatures of certain types activate it (for example, the glyph could be set to affect Aberrations). You can also set conditions for creatures that don't trigger the glyph, such as those who say a certain password.

Explosive Runes. When triggered, the glyph erupts with magical energy in a 20-foot-radius Sphere centered on the glyph. Each creature in the area makes a Dexterity saving throw. A creature takes 5d8 Acid, Cold, Fire, Lightning, or Thunder damage (your choice when you create the glyph) on a failed save or half as much damage on a successful one.

Spell Glyph. You can store a prepared spell of level 3 or lower in the glyph by casting it as part of creating the glyph. The spell must target a single creature or an area. The spell being stored has no immediate effect when cast in this way.

When the glyph is triggered, the stored spell takes effect. If the spell has a target, it targets the creature that triggered the glyph. If the spell affects an area, the area is centered on that creature. If the spell summons Hostile creatures or creates harmful objects or traps, they appear as close as possible to the intruder and attack it. If the spell requires Concentration, it lasts until the end of its full duration.

Using a Higher-Level Spell Slot. The damage of an explosive rune increases by 1d8 for each spell slot level above 3. If you create a spell glyph, you can store any spell of up to the same level as the spell slot you use for the *Glyph of Warding*.

Level 3: Abjuration Savant (Wizard) *Player's Handbook (2024)*

Intellect Fortress

3rd-level abjuration

CASTING TIME	1 action
RANGE	30 feet
DURATION	Concentration, up to 1 hour
COMPONENTS	V

For the duration, you or one willing creature you can see within range has resistance by psychic damage, as well as advantage on Intelligence, Wisdom, and Charisma saving throws.

At Higher Levels. When you cast this spell using a spell slot of 4th level or higher, you can target one additional creature for each slot level above 3rd. The creatures must be within 30 feet of each other when you target them.

Level 1: Spellcasting (Wizard) *Tasha's Cauldron of Everything*

Leomund's Tiny Hut

3rd-level evocation (ritual)

CASTING TIME	1 minute or Ritual
RANGE	Self (10-foot Emanation)
DURATION	8 hours
COMPONENTS	V, S, M (a crystal bead)

A 10-foot Emanation springs into existence around you and remains stationary for the duration. The spell fails when you cast it if the Emanation isn't big enough to fully encapsulate all creatures in its area.

Creatures and objects within the Emanation when you cast the spell can move through it freely. All other creatures and objects are barred from passing through it. Spells of level 3 or lower can't be cast through it, and the effects of such spells can't extend into it.

The atmosphere inside the Emanation is comfortable and dry, regardless of the weather outside. Until the spell ends, you can command the interior to have Dim Light or Darkness (no action required). The Emanation is opaque from the outside and of any color you choose, but it's transparent from the inside.

The spell ends early if you leave the Emanation or if you cast it again.

Level 1: Spellcasting (Wizard) *Player's Handbook (2024)*

Magic Circle

3rd-level abjuration

CASTING TIME	1 minute
RANGE	10 feet
DURATION	1 hour
COMPONENTS	V, S, M (salt and powdered silver worth 100+ GP, which the spell consumes)

You create a 10-foot-radius, 20-foot-tall Cylinder of magical energy centered on a point on the ground that you can see within range. Glowing runes appear wherever the Cylinder intersects with the floor or other surface.

Choose one or more of the following types of creatures: Celestials, Elementals, Fey, Fiends, or Undead. The circle affects a creature of the chosen type in the following ways:

- The creature can't willingly enter the Cylinder by nonmagical means. If the creature tries to use teleportation or interplanar travel to do so, it must first succeed on a Charisma saving throw.
- The creature has Disadvantage on attack rolls against targets within the Cylinder.
- Targets within the Cylinder can't be possessed by or gain the Charmed or Frightened condition from the creature.

Each time you cast this spell, you can cause its magic to operate in the reverse direction, preventing a creature of the specified type from leaving the Cylinder and protecting targets outside it.

Using a Higher-Level Spell Slot. The duration increases by 1 hour for each spell slot level above 3.

Additional Wizard Spell *Player's Handbook (2024)*

Nondetection

3rd-level abjuration

CASTING TIME	Action
RANGE	Touch
DURATION	8 hours
COMPONENTS	V, S, M (a pinch of diamond dust worth 25+ GP, which the spell consumes)

For the duration, you hide a target that you touch from Divination spells. The target can be a willing creature, or it can be a place or an object no larger than 10 feet in any dimension. The target can't be targeted by any Divination spell or perceived through magical scrying sensors.

