Hellish Resistance. You have resistance to fire damage.

Legacy of Phlegethos. You know the friends cantrip. When you reach 3rd level, you can cast the charm person spell as a 2nd-level spell once with this trait and regain the ability to do so when you finish a long rest. When you reach 5th level, you can cast the suggestion spell once with this trait and regain the ability to do so when you finish a long rest. Charisma is your spellcasting ability for these spells.

RACIAL TRAITS

Telepathic. You can speak telepathically to any creature you can see within 60 feet of you. Your telepathic utterances are in a language you know, and the creature understands you only if it knows that language. Your communication doesn't give the creature the ability to respond to you telepathically.

You can cast the detect thoughts spell, requiring no spell slot or components, and you must finish a long rest before you can cast this way again. Your spellcasting ability for this spell is Charisma. If you have spell slots of 2nd level or higher, you can cast this spell with them.

Spellcasting. Drawing from your innate magic, you can cast spells. You can prepare 16 spells from your spell list. You can use an arcane focus as your spellcasting focus.

Innate Sorcery (Bonus Action). You can unleash Innate Sorcery for 1 minute and spell save DC of your Sorcerer spells increases by 1. You also gain Advantage on the attack rolls of Sorcerer spells you cast during this duration.

Font of Magic (Bonus Action). You have 11 Sorcery Points. You can transform unexpended sorcery points into one spell slot (2 > 1st, 3 > 2nd, 5 > 3rd, 6 > 4th, 7 > 5th) on your turn or you can expend one spell slot and gain a number of sorcery points equal to the slot's level.

Metamagic. You can use only one Metamagic option on a spell when you cast it, unless otherwise noted.

Careful Spell. When you cast a spell that forces other creatures to make a saving throw, you can protect some of those creatures from the spell's full force. To do so, spend 1 Sorcery Point and choose a number of those creatures up to your Charisma modifier (minimum of one creature). A chosen creature automatically succeeds on its saving throw against the spell, and it takes no damage if it would normally take half damage on a successful save.

Subtle Spell. When you cast a spell, you can spend 1 Sorcery Point to cast it without any Verbal, Somatic, or Material components, except Material components that are consumed by the spell or that have a cost specified in the spell.

Twinned Spell. When you cast a spell, such as Charm Person, that can be cast with a higher-level spell slot to target an additional creature, you can spend 1 Sorcery Point to increase the spell's effective level by 1.

Extended Spell. When you cast a spell that has a duration of 1 minute or longer, you can spend 1 sorcery point to double its duration, to a maximum duration of 24 hours. If the affected spell requires Concentration, you have Advantage on any saving throw you make to maintain that Concentration.

Sorcerous Restoration (1/Long Rest). When you finish a Short Rest, you can regain expended Sorcery Points, but no more than a number equal to half your Sorcerer level (round down). Once you use this feature, you can't do so again until you finish a Long Rest.

Sorcery Incarnate (Bonus Action). If you have no uses of Innate Sorcery left, you can use it if you spend 2 Sorcery Points when you take the Bonus Action to activate it. In addition, while your Innate Sorcery feature is active, you can use up to two of your Metamagic options on each spell you cast.

Eyes of the Dark. You can spend 2 sorcery points to cast darkness spell. If you cast it this way, you can see through the darkness created by it.

Superior Darkvision. You can see in dim light within 120 feet of you as if it were bright light, and in darkness as if it were dim light.

Strength of the Grave. When damage reduces you to 0 hit points, make a Charisma saving throw (DC5 + damage taken). On a success, you drop to 1 hit point and cannot use this feature again until you finish a long rest.

Hound of Ill Omen (Bonus Action). Spend 3 sorcery points to summon a hound of ill omen to target one creature you can see within 120ft of you. The hound uses the dire wolf's statistics, with the following changes: Its size is Medium and it counts as a monstrosity. It appears with ==UNKNOWN_VALUE== temporary hit points. It can move through other creatures and objects as if they were difficult terrain. The hound takes 5 force damage if it ends turn inside an object. The hound appears in an unoccupied space of your choice within 30 feet of the target. Roll initiative for the hound. It knows its target's location and on its turn, it moves toward it by the most direct route, and it can use its action only to attack target. The hound can make opportunity attacks, but only against its target. Additionally, while the hound is within 5 feet of the target, the target has disadvantage on saving throws against any spell you cast. The hound disappears if it is reduced to 0 hit points, if its target is reduced to 0 hit points, or after 5 minutes.

