Feral Limbs. The horns, claws or fangs that you have developed due to your mutation are natural weapons, which you can use to make unarmed strikes. If you hit with them, you deal piercing damage equal to 1d6 + 1, instead of the bludgeoning damage normal for an unarmed strike.

Eldritch Curse. You are immune to any spell that would alter your form.

Good. You gain control over your darkest impulses. You have advantage on saving throws against madness.

Goring Charge (Bonus Action—3/Long Rest). If you move at least 20 feet straight toward a creature and then hit it with a melee attack on the same turn, that target must succeed on a DC 12 Strength saving throw or be knocked prone. If the target is prone, you can make one melee attack against it as a bonus action.

Nimble Build. Your movement speed increases by 10 feet.

ATTACKS & SPELLCASTING

Magic Initiate.

Sorcerer. Spellcasting ability: Charisma.

Eldritch Invocations.

Agonizing Blast. When you cast eldritch blast, add 4 to the damage it deals on a hit.

Devil's Sight. You can see normally in darkness, both magical and nonmagical, to a distance of 120 feet.

Repelling Blast. When you hit a creature with eldritch blast, you can push the creature up to 10 feet away from you in a straight line.

Magical Cunning (1 Minute—1/Long Rest). You can perform an esoteric rite and regain 1 Pact Magic spell slot.

Healing Light (Bonus Action). You have a pool of d6s equals to 1 plus your Warlock level. As a Bonus Action, you can heal one creature that you can see within 60 feet of yourself, spending dice from the pool. The maximum number of dice you can spend at once equals your Charisma modifier (minimum of one die). Roll the dice you spend, and restore a number of Hit Points equal to the roll's total. Your pool regains all expended dice when you finish a Long Rest.

Spellcasting. Drawing from your innate magic, you can cast spells. You can prepare 6 spells from your spell list. You can use an arcane focus as your spellcasting focus.

Innate Sorcery (Bonus Action). You can unleash Innate Sorcery for 1 minute and spell save DC of your Sorcerer spells increases by 1. You also gain Advantage on the attack rolls of Sorcerer spells you cast during this duration.

Font of Magic (Bonus Action). You have 3 Sorcery Points. You can transform unexpended sorcery points into one spell slot (2 > 1st, 3 > 2nd, 5 > 3rd, 6 > 4th, 7 > 5th) on your turn or you can expend one spell slot and gain a number of sorcery points equal to the slot's level.

Metamagic. You can use only one Metamagic option on a spell when you cast it, unless otherwise noted.

Empowered Spell. When you roll damage for a spell, you can spend 1 sorcery point to reroll 4 damage dice. You must use the new rolls. You can use Empowered Spell even if you have already used a different Metamagic option during the casting of the spell.

Quicken Spell. When you cast a spell that has a casting time of an action, you can spend 2 Sorcery Points to change the casting time to a Bonus Action for this casting. You can't modify a spell in this way if you've already cast a level 1+ spell on the current turn, nor can you cast a level 1+ spell on this turn after modifying a spell in this way.

Favored by the Gods (1/Short Rest). If you fail a saving throw or miss with an attack roll, you can roll 2d4 and add it to the total, possibly changing the outcome.

ALLIES & ORGANIZATIONS

NAME

SYMBOL

I'm used to helping out those who aren't as smart as I am, and I patiently explain anything and everything to others.
I am horribly, horribly awkward in social situations.

PERSONALITY TRAITS

No Limits. Nothing should fetter the infinite possibility inherent in all existence. (Chaotic)

IDEAL

My life's work is a series of tomes related to a specific field of lore.

BOND

I speak without really thinking through my words, invariably insulting others.

FLAW

Feature: Library Access

Though others must often endure extensive interviews and significant fees to gain access to even the most common archives in your library, you have free and easy access to the majority of the library, though it might also have repositories of lore that are too valuable, magical, or secret to permit anyone immediate access. You have a working knowledge of your cloister's personnel and bureaucracy, and you know how to navigate those connections with some ease. Additionally, you are likely to gain preferential treatment at other libraries across the Realms, as professional courtesy shown to a fellow scholar.

BACKGROUND FEATURE

TRINKET

As a child, you were inquisitive when your playmates were possessive or raucous. In your formative years, you found your way to one of Faerûn's great institutes of learning, where you were apprenticed and taught that knowledge is a more valuable treasure than gold or gems. Now you are ready to leave your home- not to abandon it, but to quest for new lore to add to its storehouse of knowledge.

The most well known of Faerûn's fonts of knowledge is Candlekeep. The great library is always in need of workers and attendants, some of whom rise through the ranks to assume roles of greater responsibility and prominence. You might be one of Candlekeep's own, dedicated to the curatorship of what is likely the most complete body of lore and history in all the world.

Perhaps instead you were taken in by the scholars of the Vault of the Sages or the Map House in Silverymoon, and now you have struck out to increase your knowledge and to make yourself available to help those in other places who seek your expertise. You might be one of the few who aid Herald's Holdfast, helping to catalogue and maintain records of the information that arrives daily from across Faerûn.

Staff of Withering. This staff has 3 charges and regains 1d3 expended charges daily at dawn.
The staff can be wielded as a magic quarterstaff. On a hit, it deals damage as a normal quarterstaff, and you can expend 1 charge to deal an extra 2d10 necrotic damage to the target. In addition, the target must succeed on a DC 15 Constitution saving throw or have disadvantage for 1 hour on any ability check or saving throw that uses Strength or Constitution.