Level 3: Abjuration Savant (Wizard) *Player's Handbook (2024)*

Ocularion's Eye

3rd-level divination

CASTING TIME	1 action
RANGE	Touch
DURATION	1 Round
COMPONENTS	S, M (a marked bandage)

You bind a creature's eyes to mend its mind. The target regains 5d10 Hit Points and can remove one Short-Term Madness or one Charmed or Frightened condition affecting it. It has the Blinded condition until the end of its next turn.

Level 1: Spellcasting (Wizard) *HailJoe Spells*

Phantom Steed

3rd-level illusion (ritual)

CASTING TIME	1 minute or Ritual
RANGE	30 feet
DURATION	1 hour
COMPONENTS	V, S

A Large, quasi-real, horselike creature appears on the ground in an unoccupied space of your choice within range. You decide the creature's appearance, and it is equipped with a saddle, bit, and bridle. Any of the equipment created by the spell vanishes in a puff of smoke if it is carried more than 10 feet away from the steed.

For the duration, you or a creature you choose can ride the steed. The steed uses the **Riding Horse** stat block, except it has a Speed of 100 feet and can travel 13 miles in an hour. When the spell ends, the steed gradually fades, giving the rider 1 minute to dismount. The spell ends early if the steed takes any damage.

Additional Wizard Spell *Player's Handbook (2024)*

Slow

3rd-level transmutation

CASTING TIME	Action
RANGE	120 feet
DURATION	Concentration, up to 1 minute
COMPONENTS	V, S, M (a drop of molasses)

You alter time around up to six creatures of your choice in a 40-foot Cube within range. Each target must succeed on a Wisdom saving throw or be affected by this spell for the duration.

An affected target's Speed is halved, it takes a -2 penalty to AC and Dexterity saving throws, and it can't take Reactions. On its turns, it can take either an action or a Bonus Action, not both, and it can make only one attack if it takes the Attack action. If it casts a spell with a Somatic component, there is a 25 percent chance the spell fails as a result of the target making the spell's gestures too slowly.

An affected target repeats the save at the end of each of its turns, ending the spell on itself on a success.

Level 1: Spellcasting (Wizard) *Player's Handbook (2024)*

Wisdom of Taltharion

3rd-level divination (ritual)

CASTING TIME	1 action
RANGE	Self
DURATION	1 Hour
COMPONENTS	V, S, M (a book that is written at least 50 years ago and a small bag of coffee beans)

For the duration, you gain the ability to read non-magical texts at a rate of 100 pages per minute. After the spell has ended, you can remember the details of what you read as if you had read it normally with a clear mind. You must be able to comprehend the language in which a text is written in order to utilize this spell.

Additionally, you can combine this spell with any other spell that enables you to read and understand texts written in languages you don't know.

Additional Wizard Spell *HailJoe Spells*

Arcane Anchoring

4th-level conjuration (ritual)

CASTING TIME	10 minutes
RANGE	Touch
DURATION	8 hours
COMPONENTS	V, S, M (a small, engraved stone)

You inscribe a small, glowing sigil on a surface, which then emits a soft, pulsing light that resonates with magical energy. This sigil serves as your arcane anchor, allowing you to return to its location from any distance while within the same plane.

As an action, you can teleport to the anchored location, instantly appearing in the nearest unoccupied space to the sigil. The anchor remains active for 8 hours or until used, after which it fades away. You can only place the anchor on a stable, stationary surface, and it remains fixed in place. If the surface is moved or destroyed, the anchor is dispelled.

While within 100 feet of your arcane anchor, you have advantage on Constitution saving throws made to maintain concentration on spells. You can only use an anchor you placed, and only one arcane anchor can be active at a time.

If the anchor is dispelled by dispel magic or a similar effect cast at 4th level or higher, the spell's effects end.

You can't use the teleportation effect to cross planes; it is limited to the same plane where you placed the anchor. If you move to another plane, the anchor remains but can't be accessed until you return to the same plane.

Level 1: Spellcasting (Wizard) *HailJoe Spells*

Arcane Eye

4th-level divination

CASTING TIME	Action
RANGE	30 feet
DURATION	Concentration, up to 1 hour
COMPONENTS	V, S, M (a bit of bat fur)

You create an Invisible, invulnerable eye within range that hovers for the duration. You mentally receive visual information from the eye, which can see in every direction. It also has Darkvision with a range of 30 feet.

As a Bonus Action, you can move the eye up to 30 feet in any direction. A solid barrier blocks the eye's movement, but the eye can pass through an opening as small as 1 inch in diameter.