Barrier Tattoo. Produced by a special needle, this magic tattoo depicts protective imagery and uses ink that resembles liquid metal.
Tattoo Attunement. To attune to this item, you hold the needle to your skin where you want the tattoo to appear, pressing the needle there throughout the attunement process. When the attunement is complete, the needle turns into the ink that becomes the tattoo, which appears on the skin.
If your attunement to the tattoo ends, the tattoo vanishes, and the needle reappears in your space.
Protection. While you aren't wearing armor, the tattoo grants you an Armor Class of 18. You can use a shield and still gain this benefit.
Bloodwell Vial, +1. To attune to this vial, you must place a few drops of your blood into it. The vial can't be opened while your attunement to it lasts. If your attunement to the vial ends, the contained blood turns to ash. You can use the vial as a spellcasting focus for your spells while wearing or holding it, and you gain a +1 bonus to spell attack rolls and to the saving throw DCs of your sorcerer spells.
In addition, when you roll any Hit Dice to recover hit points while you are carrying the vial, you can regain 5 sorcery points. This property of the vial can't be used again until the next dawn.
Cape of the Mountebank. This cape smells faintly of brimstone. While wearing it, you can use it to cast the *dimension door* spell as an action. This property of the cape can't be used again until the next dawn.
When you disappear, you leave behind a cloud of smoke, and you appear in a similar cloud of smoke at your destination. The smoke lightly obscures the space you left and the space you appear in, and it dissipates at the end of your next turn. A light or stronger wind disperses the smoke.
Helm of Comprehending Languages. While wearing this helm, you can use an action to cast the *comprehend languages* spell from it at will.

CASTING TIME	1 action
RANGE	120 feet
DURATION	Instantaneous
COMPONENTS	V, S

You hurl a mote of fire at a creature or object within range. Make a ranged spell attack against the target. On a hit, the target takes 1d10 fire damage. A flammable object hit by this spell ignites if it isn't being worn or carried.

This spell's damage increases by 1d10 when you reach 5th level (2d10), 11th level (3d10), and 17th level (4d10).

Friends

Enchantment Cantrip

CASTING TIME	1 action
RANGE	Self
DURATION	Concentration, up to 1 minute
COMPONENTS	S, M (a small amount of makeup applied to the face as this spell is cast)

For the duration, you have advantage on all Charisma checks directed at one creature of your choice that isn't hostile toward you. When the spell ends, the creature realizes that you used magic to influence its mood and becomes hostile toward you. A creature prone to violence might attack you. Another creature might seek retribution in other ways (at the DM's discretion), depending on the nature of your interaction with it.

Message

Transmutation Cantrip

CASTING TIME	1 action
RANGE	120 feet
DURATION	1 round
COMPONENTS	V, S, M (a short piece of copper wire)

You point your finger toward a creature within range and whisper a message. The target (and only the target) hears the message and can reply in a whisper that only you can hear.

You can cast this spell through solid objects if you are familiar with the target and know it is beyond the barrier. Magical silence, 1 foot of stone, 1 inch of common metal, a thin sheet of lead, or 3 feet of wood blocks the spell. The spell doesn't have to follow a straight line and can travel freely around corners or through openings.

Mind Sliver

Enchantment Cantrip

CASTING TIME	1 action
RANGE	60 feet
DURATION	1 round
COMPONENTS	V

You drive a disorienting spike of psychic energy into the mind of one creature you can see within range. The target must succeed on an Intelligence saving throw or take 1d6 psychic damage and subtract 1d4 from the next saving throw it makes before the end of your next turn.

This spell's damage increases by 1d6 when you reach certain levels: 5th level (2d6), 11th level (3d6), and 17th level (4d6).

Spellcasting (Sorcerer(2024))

Tasha's Cauldron of Everything

Minor Illusion

Illusion Cantrip

CASTING TIME	1 action
RANGE	30 feet
DURATION	1 minute
COMPONENTS	S, M (a bit of fleece)

You create a sound or an image of an object within range that lasts for the duration. The illusion also ends if you dismiss it as an action or cast this spell again.

If you create a sound, its volume can range from a whisper to a scream. It can be your voice, someone else's voice, a lion's roar, a beating of drums, or any other sound you choose. The sound continues unabated throughout the duration, or you can make discrete sounds at different times before the spell ends.

If you create an image of an object—such as a chair, muddy footprints, or a small chest—it must be no larger than a 5-foot cube. The image can't create sound, light, smell, or any other sensory effect. Physical interaction with the image reveals it to be an illusion, because things can pass through it.

If a creature uses its action to examine the sound or image, the creature can determine that it is an illusion with a successful Intelligence (Investigation) check against your spell save DC. If a creature discerns the illusion for what it is, the illusion becomes faint to the creature.

