RACIAL TRAITS

Elemental Adept: Cold. Spells you cast ignore Cold Resistance. Treat any 1 on a damage die as a 2 when using spells that deal Cold damage.

Fey-Touched. You can cast each of this feat's spells without a spell slot once per Long Rest. You can also cast these spells using spell slots you have of the appropriate level. Your spellcasting ability for these spells is Charisma.

Sorcerous Versatility. Whenever you reach a level in this class that grants the Ability Score Improvement feature, you can do one of the following:

- Replace one of the options you chose for the Metamagic feature with a different Metamagic option available to you.
- Replace one cantrip you learned from this class's Spellcasting feature with another cantrip from the sorcerer spell list.

Origin Feats: Alert(2024). When you roll Initiative, you can add your Proficiency Bonus to the roll. Additionally, immediately after you roll Initiative, you can swap your Initiative with the Initiative of one willing ally in the same combat. You can't make this swap if you or the ally has the Incapacitated condition.

Spellcasting. You can use an Arcane Focus as your Spellcasting Focus. Whenever you gain a Sorcerer level, you can replace one of your cantrips with another Sorcerer cantrip of your choice.

Innate Sorcery (Bonus Action—2/Long Rest). For 1 minute, you can increase your spell save DC by 1 and have Advantage on the attack rolls of Sorcerer spells you cast. While Innate Sorcery is active, you can use up to two Metamagic options on each spell you cast.

If you have no uses of this feature left, you can expend 2 Sorcery Points when you take the Bonus Action to activate it.

Font of Magic (Bonus Action). You have 11 Sorcery Points. You can transform unexpended sorcery points into one spell slot (2 > 1st, 3 > 2nd, 5 > 3rd, 6 > 4th, 7 > 5th) on your turn. Alternatively, you can expend one spell slot and gain a number of sorcery points equal to the slot's level (no action required).

Metamagic. You can use only one Metamagic option on a spell when you cast it, unless otherwise noted. You can replace one of your Metamagic options whenever you gain a Sorcerer level.

Transmuted Spell (Sorcery Point). When you cast a spell that deals a type of damage from the following list, you can change that damage type to one of the other listed types: Acid, Cold, Fire, Lightning, Poison, Thunder.

Quicken Spell (2 Sorcery Points). When you cast a spell that has a casting time of an action, you can change the casting time to a Bonus Action for this casting. You can't modify a spell in this way if you've already cast a level 1+ spell on the current turn, nor can you cast a level 1+ spell on this turn after modifying a spell in this way.

Subtle Spell (Sorcery Point). When you cast a spell, you can do so without any Verbal, Somatic, or Material components, except Material components that are consumed by the spell or that have a cost specified in the spell.

Careful Spell (Sorcery Point). When you cast a spell that forces other creatures to make a saving throw, choose up to 5 of those creatures. A chosen creature automatically succeeds on its saving throw against the spell, and it takes no damage if it would normally take half damage on a successful save.

Sorcerous Restoration (1/Long Rest). When you finish a Short Rest, you can regain up to 5 expended Sorcery points.

Draconic Resilience. When you aren't wearing armor, your base AC is 15.

Elemental Affinity. When you cast a spell that deals Cold damage, you can add 5 to one damage roll of that spell.

You and your family have trade contacts such as caravan masters, shopkeepers, sailors, artisans, and farmers throughout the Moonsea region and all along the Sword Coast. Once per game session, when adventuring in either of those areas, you can use those contacts to get information about the local area or to pass a message to someone in those areas, even across the great distance between the two areas.

2ND LEVEL		

Fire Bolt

Evocation Cantrip

CASTING TIME	Action
RANGE	120 feet
DURATION	Instantaneous
COMPONENTS	V, S

You hurl a mote of fire at a creature or an object within range. Make a ranged spell attack against the target. On a hit, the target takes 1d10 Fire damage. A flammable object hit by this spell starts burning if it isn't being worn or carried.

Cantrip Upgrade. The damage increases by 1d10 when you reach levels 5 (2d10), 11 (3d10), and 17 (4d10).

Level 1: Spellcasting (Sorcerer)

Player's Handbook (2024)

Frostbite

Evocation Cantrip

CASTING TIME	1 action
RANGE	60 feet
DURATION	Instantaneous
COMPONENTS	V, S

You cause numbing frost to form on one creature that you can see within range. The target must make a Constitution saving throw. On a failed save, the target takes 1d6 cold damage, and it has disadvantage on the next weapon attack roll it makes before the end of its next turn.

The spell's damage increases by 1d6 when you reach 5th level (2d6), 11th level (3d6), and 17th level (4d6).

Level 1: Spellcasting (Sorcerer)

Xanathar's Guide to Everything

Message

Transmutation Cantrip

CASTING TIME	Action
RANGE	120 feet
DURATION	1 round
COMPONENTS	S, M (a copper wire)

You point toward a creature within range and whisper a message. The target (and only the target) hears the message and can reply in a whisper that only you can hear.