Level 1: Spellcasting (Wizard) *Player's Handbook (2024)*

Banishment

4th-level abjuration

CASTING TIME	Action
RANGE	30 feet
DURATION	Concentration, up to 1 minute
COMPONENTS	V, S, M (a pentacle)

One creature that you can see within range must succeed on a Charisma saving throw or be transported to a harmless demiplane for the duration. While there, the target has the Incapacitated condition. When the spell ends, the target reappears in the space it left or in the nearest unoccupied space if that space is occupied.

If the target is an Aberration, a Celestial, an Elemental, a Fey, or a Fiend, the target doesn't return if the spell lasts for 1 minute. The target is instead transported to a random location on a plane (DM's choice) associated with its creature type.

Using a Higher-Level Spell Slot. You can target one additional creature for each spell slot level above 4.

Level 1: Spellcasting (Wizard) *Player's Handbook (2024)*

Dimension Door

4th-level conjuration

CASTING TIME	Action
RANGE	500 feet
DURATION	Instantaneous
COMPONENTS	V

You teleport to a location within range. You arrive at exactly the spot desired. It can be a place you can see, one you can visualize, or one you can describe by stating distance and direction, such as "200 feet straight downward" or "300 feet upward to the northwest at a 45-degree angle."

You can also teleport one willing creature. The creature must be within 5 feet of you when you teleport, and it teleports to a space within 5 feet of your destination space.

If you, the other creature, or both would arrive in a space occupied by a creature or completely filled by one or more objects, you and any creature traveling with you each take 4d6 Force damage, and the teleportation fails.

Level 1: Spellcasting (Wizard) *Player's Handbook (2024)*

Ward of the Evil Eye

4th-level abjuration

CASTING TIME	1 action
RANGE	Self
DURATION	Concentration, up to 10 minutes
COMPONENTS	V, S, M (an evil eye talisman)

You call upon the power of the evil eye to create a protective ward around yourself and your allies. When you cast this spell, you create a faint aura with a radius of 10 feet centered on yourself, and the aura moves with you. The aura provides protection to you and your allies within it.

While the aura is active, you and your allies within it gain resistance to one type of damage of your choice, except psychic. Additionally, any enemy within the aura has disadvantage on attack rolls against you and your allies as long as you remain conscious.

At Higher Levels. When you cast this spell using a spell slot of 5th level or higher, the radius of the aura increases by 5 feet for each level above 4th.

The evil eye talisman used as the material component of this spell can be any small, round object with an eye symbol on it. It can be made of any material, but it must be consecrated by a priest of an evil deity before it can be used in this spell.

Additional Wizard Spell *HailJoe Spells*

Circle of Power

5th-level abjuration

CASTING TIME	Action
RANGE	Self (30-foot Emanation)
DURATION	Concentration, up to 10 minutes
COMPONENTS	V

An aura radiates from you in a 30-foot Emanation for the duration. While in the aura, you and your allies have Advantage on saving throws against spells and other magical effects. When an affected creature makes a saving throw against a spell or magical effect that allows a save to take only half damage, it takes no damage if it succeeds on the save.

Level 3: Abjuration Savant (Wizard) *Player's Handbook (2024)*

Planar Binding

5th-level abjuration

CASTING TIME	1 hour
RANGE	60 feet
DURATION	24 hours
COMPONENTS	V, S, M (a jewel worth 1,000+ GP, which the spell consumes)

You attempt to bind a Celestial, an Elemental, a Fey, or a Fiend to your service. The creature must be within range for the entire casting of the spell. (Typically, the creature is first summoned into the center of the inverted version of the *Magic Circle* spell to trap it while this spell is cast.) At the completion of the casting, the target must succeed on a Charisma saving throw or be bound to serve you for the duration. If the creature was summoned or created by another spell, that spell's duration is extended to match the duration of this spell.

A bound creature must follow your commands to the best of its ability. You might command the creature to accompany you on an adventure, to guard a location, or to deliver a message. If the creature is Hostile, it strives to twist your commands to achieve its own objectives. If the creature carries out your commands completely before the spell ends, it travels to you to report this fact if you are on the same plane of existence. If you are on a different plane, it returns to the place where you bound it and remains there until the spell ends.

Using a Higher-Level Spell Slot. The duration increases with a spell slot of level 6 (10 days), 7 (30 days), 8 (180 days), and 9 (366 days).

Additional Wizard Spell *Player's Handbook (2024)*

Rary's Telepathic Bond

5th-level divination (ritual)

CASTING TIME	Action or Ritual
RANGE	30 feet
DURATION	1 hour
COMPONENTS	V, S, M (two eggs)

You forge a telepathic link among up to eight willing creatures of your choice within range, psychically linking each creature to all the others for the duration. Creatures that can't communicate in any languages aren't affected by this spell.