Player's Handbook

Prestidigitation

Transmutation Cantrip

CASTING TIME	1 action
RANGE	10 feet
DURATION	Up to 1 hour
COMPONENTS	V, S

This spell is a minor magical trick that novice spellcasters use for practice. You create one of the following magical effects within range:

- You create an instantaneous, harmless sensory effect, such as a shower of sparks, a puff of wind, faint musical notes, or an odd odor.
- You instantaneously light or snuff out a candle, a torch, or a small campfire.
- You instantaneously clean or soil an object no larger than 1 cubic foot.
- You chill, warm, or flavor up to 1 cubic foot of nonliving material for 1 hour.
- You make a color, a small mark, or a symbol appear on an object or a surface for 1 hour.
- You create a nonmagical trinket or an illusory image that can fit in your hand and that lasts until the end of your next turn.

If you cast this spell multiple times, you can have up to three of its non-instantaneous effects active at a time, and you can dismiss such an effect as an action.

Illusion Cantrip

CASTING TIME	1 action
RANGE	60 feet
DURATION	Instantaneous

Absorb Elements

1st-level abjuration

CASTING TIME	1 reaction, which you take when you take acid, cold, fire, lightning, or thunder damage
RANGE	Self
DURATION	1 round
COMPONENTS	S

The spell captures some of the incoming energy, lessening its effect on you and storing it for your next melee attack. You have resistance to the triggering damage type until the start of your next turn. Also, the first time you hit with a melee attack on your next turn, the target takes an extra 1d6 damage of the triggering type, and the spell ends.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, the extra damage increases by 1d6 for each slot level above 1st.

Xanathar's Guide to Everything

Charm Person

1st-level enchantment

CASTING TIME	1 action
RANGE	30 feet
DURATION	1 hour
COMPONENTS	V, S

You attempt to charm a humanoid you can see within range. It must make a Wisdom saving throw, and does so with advantage if you or your companions are fighting it. If it fails the saving throw, it is charmed by you until the spell ends or until you or your companions do anything harmful to it. The charmed creature regards you as a friendly acquaintance. When the spell ends, the creature knows it was charmed by you.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, you can target one additional creature for each slot level above 1st. The creatures must be within 30 feet of each other when you target them.

Chromatic Orb DND 2024

1st-level evocation

CASTING TIME	1 action
RANGE	90 feet
DURATION	Instantaneous
COMPONENTS	V, S, M (a diamond worth at least 50 gp)

You hurl an orb of energy at a target within range. Choose Acid, Cold, Fire, Lightning, Poison, or Thunder for the type of orb you create, and then make a ranged spell attack against the target. On a hit, the target takes 3d8 damage of the chosen type.

If you roll the same number on two or more of the d8s, the orb leaps to a different target of your choice within 30 feet of the target. Make an attack roll against the new target, and make a new damage roll. The orb can't leap again unless you cast the spell with a level 2+ spell slot.

At Higher Levels. The damage increases by 1d8 for each spell slot level above 1. The orb can leap a maximum number of times equal to the level of the slot expended, and a creature can be targeted only once by each casting of this spell.

CASTING TIME	1 action
RANGE	10 feet
DURATION	1 round
COMPONENTS	V, S

The love of a widow is not made false by the consequences.

When you cast this spell, choose a creature you can see within range. An illusory veil covers you, making you appear as the perfect paramour to the target. The target must make a Wisdom saving throw. If they fail, they are charmed by you, and move to grapple you during their next turn. If they succeed, you can use your reaction to deliver a deadly corrosive touch, breaking the grapple, ending the spell, and dealing 2d10 acid damage to the target.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, the acid damage increases by 1d10 per slot level above 1st level.

Darkness

2nd-level evocation

CASTING TIME	1 action
RANGE	60 feet
DURATION	Concentration, up to 10 minutes
COMPONENTS	V, M (bat fur and a drop of pitch or piece of coal)

Magical darkness spreads from a point you choose within range to fill a 15-foot radius sphere for the duration. The darkness spreads around corners. A creature with darkvision can't see through this darkness, and nonmagical light can't illuminate it.

If the point you choose is on an object you are holding or one that isn't being worn or carried, the darkness emanates from the object and moves with it. Completely covering the source of the darkness with an opaque object, such as a bowl or a helm, blocks the darkness.

If any of this spell's area overlaps with an area of light created by a spell of 2nd level or lower, the spell that created the light is dispelled.