You can cast this spell through solid objects if you are familiar with the target and know it is beyond the barrier. Magical silence; 1 foot of stone, metal, or wood; or a thin sheet of lead blocks the spell.

Level 1: Spellcasting (Sorcerer)

Player's Handbook (2024)

Prestidigitation

Transmutation Cantrip

CASTING TIME	Action
RANGE	10 feet
DURATION	Up to 1 hour
COMPONENTS	V, S

You create a magical effect within range. Choose the effect from the options below. If you cast this spell multiple times, you can have up to three of its non-instantaneous effects active at a time.

Sensory Effect. You create an instantaneous, harmless sensory effect, such as a shower of sparks, a puff of wind, faint musical notes, or an odd odor.

Fire Play. You instantaneously light or snuff out a candle, a torch, or a small campfire.

Clean or Soil. You instantaneously clean or soil an object no larger than 1 cubic foot.

Minor Sensation. You chill, warm, or flavor up to 1 cubic foot of nonliving material for 1 hour.

Magic Mark. You make a color, a small mark, or a symbol appear on an object or a surface for 1 hour.

Minor Creation. You create a nonmagical trinket or an illusory image that can fit in your hand. It lasts until the end of your next turn. A trinket can deal no damage and has no monetary worth.

Level 1: Spellcasting (Sorcerer)

Player's Handbook (2024)

Ray of Frost

Evocation Cantrip

CASTING TIME	Action
RANGE	60 feet
DURATION	Instantaneous
COMPONENTS	V, S

A frigid beam of blue-white light streaks toward a creature within range. Make a ranged spell attack against the target. On a hit, it takes 1d8 Cold damage, and its Speed is reduced by 10 feet until the start of your next turn.

Cantrip Upgrade. The damage increases by 1d8 when you reach levels 5 (2d8), 11 (3d8), and 17 (4d8).

Level 1: Spellcasting (Sorcerer)

Player's Handbook (2024)

Shape Water

Transmutation Cantrip

CASTING TIME	1 action
RANGE	30 feet
DURATION	Instantaneous or 1 hour (see below)
COMPONENTS	S

You choose an area of water that you can see within range and that fits within a 5-foot cube. You manipulate it in one of the following ways.

- You instantaneously move or otherwise change the flow of the water as you direct, up to 5 feet in any direction. This movement doesn't have enough force to cause damage.
- You cause the water to form into simple shapes and animate at your direction. This change lasts for 1 hour.
- You change the water's color or opacity. The water must be changed in the same way throughout. This change lasts for 1 hour.
- You freeze the water, provided that there are no creatures in it. The water unfreezes in 1 hour.

If you cast this spell multiple times, you can have no more than two of its non-instantaneous effects active at a time, and you can dismiss such an effect as an action.

Level 1: Spellcasting (Sorcerer)

Xanathar's Guide to Everything

Absorb Elements

1st-level abjuration

CASTING TIME	1 reaction, which you take when you take acid, cold, fire, lightning, or thunder damage
RANGE	Self
DURATION	1 round
COMPONENTS	S

The spell captures some of the incoming energy, lessening its effect on you and storing it for your next melee attack. You have resistance to the triggering damage type until the start of your next turn. Also, the first time you hit with a melee attack on your next turn, the target takes an extra 1d6 damage of the triggering type, and the spell ends.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, the extra damage increases by 1d6 for each slot level above 1st.

Level 1: Spellcasting (Sorcerer)

Xanathar's Guide to Everything

Chromatic Orb

1st-level evocation

CASTING TIME	Action
RANGE	90 feet
DURATION	Instantaneous
COMPONENTS	V, S, M (a diamond worth 50+ GP)

You hurl an orb of energy at a target within range. Choose Acid, Cold, Fire, Lightning, Poison, or Thunder for the type of orb you create, and then make a ranged spell attack against the target. On a hit, the target takes 3d8 damage of the chosen type.

If you roll the same number on two or more of the d8s, the orb leaps to a different target of your choice within 30 feet of the target. Make an attack roll against the new target, and make a new damage roll. The orb can't leap again unless you cast the spell with a level 2+ spell slot.

Using a Higher-Level Spell Slot. The damage increases by 1d8 for each spell slot level above 1. The orb can leap a maximum number of times equal to the level of the slot expended, and a creature can be targeted only once by each casting of this spell.

Level 3: Draconic Spells (Sorcerer)

Player's Handbook (2024)

Command

1st-level enchantment

CASTING TIME	Action
RANGE	60 feet
DURATION	Instantaneous
COMPONENTS	V

You speak a one-word command to a creature you can see within range. The target must succeed on a Wisdom saving throw or follow the command on its next turn. Choose the command from these options:

- Approach.
- The target moves toward you by the shortest and most direct route, ending its turn if it moves within 5 feet of you.
- Drop.
- The target drops whatever it is holding and then ends its turn.
- Flee.
- The target spends its turn moving away from you by the fastest available means.
- Grovel.
- The target has the Prone condition and then ends its turn.
- Halt.
- On its turn, the target doesn't move and takes no action or Bonus Action.