Until the spell ends, the targets can communicate telepathically through the bond whether or not they share a language. The communication is possible over any distance, though it can't extend to other planes of existence.

Level 1: Spellcasting (Wizard) *Player's Handbook (2024)*

Synaptic Static

5th-level enchantment

CASTING TIME	Action
RANGE	120 feet
DURATION	Instantaneous
COMPONENTS	V, S

You cause psychic energy to erupt at a point within range. Each creature in a 20-foot-radius Sphere centered on that point makes an Intelligence saving throw, taking 8d6 Psychic damage on a failed save or half as much damage on a successful one.

On a failed save, a target also has muddled thoughts for 1 minute. During that time, it subtracts 1d6 from all its attack rolls and ability checks, as well as any Constitution saving throws to maintain Concentration. The target makes an Intelligence saving throw at the end of each of its turns, ending the effect on itself on a success.

Level 1: Spellcasting (Wizard) *Player's Handbook (2024)*

Teleportation Circle

5th-level conjuration

CASTING TIME	1 minute
RANGE	10 feet
DURATION	1 round
COMPONENTS	V, M (rare inks worth 50+ GP, which the spell consumes)

As you cast the spell, you draw a 5-foot-radius circle on the ground inscribed with sigils that link your location to a permanent teleportation circle of your choice whose sigil sequence you know and that is on the same plane of existence as you. A shimmering portal opens within the circle you drew and remains open until the end of your next turn. Any creature that enters the portal instantly appears within 5 feet of the destination circle or in the nearest unoccupied space if that space is occupied.

Many major temples, guildhalls, and other important places have permanent teleportation circles. Each circle includes a unique sigil sequence—a string of runes arranged in a particular pattern.

When you first gain the ability to cast this spell, you learn the sigil sequences for two destinations on the Material Plane, determined by the DM. You might learn additional sigil sequences during your adventures. You can commit a new sigil sequence to memory after studying it for 1 minute.

You can create a permanent teleportation circle by casting this spell in the same location every day for 365 days.

Level 1: Spellcasting (Wizard) *Player's Handbook (2024)*

Wall of Stone

5th-level evocation

CASTING TIME	Action
RANGE	120 feet
DURATION	Concentration, up to 10 minutes
COMPONENTS	V, S, M (a cube of granite)

A nonmagical wall of solid stone springs into existence at a point you choose within range. The wall is 6 inches thick and is composed of ten 10-foot-by-10-foot panels. Each panel must be contiguous with another panel. Alternatively, you can create 10-foot-by-20-foot panels that are only 3 inches thick.

If the wall cuts through a creature's space when it appears, the creature is pushed to one side of the wall (you choose which side). If a creature would be surrounded on all sides by the wall (or the wall and another solid surface), that creature can make a Dexterity saving throw. On a success, it can use its Reaction to move up to its Speed so that it is no longer enclosed by the wall.

The wall can have any shape you desire, though it can't occupy the same space as a creature or object. The wall doesn't need to be vertical or rest on a firm foundation. It must, however, merge with and be solidly supported by existing stone. Thus, you can use this spell to bridge a chasm or create a ramp.

If you create a span greater than 20 feet in length, you must halve the size of each panel to create supports. You can crudely shape the wall to create battlements and the like.

The wall is an object made of stone that can be damaged and thus breached. Each panel has AC 15 and 30 Hit Points per inch of thickness, and it has Immunity to Poison and Psychic damage. Reducing a panel to 0 Hit Points destroys it and might cause connected panels to collapse at the DM's discretion.

If you maintain your Concentration on this spell for its full duration, the wall becomes permanent and can't be dispelled. Otherwise, the wall

Level 1: Spellcasting (Wizard) *Player's Handbook (2024)*

Contingency

6th-level abjuration

CASTING TIME	10 minutes
RANGE	Self
DURATION	10 days
COMPONENTS	V, S, M (a gem-encrusted statuette of yourself worth 1,500+ GP)

Choose a spell of level 5 or lower that you can cast, that has a casting time of an action, and that can target you. You cast that spell—called the contingent spell—as part of casting *Contingency*, expending spell slots for both, but the contingent spell doesn't come into effect. Instead, it takes effect when a certain trigger occurs. You describe that trigger when you cast the two spells. For example, a *Contingency* cast with *Water Breathing* might stipulate that *Water Breathing* comes into effect when you are engulfed in water or a similar liquid.

The contingent spell takes effect immediately after the trigger occurs for the first time, whether or not you want it to, and then *Contingency* ends.