Eyes of the Dark (Sorcerer(2024))

Player's Handbook

Detect Thoughts

2nd-level divination

CASTING TIME	1 action
RANGE	Self
DURATION	Concentration, up to 1 minute
COMPONENTS	V, S, M (a copper piece)

For the duration, you can read the thoughts of certain creatures. When you cast the spell and as your action on each turn until the spell ends, you can focus your mind on any one creature that you can see within 30 feet of you. If the creature you choose has an Intelligence of 3 or lower or doesn't speak any language, the creature is unaffected.

You initially learn the surface thoughts of the creature—what is most on its mind at that moment. As an action, you can either shift your attention to another creature's thoughts or attempt to probe deeper into the same creature's mind. If you probe deeper, the target must make a Wisdom saving throw. If it fails, you gain insight into its reasoning (if any), its emotional state, and something that looms large in its mind (such as something it worries over, loves, or hates). If it succeeds, the spell ends. Either way, the target knows that you are probing into its mind, and unless you shift your attention to another creature's thoughts, the creature can use its action on its turn to make an Intelligence check contested by your Intelligence check; if it succeeds, the spell ends.

Questions verbally directed at the target creature naturally shape the course of its thoughts, so this spell is particularly effective as part of an interrogation.

You can also use this spell to detect the presence of thinking creatures you can't see. When you cast the spell or as your action during the duration, you can search for thoughts within 30 feet of you. The spell can penetrate barriers, but 2 feet of rock, 2 inches of any metal other than lead, or a thin sheet of lead blocks you. You can't detect a creature with an Intelligence of 3 or lower or one that doesn't speak any language.

Once you detect the presence of a creature in this way, you can read its thoughts for the rest of the duration as described above, even if you can't see it, but it must still be within range.

Player's Handbook

Hold Person

2nd-level enchantment

CASTING TIME	1 action
RANGE	60 feet
DURATION	Concentration, up to 1 minute
COMPONENTS	V, S, M (a small, straight piece of iron)

Choose a humanoid that you can see within range. The target must succeed on a Wisdom saving throw or be paralyzed for the duration. At the end of each of its turns, the target can make another Wisdom saving throw. On a success, the spell ends on the target.

At Higher Levels. When you cast this spell using a spell slot of 3rd level or higher, you can target on additional humanoid for each slot level above 2nd. The humanoids must be within 30 feet of each other when you target them.

Suffer

2nd-level necromancy

CASTING TIME	1 action
RANGE	30 feet
DURATION	Instantaneous
COMPONENTS	V, S

True misery is more than pain entering the mind; it is pain entering the soul.

You point at a creature within range and speak a terrible word, commanding them to suffer. The target must make a Charisma saving throw. If they fail, they take 2d8 necrotic damage and 2d8 psychic damage and they have disadvantage on Strength and Dexterity ability checks for 1 minute. If they succeed, they take half as much damage and do not have disadvantage.

At Higher Levels. When you cast this spell using a spell slot of 3rd level or higher, the necrotic damage or the psychic damage (your choice) increases by 1d8 per slot level above 2nd.

Prepared (Sorcerer)

Suggestion

2nd-level enchantment

CASTING TIME	1 action
RANGE	30 feet
DURATION	Concentration, up to 8 hours
COMPONENTS	V, M (a snake's tongue and either a bit of honeycomb or a drop of sweet oil)

You suggest a course of activity (limited to a sentence or two) and magically influence a creature you can see within range that can hear and understand you. Creatures that can't be charmed are immune to this effect. The suggestion must be worded in such a manner as to make the course of action sound reasonable. Asking the creature to stab itself, throw itself onto a spear, immolate itself, or do some other obviously harmful act ends the spell.

The target must make a Wisdom saving throw. On a failed save, it purses the course of action you described to the best of its ability. The suggested course of action can continue for the entire duration. If the suggested activity can be completed in a shorter time, the spell ends when the subject finishes what it was asked to do.

You can also specify conditions that will trigger a special activity during the duration. For example, you might suggest that a knight give her warhorse to the first beggar she meets.

If the condition isn't met before the spell expires, the activity isn't preformed. If you or any of your companions damage the target, the spell ends.

Legacy of Phlegethos (Tiefling (Fierna))

Player's Handbook

Wither and Bloom

2nd-level necromancy

CASTING TIME	1 action
RANGE	60 feet
DURATION	Instantaneous
COMPONENTS	V, S, M (A withered vine twisted into a loop)

You invoke both death and life upon a 10-foot-radius sphere centered on a point within range. Each creature of your choice in that area must make a Constitution saving throw, taking 2d6 necrotic damage on a failed save, or half as much damage on a successful one. Nonmagical vegetation in that area withers.