Pearl of Power. While this pearl is on your person, you can use an action to speak its command word and regain one expended spell slot. If the expended slot was of 4th level or higher, the new slot is 3rd level. If the expended slot was of 4th level or higher, the new slot is 3rd level. Once you use the pearl, it can't be used again until the next dawn.

Orb. An arcane focus is a special item—an orb, a crystal, a rod, a specially constructed staff, a wand—like length of wood, or some similar item designed to channel the power of arcane spells. A sorcerer, warlock, or wizard can use such an item as a spellcasting focus.

Solipsium Arcanum: Gerçeklik Çöküşü Kitabı. Kitap büyü'nün doğası hakkında bilgi verirken aynı zamanda nasıl büyü yapmayı da öğreten bir kitaptır. Kitabın yazarı Thethus the Veilbinder'dır. Kitap aynı zamanda Thethus'un bir büyücü olarak büyüye karşı olan perspektifini ve Thethus'un düşüncelerini de yansıtır.

CASTING TIME 1 action

RANGE Self

DURATION Concentration, up to 1 minute

COMPONENTS S, M (a small amount of makeup applied to the face as this spell is cast)

For the duration, you have advantage on all Charisma checks directed at one creature of your choice that isn't hostile toward you. When the spell ends, the creature realizes that you used magic to influence its mood and becomes hostile toward you. A creature prone to violence might attack you. Another creature might seek retribution in other ways (at the DM's discretion), depending on the nature of your interaction with it.

CASTING TIME 1 action

DURATION 1 hour

COMPONENTS V, M (a firefly or phosphorescent moss)

You touch one object that is no larger than 10 feet in any dimension. Until the spell ends, the object sheds bright light in a 20-foot radius and dim light for an additional 20 feet. The light can be colored as you like. Completely covering the object with something opaque blocks the light. The spell ends if you cast it again or dismiss it as an action.

If you target an object held or worn by a hostile creature, that creature must succeed on a Dexterity saving throw to avoid the spell.

The hand can't attack, activate magic items, or carry more than 10 pounds.

- You chill, warm, or flavor up to 1 cubic foot of nonliving material for 1 hour.
- You make a color, a small mark, or a symbol appear on an object or a surface for 1 hour.
- You create a nonmagical trinket or an illusory image that can fit in your hand and that lasts until the end of your next turn.

Eldritch Invocations

You have unearthed Eldritch Invocations, pieces of forbidden knowledge that imbue you with an abiding magical ability or other lessons. You gain one invocation of your choice, such as Pact of the Tome. Invocations are described in the "Eldritch Invocation Options" section later in this class's description.

Prerequisites. If an invocation has a prerequisite, you must meet it to learn that invocation. For example, if an invocation requires you to be a level 5+ Warlock, you can select the invocation once you reach Warlock level 5.

Replacing and Gaining Invocations. Whenever you gain a Warlock level, you can replace one of your invocations with another one for which you qualify. You can't replace an invocation if it's a prerequisite for another invocation that you have.

When you gain certain Warlock levels, you gain more invocations of your choice, as shown in the Invocations column of the Warlock Features table.

Class Feature

Drawing from your innate magic, you can cast spells.

CANTRIPS
You know four Sorcerer cantrips of your choice. Whenever you gain a Sorcerer level, you can replace one of your cantrips from this feature with another Sorcerer cantrip of your choice. When you reach Sorcerer levels 4 and 10, you learn another Sorcerer cantrip of your choice, as shown in the Cantrips column of the Sorcerer Features table.

SPELL SLOTS
The Sorcerer Features table shows how many spell slots you have to cast your level 1+ spells. You regain all expended slots when you finish a Long Rest.

PREPARED SPELLS OF LEVEL 1+
You prepare the list of level 1+ spells that are available for you to cast with this feature. To start, choose two level 1 Sorcerer spells.
The number of spells on your list increases as you gain Sorcerer levels, as shown in the Prepared Spells column of the Sorcerer Features table. Whenever that number increases, choose additional Sorcerer spells until the number of spells on your list matches the number in the Sorcerer Features table. The chosen spells must be of a level for which you have spell slots. For example, if you're a level 3 Sorcerer, your list of prepared spells can include six Sorcerer spells of level 1 or 2 in any combination.
If another Sorcerer feature gives you spells that you always have prepared, those spells don't count against the number of spells you can prepare with this feature, but those spells otherwise count as Sorcerer spells for you.

CHANGING YOUR PREPARED SPELLS
Whenever you gain a Sorcerer level, you can replace one spell on your list with another Sorcerer spell for which you have spell slots.

SPELLCASTING ABILITY
Charisma is your spellcasting ability for your sorcerer spells, since the power of your magic relies on your ability to project your will into the world. You use your Charisma whenever a spell refers to your spellcasting ability. In addition, you use your Charisma modifier when setting the saving throw DC for a sorcerer spell you cast and when making an attack roll with one.
Spell save DC = 8 + your proficiency bonus + your Charisma modifier
Spell attack modifier = your proficiency bonus + your Charisma modifier

You can use your Sorcery Points to fuel the options below, along with other features, such as Metamagic, that use those points.

CONVERTING SPELL SLOTS TO SORCERY POINTS
You can expend a spell slot to gain a number of Sorcery Points equal to the slot's level (no action required).

CREATING SPELL SLOTS
As a Bonus Action, you can transform unexpended Sorcery Points into one spell slot. The Creating Spell Slots table shows the cost of creating a spell slot of a given level, and it lists the minimum Sorcerer level you must be to create a slot. You can create a spell slot no higher than level 5.