The contingent spell takes effect only on you, even if it can normally target others. You can use only one *Contingency* spell at a time. If you cast this spell again, the effect of another *Contingency* spell on you ends. Also, *Contingency* ends on you if its material component is ever not on your person.

Level 3: Abjuration Savant (Wizard) *Player's Handbook (2024)*

Globe of Invulnerability

6th-level abjuration

CASTING TIME	Action
RANGE	Self (10-foot Emanation)
DURATION	Concentration, up to 1 minute
COMPONENTS	V, S, M (a glass bead)

An immobile, shimmering barrier appears in a 10-foot Emanation around you and remains for the duration.

Any spell of level 5 or lower cast from outside the barrier can't affect anything within it. Such a spell can target creatures and objects within the barrier, but the spell has no effect on them. Similarly, the area within the barrier is excluded from areas of effect created by such spells.

Using a Higher-Level Spell Slot. The barrier blocks spells of 1 level higher for each spell slot level above 6.

Level 1: Spellcasting (Wizard) *Player's Handbook (2024)*

Mass Suggestion

6th-level enchantment

CASTING TIME	Action
RANGE	60 feet
DURATION	24 hours
COMPONENTS	V, M (a snake's tongue)

You suggest a course of activity—described in no more than 25 words—to twelve or fewer creatures you can see within range that can hear and understand you. The suggestion must sound achievable and not involve anything that would obviously deal damage to any of the targets or their allies. For example, you could say, "Walk to the village down that road, and help the villagers there harvest crops until sunset." Or you could say, "Now is not the time for violence. Drop your weapons, and dance! Stop in an hour."

Each target must succeed on a Wisdom saving throw or have the Charmed condition for the duration or until you or your allies deal damage to the target. Each Charmed target pursues the suggestion to the best of its ability. The suggested activity can continue for the entire duration, but if the suggested activity can be completed in a shorter time, the spell ends for a target upon completing it.

Using a Higher-Level Spell Slot. The duration is longer with a spell slot of level 7 (10 days), 8 (30 days), or 9 (366 days).

Level 1: Spellcasting (Wizard) *Player's Handbook (2024)*

Scatter

6th-level conjuration

CASTING TIME	1 action
RANGE	30 feet
DURATION	Instantaneous
COMPONENTS	V

The air quivers around up to five creatures of your choice that you can see within range. An unwilling creature must succeed on a Wisdom saving throw to resist this spell. You teleport each affected target to an unoccupied space that you can see within 120 feet of you. That space must be on the ground or on a floor.

Level 1: Spellcasting (Wizard) *Xanathar's Guide to Everything*

True Seeing

6th-level divination

CASTING TIME	Action
RANGE	Touch
DURATION	1 hour
COMPONENTS	V, S, M (mushroom powder worth 25+ GP, which the spell consumes)

For the duration, the willing creature you touch has Truesight with a range of 120 feet.

Level 1: Spellcasting (Wizard) *Player's Handbook (2024)*

Staff of Power

Staffs

This staff can be wielded as a magic quarterstaff that grants a +2 bonus to attack and damage rolls made with it. While holding it, you gain a +2 bonus to Armor Class, saving throws, and spell attack rolls.

The staff has 20 charges for the following properties. The staff regains 2d8 + 4 expended charges daily at dawn. If you expend the last charge, roll a d20. On a 1, the staff retains its +2 bonus to attack and damage rolls but loses all other properties. On a 20, the staff regains 1d8 + 2 charges.

Power Strike. When you hit with a melee attack using the staff, you can expend 1 charge to deal an extra 1d6 force damage to the target.

Spells. While holding this staff, you can use an action to expend 1 or more of its charges to cast one of the following spells from it, using your spell save DC and spell attack bonus: *cone of cold* (5 charges), *fireball* (5th-level version, 5 charges), *globe of invulnerability* (6 charges), *hold monster* (5 charges), *levitate* (2 charges), *lightning bolt* (5th-level version, 5 charges), *magic missile* (1 charge), *ray of enfeeblement* (1 charge), or *wall of force* (5 charges).

Retributive Strike. You can use an action to break the staff over your knee or against a solid surface, performing a retributive strike. The staff is destroyed and releases its remaining magic in an explosion that expands to fill a 30-foot-radius sphere centered on it.

You have a 50 percent chance to instantly travel to a random plane of existence, avoiding the explosion. If you fail to avoid the effect, you take force damage equal to 16 x the number of charges in the staff. Every other creature in the area must make a DC 17 Dexterity saving throw. On a failed save, a creature takes an amount of damage based on how far away it is from the point of origin, as shown in the following table. On a successful save, a creature takes half as much damage.