In addition, one creature of your choice in that area can spend and roll one of its unspent Hit Dice and regain a number of hit points equal to the roll plus your spellcasting ability modifier.

At Higher Levels. When you cast this spell using a spell slot of 3rd level or higher, the damage increases by 1d6 for each slot above 2nd, and the number of Hit Dice that can be spent and added to the healing roll increases by one for each slot above 2nd.

Counterspell

3rd-level abjuration

CASTING TIME	1 reaction, which you take when you see a creature within 60 feet of you casting a spell
RANGE	60 feet
DURATION	Instantaneous
COMPONENTS	S

You attempt to interrupt a creature in the process of casting a spell. If the creature is casting a spell of 3rd level or lower, its spell fails and has no effect. If it is casting a spell of 4th level or higher, make an ability check using your spellcasting ability. The DC equals 10 + the spell's level. On a success, the creature's spell fails and has no effect.

At Higher Levels. When you cast this spell using a spell slot of 4th level or higher, the interrupted spell has no effect if its level is less than or equal to the level of the spell slot you used.

CASTING TIME	1 action
RANGE	150 feet
DURATION	Instantaneous
COMPONENTS	V, S, M (a tiny ball of bat guano and sulfur)

A bright streak flashes from your pointing finger to a point you choose within range and then blossoms with a low roar into an explosion of flame. Each creature in a 20-foot-radius sphere centered on that point must make a Dexterity saving throw. A target takes 8d6 fire damage on a failed save, or half as much damage on a successful one.

The fire spreads around corners. It ignites flammable objects in the area that aren't being worn or carried.

At Higher Levels. When you cast this spell using a spell slot of 4th level or higher, the damage increases by 1d6 for each slot level above 3rd.

Player's Handbook

Slow

3rd-level transmutation

CASTING TIME	1 action
RANGE	120 feet
DURATION	Concentration, up to 1 minute
COMPONENTS	V, S, M (a drop of molasses)

You alter time around up to six creatures of your choice in a 40-foot cube within range. Each target must succeed on a Wisdom saving throw or be affected by this spell for the duration.

An affected target's speed is halved, it takes a -2 penalty to AC and Dexterity saving throws, and it can't use reactions. On its turn, it can use either an action or a bonus action, not both. Regardless of the creature's abilities or magic items, it can't make more than one melee or ranged attack during its turn.

If the creature attempts to cast a spell with a casting time of 1 action, roll a d20. On an 11 or higher, the spell doesn't take effect until the creature's next turn, and the creature must use its action on that turn to complete the spell. If it can't, the spell is wasted.

A creature affected by this spell makes another Wisdom saving throw at the end of each of its turns. On a successful save, the effect ends for it.

Banishment

4th-level abjuration

CASTING TIME	1 action
RANGE	60 feet
DURATION	Concentration, up to 1 minute
COMPONENTS	V, S, M (an item distasteful to the target)

You attempt to send one creature that you can see within range to another plane of existence. The target must succeed on a Charisma saving throw or be banished.

If the target is native to the plane of existence you're on, you banish the target to a harmless demiplane. While there, the target is incapacitated. The target remains there until the spell ends, at which point the target reappears in the space it left or in the nearest unoccupied space if that space is occupied.

If the target is native to a different plane of existence that the one you're on, the target is banished with a faint popping noise, returning to its home plane. If the spell ends before 1 minute has passed, the target reappears in the space it left or in the nearest unoccupied space if that space is occupied. Otherwise, the target doesn't return.

At Higher Levels. When you cast this spell using a spell slot of 5th level or higher, you can target one additional creature for each slot level above 4th.

Ward of the Evil Eye

4th-level abjuration

CASTING TIME	1 action
RANGE	Self
DURATION	Concentration, up to 10 minutes
COMPONENTS	V, S, M (an evil eye talisman)

You call upon the power of the evil eye to create a protective ward around yourself and your allies. When you cast this spell, you create a faint aura with a radius of 10 feet centered on yourself, and the aura moves with you. The aura provides protection to you and your allies within it.

While the aura is active, you and your allies within it gain resistance to one type of damage of your choice, except psychic. Additionally, any enemy within the aura has disadvantage on attack rolls against you and your allies as long as you remain conscious.

At Higher Levels. When you cast this spell using a spell slot of 5th level or higher, the radius of the aura increases by 5 feet for each level above 4th.

The evil eye talisman used as the material component of this spell can be any small, round object with an eye symbol on it. It can be made of any material, but it must be consecrated by a priest of an evil deity before it can be used in this spell.

Creation

5th-level illusion

CASTING TIME	1 minute
RANGE	30 feet
DURATION	Special
COMPONENTS	V, S, M (a tiny piece of matter of the same type of the item you plan to create)

You pull wisps of shadow material from the Shadowfell to create a nonliving object of vegetable matter within range: soft goods, rope, wood, or something similar. You can also use this spell to create mineral objects such as stone, crystal, or metal. The object created must be no larger than a 5-foot cube, and the object must be of a form and material that you have seen before.

The duration depends on the object's material. If the object is composed of multiple materials, use the shortest duration.

Material Duration

Vegetable matter	1 day
Stone or crystal	12 hours
Precious metals	1 hour
Gems	10 minutes
Adamantine or mithral	1 minute

Using any material created by this spell as another spell's material component causes that spell to fail.

Hold Monster

5th-level enchantment

CASTING TIME	1 action
RANGE	90 feet
DURATION	Concentration, up to 1 minute
COMPONENTS	V, S, M (a small, straight piece of iron)

Choose a creature that you can see within range. The target must succeed on a Wisdom saving throw or be paralyzed for the duration. This spell has no effect on undead. At the end of each of its turns, the target can make another Wisdom saving throw. On a success, the spell ends on the target.

At Higher Levels. When you cast this spell using a spell slot of 6th level or higher, you can target an additional creature for each slot level above 5th. The creatures must be within 30 feet of each other when you target them.

Player's Handbook

Synaptic Static

5th-level enchantment

CASTING TIME	1 action
RANGE	120 feet
DURATION	Instantaneous
COMPONENTS	V, S

You choose a point within range and cause psychic energy to explode there. Each creature in a 20 foot radius sphere centered on that point must make an Intelligence saving throw. A creature with an Intelligence score of 2 or lower can't be affected by this spell. A target takes 8d6 psychic damage on a failed save, or half as much damage on a successful one.

After a failed save, a target has muddled thoughts for 1 minute. During that time, it rolls a d6 and subtracts the number rolled from all its attack rolls and ability checks, as well as its Constitution saving throws to maintain concentration. The target can make an Intelligence saving throw at the end of each of its turns, ending the effect on itself on a success.

Eyebite

6th-level necromancy

CASTING TIME	1 action
RANGE	Self
DURATION	Concentration, up to 1 minute
COMPONENTS	V, S

For the spell's duration, your eyes become an inky void imbued with dread power. One creature of your choice within 60 feet of you that you can see must succeed on a Wisdom saving throw or be affected by one of the following effects of your choice for the duration. On each of your turns until the spell ends, you can use your action to target another creature but can't target a creature again if it has succeeded on a saving throw against this casting of eyebite.

Asleep. The target falls unconscious. It wakes up if it takes any damage or if another creature uses its action to shake the sleeper awake.

Panicked. The target is frightened of you. On each of its turns, the frightened creature must take the Dash action and move away from you by the safest and shortest available route, unless there is nowhere to move. If the target moves to a place at least 60 feet away from you where it can no longer see you, this effect ends.

Sickened. The target has disadvantage on attack rolls and ability checks. At the end of each of its turns, it can make another Wisdom saving throw. If it succeeds, the effect ends.

Produced by a special needle, this magic tattoo depicts protective imagery and uses ink that resembles liquid metal.

Tattoo Attunement. To attune to this item, you hold the needle to your skin where you want the tattoo to appear, pressing the needle there throughout the attunement process. When the attunement is complete, the needle turns into the ink that becomes the tattoo, which appears on the skin.

If your attunement to the tattoo ends, the tattoo vanishes, and the needle reappears in your space.

Protection. While you aren't wearing armor, the tattoo grants you an Armor Class of 18. You can use a shield and still gain this benefit.

To attune to this vial, you must place a few drops of your blood into it. The vial can't be opened while your attunement to it lasts. If your attunement to the vial ends, the contained blood turns to ash. You can use the vial as a spellcasting focus for your spells while wearing or holding it, and you gain a +1 bonus to spell attack rolls and to the saving throw DCs of your sorcerer spells.

In addition, when you roll any Hit Dice to recover hit points while you are carrying the vial, you can regain 5 sorcery points. This property of the vial can't be used again until the next dawn.

This cape smells faintly of brimstone. While wearing it, you can use it to cast the *dimension door* spell as an action. This property of the cape can't be used again until the next dawn.

When you disappear, you leave behind a cloud of smoke, and you appear in a similar cloud of smoke at your destination. The smoke lightly obscures the space you left and the space you appear in, and it dissipates at the end of your next turn. A light or stronger wind disperses the smoke.

While wearing this helm, you can use an action to cast the *comprehend languages* spell from it at will.