Distance from Origin	Damage
10 ft. away or closer	8 x the number of charges in the staff
11 to 20 ft. away	6 x the number of charges in the staff
21 to 30 ft. away	4 x the number of charges in the staff

Mizzium Apparatus

Wondrous Items

Innovation is a dangerous pursuit, at least the way the mages of the Izzet League engage in it. As protection against the risk of an experiment going awry, they have developed a device to help channel and control their magic. This apparatus is a collection of leather straps, flexible tubing, glass cylinders, and plates, bracers, and fittings made from a magic-infused metal alloy called mizzium, all assembled into a harness. The item weighs 8 pounds.

While you are wearing the mizzium apparatus, you can use it as an arcane focus. In addition, you can attempt to cast a spell that you do not know or have prepared. The spell you choose must be on your class's spell list and of a level for which you have a spell slot, and you must provide the spell's components.

You expend a spell slot to cast the spell as normal, but before resolving it you must make an Intelligence (Arcana) check. The DC is 10 + twice the level of the spell slot you expend to cast the spell.

On a successful check, you cast the spell as normal, using your spell save DC and spellcasting ability modifier. On a failed check, you cast a different spell from the one you intended. Randomly determine the spell you cast by rolling on the table for the level of the spell slot you expended. If the slot is 6th level or higher, roll on the table for 5th-level spells.

If you try to cast a cantrip you don't know, the DC for the Intelligence (Arcana) check is 10, and on a failed check, there is no effect.

1ST-LEVEL SPELLS

d6	Spell
1	burning hands
2	chaos bolt
3	color spray
4	faerie fire
5	fog cloud
6	thunderwave

2ND-LEVEL SPELLS

Dagger

Weapons

MASTERY

Nick. When you make the extra attack of the Light property, you can make it as part of the Attack action instead of as a Bonus Action. You can make this extra attack only once per turn.

1 lb. Player's Handbook (2024)

Quarterstaff

Weapons

MASTERY
Topple. If you hit a creature with this weapon, you can force the creature to make a Constitution saving throw (DC 8 plus the ability modifier used to make the attack roll and your Proficiency Bonus). On a failed save, the creature has the Prone condition.

4 lb. Player's Handbook (2024)

Robe

Adventuring Gear

A Robe has vocational or ceremonial significance. Some events and locations admit only people wearing a Robe bearing certain colors or symbols.

4 lb. Player's Handbook (2024)

Book

Adventuring Gear

A Book contains fiction or nonfiction. If you consult an accurate nonfiction Book about its topic, you gain a +5 bonus to Intelligence (Arcana, History, Nature, or Religion) checks you make about that topic.

5 lb. Player's Handbook (2024)

Backpack

Adventuring Gear

A Backpack holds up to 30 pounds within 1 cubic foot. It can also serve as a saddlebag.

5 lb. Player's Handbook (2024)

Ink

Adventuring Gear

Ink comes in a 1-ounce bottle, which provides enough ink to write about 500 pages.

— Player's Handbook (2024)

Ink Pen

Adventuring Gear

Using Ink, an Ink Pen is used to write or draw.

— Player's Handbook (2024)

Lamp

Adventuring Gear

A Lamp burns Oil as fuel to cast Bright Light in a 15-foot radius and Dim Light for an additional 30 feet.

1 lb. Player's Handbook (2024)

Oil

Adventuring Gear

You can douse a creature, object, or space with Oil or use it as fuel, as detailed below.

Dousing a Creature or an Object. When you take the Attack action, you can replace one of your attacks with throwing an Oil flask. Target one creature or object within 20 feet of yourself. The target must succeed on a Dexterity saving throw (DC 8 plus your Dexterity modifier and Proficiency Bonus) or be covered in oil. If the target takes Fire damage before the oil dries (after 1 minute), the target takes an extra 5 Fire damage from burning oil.

Dousing a Space. You can take the Utilize action to pour an Oil flask on level ground to cover a 5-foot square area within 5 feet of yourself. If lit, the oil burns until the end of the turn 2 rounds from when the oil was lit (or 12 seconds) and deals 5 Fire damage to any creature that enters the area or ends its turn there. A creature can take this damage only once per turn.

Fuel. Oil serves as fuel for Lamps and Lanterns. Once lit, a flask of Oil burns for 6 hours in a Lamp or Lantern. That duration doesn't need to be consecutive; you can extinguish the burning Oil (as a Utilize action) and rekindle it again until it has burned for a total of 6 hours.

1 lb. Player's Handbook (2024)

Parchment

Adventuring Gear

One sheet of Parchment can hold about 250 handwritten words.