You regain 8d4 + 8 hit points when you drink this potion. Whatever its potency, the potion's red liquid glimmers when agitated.

You regain 4d4 + 4 hit points when you drink this potion. Whatever its potency, the potion's red liquid glimmers when agitated.

This cylindrical leather case can hold up to ten rolled-up sheets of paper or five rolled-up sheets of parchment.

A lamp casts bright light in a 15-foot radius and dim light for an additional 30 feet. Once lit, it burns for 6 hours on a flask (1 pint) of oil.

Oil usually comes in a clay flask that holds 1 pint. As an action, you can splash the oil in this flask onto a creature within 5 feet of you or throw it up to 20 feet, shattering it on impact. Make a ranged attack against a target creature or object, treating the oil as an improvised weapon. On a hit, the target is covered in oil. If the target takes any fire damage before the oil dries (after 1 minute), the target takes an additional 5 fire damage from the burning oil. You can also pour a flask of oil on the ground to cover a 5-foot-square area, provided that the surface is level. If lit, the oil burns for 2 rounds and deals 5 fire damage to any creature that enters the area or ends its turn in the area. A creature can take this damage only once per turn.

A backpack is a leather pack carried on the back, typically with straps to secure it. A backpack can hold 1 cubic foot/30 pounds of gear.

You can also strap items, such as a bedroll or a coil of rope, to the outside of a backpack.

You have resistance to fire damage.

You know the friends cantrip. When you reach 3rd level, you can cast the charm person spell as a 2nd-level spell once with this trait and regain the ability to do so when you finish a long rest. When you reach 5th level, you can cast the suggestion spell once with this trait and regain the ability to do so when you finish a long rest. Charisma is your spellcasting ability for these spells.

Increase your Charisma by 1, to a maximum of 20.

Drawing from your innate magic, you can cast spells.

CANTRIPS

You know four Sorcerer cantrips of your choice. Whenever you gain a Sorcerer level, you can replace one of your cantrips from this feature with another Sorcerer cantrip of your choice. When you reach Sorcerer levels 4 and 10, you learn another Sorcerer cantrip of your choice, as shown in the Cantrips column of the Sorcerer Features table.

SPELL SLOTS

The Sorcerer Features table shows how many spell slots you have to cast your level 1+ spells. You regain all expended slots when you finish a Long Rest.

PREPARED SPELLS OF LEVEL 1+

You prepare the list of level 1+ spells that are available for you to cast with this feature. To start, choose two level 1 Sorcerer spells.

The number of spells on your list increases as you gain Sorcerer levels, as shown in the Prepared Spells column of the Sorcerer Features table. Whenever that number increases, choose additional Sorcerer spells until the number of spells on your list matches the number in the Sorcerer Features table. The chosen spells must be of a level for which you have spell slots. For example, if you're a level 3 Sorcerer, your list of prepared spells can include six Sorcerer spells of level 1 or 2 in any combination.

If another Sorcerer feature gives you spells that you always have prepared, those spells don't count against the number of spells you can prepare with this feature, but those spells otherwise count as Sorcerer spells for you.

CHANGING YOUR PREPARED SPELLS

Whenever you gain a Sorcerer level, you can replace one spell on your list with another Sorcerer spell for which you have spell slots.

SPELLCASTING ABILITY

Charisma is your spellcasting ability for your sorcerer spells, since the power of your magic relies on your ability to project your will into the world. You use your Charisma whenever a spell refers to your spellcasting ability. In addition, you use your Charisma modifier when setting the saving throw DC for a sorcerer spell you cast and when making an attack roll with one.

Spell save DC = 8 + your proficiency bonus + your Charisma modifier
Spell attack modifier = your proficiency bonus + your Charisma modifier

An event in your past left an indelible mark on you, infusing you with simmering magic. As a Bonus Action, you can unleash that magic for 1 minute, during which you gain the following benefits:

- The spell save DC of your Sorcerer spells increases by 1.
- You have Advantage on the attack rolls of Sorcerer spells you cast.

You can tap into the wellspring of magic within yourself. This wellspring is represented by Sorcery Points, which allow you to create a variety of magical effects.

You have 2 Sorcery Points, and you gain more as you reach higher levels, as shown in the Sorcery Points column of the Sorcerer Features table. You can't have more Sorcery Points than the number shown in the table for your level. You regain all expended Sorcery Points when you finish a Long Rest.

You can use your Sorcery Points to fuel the options below, along with other features, such as Metamagic, that use those points.

CONVERTING SPELL SLOTS TO SORCERY POINTS

You can expend a spell slot to gain a number of Sorcery Points equal to the slot's level (no action required).