— Player's Handbook (2024)

Tinderbox

Adventuring Gear

A Tinderbox is a small container holding flint, fire steel, and tinder (usually dry cloth soaked in light oil) used to kindle a fire. Using it to light a Candle, Lamp, Lantern, or Torch—or anything else with exposed fuel—takes a Bonus Action. Lighting any other fire takes 1 minute.

1 lb. Player's Handbook (2024)

Potion of Greater Healing

Potions

The creature that drinks the magical red fluid in this vial regains 4d4 + 4 Hit Points.

The potion's red liquid glimmers when agitated.

½ lb. Dungeon Master's Guide (2024)

Rope

Adventuring Gear

As a Utilize action, you can tie a knot with Rope if you succeed on a DC 10 Dexterity (Sleight of Hand) check. The Rope can be burst with a successful DC 20 Strength (Athletics) check.

You can bind an unwilling creature with the Rope only if the creature has the Grappled, Incapacitated, or Restrained condition. If the creature's legs are bound, the creature has the Restrained condition until it escapes. Escaping the Rope requires the creature to make a successful DC 15 Dexterity (Acrobatics) check as an action.

5 lb. Player's Handbook (2024)

Darkvision

Vision

Many creatures in the worlds of D&D, especially those that dwell underground, have darkvision. Within a specified range, a creature with darkvision can see in darkness as if the darkness were dim light, so areas of darkness are only lightly obscured as far as that creature is concerned. However, the creature can't discern color in darkness, only shades of gray.

Drow — Aurora Legacy Essentials

Fey Ancestry

Racial Trait

You have Advantage on saving throws you make to avoid or end the Charmed condition.

Elf — Player's Handbook (2024)

Trance

Racial Trait

You don't need to sleep, and magic can't put you to sleep. You can finish a Long Rest in 4 hours if you spend those hours in a trancelike meditation, during which you retain consciousness.

Elf — Player's Handbook (2024)

Intelligence

Racial Trait

Intelligence is your spellcasting ability for the spells you cast with Elven Lineage trait.

Drow — Player's Handbook (2024)

Lucky

Feat

Origin Feat

You gain the following benefits.

Luck Points. You have a number of Luck Points equal to your Proficiency Bonus and can spend the points on the benefits below. You regain your expended Luck Points when you finish a Long Rest.

Advantage. When you roll a d20 for a D20 Test, you can spend 1 Luck Point to give yourself Advantage on the roll.

Disadvantage. When a creature rolls a d20 for an attack roll against you, you can spend 1 Luck Point to impose Disadvantage on that roll.

Custom Background — Player's Handbook (2024)

Intelligence

Feat Feature

Increase your Intelligence by 1, to a maximum of 20.

Fey-Touched — Player's Handbook (2024)

Level 1: Spellcasting

Class Feature

As a student of arcane magic, you have learned to cast spells.

Cantrips. You know three Wizard cantrips of your choice. *Light*, *Mage Hand*, and *Ray of Frost* are recommended. Whenever you finish a long rest, you can replace one of your cantrips from this feature with another Wizard cantrip of your choice.

When you reach Wizard levels 4 and 10, you learn another Wizard cantrip of your choice, as shown in the Cantrips column of the Wizard Features table.

Spellbook. Your wizardly apprenticeship culminated in the creation of a unique book: your spellbook. It is a Tiny object that weights 3 pounds, contains 100 pages and can be read only by you or someone casting *Identify*. You determine the book's appearance and materials, such as a gilt-edged tome or a collection of vellum bound with twine.

The book contains the level 1+ spells you know. It starts with six level 1 Wizard spells of your choice. *Detect Magic*, *Feather Fall*, *Mage Armor*, *Magic Missile*, *Sleep*, and *Thunderwave* are recommended.

Whenever you gain a Wizard level after 1, add two Wizard spells of your choice to your spellbook. Each of these spells must be of a level for which you have spell slots, as shown in the Wizard Features table. The spells are the culmination of arcane research you do regularly.

Spell Slots. The Wizard Features table shows how many spell slots you have to cast your level 1+ spells. You regain all expended slots when you finish a Long Rest.

Prepared Spells of Level 1+. You prepare the list of level 1+ spells that are available for you to cast with this feature. To do so, choose four spells from your spellbook. The chosen spells must be of a level for which you have spell slots.

The number of spells on your list increases as you gain Wizard levels, as shown in the Prepared Spells column of the Wizard Features table. Whenever that number increases, choose additional Wizard spells until the number of spells on your list matches the number in the table. The chosen spells must be of a level for which you have spell slots. For example, if you're a level 3 Wizard, your list of prepared spells can include six spells of levels 1 and 2 in any combination, chosen from your spellbook.

If another Wizard feature gives you spells that you always have prepared, those spells don't count against the number of spells you can prepare with this feature, but those spells otherwise count as Wizard spells for you.

Changing Your Prepared Spells. Whenever you finish a Long Rest, you can change your list of prepared spells, replacing any of the spells there with spells from your spellbook

Spellcasting Ability. Intelligence is your spellcasting ability for your Wizard spells.

Spellcasting Focus. You can use an Arcane Focus or your spellbook as a Spellcasting Focus for your Wizard spells.

Spell save DC = 8 + your proficiency bonus + your Intelligence modifier

Spell attack modifier = your proficiency bonus + your Intelligence modifier

EXPANDING AND REPLACING A SPELLBOOK

The spells you add to your spellbook as you gain levels reflect your ongoing magical research, but you might find other spells during your adventures that you can add to the book. You could discover a Wizard spell on a *Spell Scroll*, for example, and then copy it into your spellbook.

Copying a Spell into the Book. When you find a level 1+ Wizard spell, you can copy it into your spellbook if it's of a level you can prepare and if you have time to copy it. For each level of the spell, the transcription takes 2 hours and costs 50 GP. Afterward you can prepare the spell like the other spells in your spellbook.

Copying the Book. You can copy a spell from your spellbook into another book. This is like copying a new spell into your spellbook but faster, since you already know how to cast the spell. You need spend only 1 hour and 10 GP for each level of the copied spell.

If you lose your spellbook, you can use the same procedure to transcribe the Wizard spells that you have prepared into a new spellbook. Filling out the remainder of the new book requires you to find new spells to do so. For this reason, many wizards keep a backup spellbook.

Wizard — Player's Handbook (2024)

Level 1: Ritual Adept

Class Feature

You can cast any spell as a Ritual if that spell has the Ritual tag and the spell is in your spellbook. You needn't have the spell prepared, but must read from the book to cast a spell in this way.

Wizard — Player's Handbook (2024)

Level 1: Arcane Recovery

Class Feature

You can regain some of your magical energy by studying your spellbook. When you finish a Short Rest, you can choose expended spell slots to recover. The spell slots can have a combined level equal to no more than half your Wizard level (round up), and none of the slots can be level 6 or higher. For example, if you're a level 4 Wizard, you can recover up to two levels' worth of spell slots, regaining either one level 2 spell slot or two level 1 spell slots.

Once you use this feature, you can't do so again until you finish a Long Rest.

Wizard — Player's Handbook (2024)

Level 5: Memorize Spell

Class Feature

Whenever you finish a Short Rest, you can study your spellbook and replace one of the level 1+ Wizard spells you have prepared for your Spellcasting feature with another level 1+ spell from the book.

Wizard — Player's Handbook (2024)

Level 3: Arcane Ward

Archetype Feature

You can weave magic around yourself for protection. When you cast an Abjuration spell with a spell slot, you can simultaneously use a strand of the spell's magic to create a magical ward on yourself that lasts until you finish a Long Rest. The ward has a Hit Point maximum equal to twice your Wizard level plus your Intelligence modifier. Whenever you take damage, the ward takes the damage instead, and if you have any Resistances or Vulnerabilities, apply them before reducing the ward's Hit Points. If the damage reduces the ward to 0 Hit Points, you take any remaining damage. While the ward has 0 Hit Points, it can't absorb damage, but its magic remains.

Whenever you cast an Abjuration spell with a spell slot, the ward regains a number of Hit Points equal to twice the level of the spell slot. Alternatively, as a Bonus Action, you can expend a spell slot, and the ward regains a number of Hit Points equal to twice the level of the spell slot expended.

Once you create the ward, you can't create it again until you finish a Long Rest.

Abjurer — Player's Handbook (2024)

Level 6: Projected Ward

Archetype Feature

When a creature that you can see within 30 feet of yourself takes damage, you can take a Reaction to cause your Arcane Ward to absorb that damage. If this damage reduces the ward to 0 Hit Points, the warded creature takes any remaining damage. If that creature has any Resistances or Vulnerabilities, apply them before reducing the ward's Hit Points.

Abjurer — Player's Handbook (2024)

Level 10: Spell Breaker

Archetype Feature

You always have the *Counterspell* and *Dispel Magic* spells prepared. In addition, you can cast *Dispel Magic* as a Bonus Action, and you can add your Proficiency Bonus to its ability check.

When you cast either spell with a spell slot, that slot isn't expended if the spell fails to stop a spell.

Abjurer — Player's Handbook (2024)