CREATING SPELL SLOTS

As a Bonus Action, you can transform unexpended Sorcery Points into one spell slot. The Creating Spell Slots table shows the cost of creating a spell slot of a given level, and it lists the minimum Sorcerer level you must be to create a slot. You can create a spell slot no higher than level 5.

CREATING SPELLSLOTS

Spell Slot Level	Sorcery Point Cost	Min. Sorcerer Level
1st	2	2
2nd	3	3
3rd	5	5
4th	6	7
5th	7	9

Spell Slots Are Not Permanent. Any spell slot you create with this feature vanishes when you finish a Long Rest.

Because your magic flows from within, you can alter your spells to suit your needs; you gain two Metamagic options of your choice from "Metamagic Options" later in this class's description. You use the chosen options to temporarily modify spells you cast. To use an option, you must spend the number of Sorcery Points that it costs.

You can use only one Metamagic option on a spell when you cast it unless otherwise noted in one of those options.

Whenever you gain a Sorcerer level, you can replace one of your Metamagic options with one you don't know. You gain two more options at Sorcerer level 10 and two more at Sorcerer level 17.

When you cast a spell that forces other creatures to make a saving throw, you can protect some of those creatures from the spell's full force. To do so, spend 1 Sorcery Point and choose a number of those creatures up to your Charisma modifier (minimum of one creature). A chosen creature automatically succeeds on its saving throw against the spell, and it takes no damage if it would normally take half damage on a successful save.

When you cast a spell, you can spend 1 Sorcery Point to cast it without any Verbal, Somatic, or Material components, except Material components that are consumed by the spell or that have a cost specified in the spell.

When you cast a spell, such as Charm Person, that can be cast with a higher-level spell slot to target an additional creature, you can spend 1 Sorcery Point to increase the spell's effective level by 1.

When you cast a spell that has a duration of 1 minute or longer, you can spend 1 Sorcery Point to double its duration to a maximum duration of 24 hours.

If the affected spell requires Concentration, you have Advantage on any saving throw you make to maintain that Concentration.

When you finish a Short Rest, you can regain expended Sorcery Points, but no more than a number equal to half your Sorcerer level (round down). Once you use this feature, you can't do so again until you finish a Long Rest.

If you have no uses of Innate Sorcery left, you can use it if you spend 2 Sorcery Points when you take the Bonus Action to activate it.

In addition, while your Innate Sorcery feature is active, you can use up to two of your Metamagic options on each spell you cast.

Starting at 1st level, you have darkvision with a range of 120 feet. When you reach 3rd level in this class, you learn the darkness spell, which doesn't count against your number of sorcerer spells known. In addition, you can cast it by spending 2 sorcery points or by expending a spell slot. If you cast it with sorcery points, you can see through the darkness created by the spell.

Many creatures in the worlds of D&D, especially those that dwell underground, have darkvision. Within a specified range, a creature with darkvision can see in darkness as if the darkness were dim light, so areas of darkness are only lightly obscured as far as that creature is concerned. However, the creature can't discern color in darkness, only shades of gray.

Starting at 1st level, your existence in a twilight state between life and death makes you difficult to defeat. When damage reduces you to 0 hit points, you can make a Charisma saving throw (DC 5 + the damage taken). On a success, you instead drop to 1 hit point. You can't use this feature if you are reduced to 0 hit points by radiant damage or by a critical hit.

After the saving throw succeeds, you can't use this feature again until you finish a long rest.

At 6th level, you gain the ability to call forth a howling creature of darkness to harass your foes. As a bonus action, you can spend 3 sorcery points to magically summon a hound of ill omen to target one creature you can see within 120 feet of you. The hound uses the dire wolf's statistics (see the *Monster Manual* or appendix C in the *Player's Handbook*), with the following changes: The hound is size Medium, not Large, and it counts as a monstrosity, not a beast.

- It appears with a number of temporary hit points equal to half your sorcerer level.
- It can move through other creatures and objects as if they were difficult terrain. The hound takes 5 force damage if it ends its turn inside an object.
- At the start of its turn, the hound automatically knows its target's location. If the target was hidden, it is no longer hidden from the hound.

The hound appears in an unoccupied space of your choice within 30 feet of the target. Roll initiative for the hound. On its turn, it can move only toward its target by the most direct route, and it can use its action only to attack its target. The hound can make opportunity attacks, but only against its target. Additionally, while the hound is within 5 feet of the target, the target has disadvantage on saving throws against any spell you cast. The hound disappears if it is reduced to 0 hit points, if its target is reduced to 0 hit