Using a Higher-Level Spell Slot. You can affect one additional creature for each spell slot level above 1.

Level 3: Draconic Spells (Sorcerer)

Player's Handbook (2024)

Dissonant Whispers

1st-level enchantment

CASTING TIME	1 action
RANGE	60 feet
DURATION	Instantaneous
COMPONENTS	V

You whisper a discordant melody that only one creature of your choice within range can hear, wracking it with terrible pain. The target must make a Wisdom saving throw. On a failed save, it takes 3d6 psychic damage and must immediately use its reaction, if available, to move as far as its speed allows away from you. The creature doesn't move into obviously dangerous ground, such as a fire or a pit. On a successful save, the target takes half as much damage and doesn't have to move away. A deafened creature automatically succeeds on the save.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, the damage increases by 1d6 for each slot level above 1st.

Fey-Touched Player's Handbook

Feather Fall

1st-level transmutation

CASTING TIME	Reaction, which you take when you or a creature you can see within 60 feet of you falls
RANGE	60 feet
DURATION	1 minute
COMPONENTS	V, M (a small feather or piece of down)

Choose up to five falling creatures within range. A falling creature's rate of descent slows to 60 feet per round until the spell ends. If a creature lands before the spell ends, the creature takes no damage from the fall, and the spell ends for that creature.

Level 1: Spellcasting (Sorcerer) Player's Handbook (2024)

Shield

1st-level abjuration

CASTING TIME	Reaction, which you take when you are hit by an attack roll or targeted by the Magic Missile spell
RANGE	Self
DURATION	1 round
COMPONENTS	V, S

An imperceptible barrier of magical force protects you. Until the start of your next turn, you have a +5 bonus to AC, including against the triggering attack, and you take no damage from *Magic Missile*.

Level 1: Spellcasting (Sorcerer) Player's Handbook (2024)

Alter Self

2nd-level transmutation

CASTING TIME	Action
RANGE	Self
DURATION	Concentration, up to 1 hour
COMPONENTS	V, S

You alter your physical form. Choose one of the following options. Its effects last for the duration, during which you can take a Magic action to replace the option you chose with a different one.

Aquatic Adaptation. You sprout gills and grow webs between your fingers. You can breathe underwater and gain a Swim Speed equal to your Speed.

Change Appearance. You alter your appearance. You decide what you look like, including your height, weight, facial features, sound of your voice, hair length, coloration, and other distinguishing characteristics. You can make yourself appear as a member of another species, though none of your statistics change. You can't appear as a creature of a different size, and your basic shape stays the same; if you're bipedal, you can't use this spell to become quadrupedal, for instance. For the duration, you can take a Magic action to change your appearance in this way again.

Natural Weapons. You grow claws (Slashing), fangs (Piercing), horns (Piercing), or hooves (Bludgeoning). When you use your Unarmed Strike to deal damage with that new growth, it deals 1d6 damage of the type in parentheses instead of dealing the normal damage for your Unarmed Strike, and you use your spellcasting ability modifier for the attack and damage rolls rather than using Strength.

Level 3: Draconic Spells (Sorcerer) Player's Handbook (2024)

Dragon's Breath

2nd-level transmutation

CASTING TIME	Bonus Action
RANGE	Touch
DURATION	Concentration, up to 1 minute
COMPONENTS	V, S, M (a hot pepper)

You touch one willing creature, and choose Acid, Cold, Fire, Lightning, or Poison. Until the spell ends, the target can take a Magic Action to exhale a 15-foot Cone. Each creature in that area makes a Dexterity saving throw, taking 3d6 damage of the chosen type on a failed save or half as much damage on a successful one.

Using a Higher-Level Spell Slot. The damage increases by 1d6 for each spell slot level above 2.

Level 3: Draconic Spells (Sorcerer) Player's Handbook (2024)

Mirror Image

2nd-level illusion

CASTING TIME	1 action
RANGE	Self
DURATION	1 minute
COMPONENTS	V, S

Three illusory duplicates of yourself appear in your space. Until the spell ends, the duplicates move with you and mimic your actions, shifting position so it's impossible to track which image is real. You can use your action to dismiss the illusory duplicates.

Each time a creature targets you with an attack during the spell's duration, roll a d20 to determine whether the attack instead targets one of your duplicates.

If you have three duplicates, you must roll a 6 or higher to change the attack's target to a duplicate. With two duplicates, you must roll an 8 or higher. With one duplicate, you must roll an 11 or higher.

A duplicate's AC equals 10 + your Dexterity modifier. If an attack hits a duplicate, the duplicate is destroyed. A duplicate can be destroyed only by an attack that hits it. It ignores all other damage and effects. The spell ends when all three duplicates are destroyed.

A creature is unaffected by this spell if it can't see, if it relies on senses other than sight, such as blindsight, or if it can perceive illusions as false, as with truesight.

Level 1: Spellcasting (Sorcerer) Player's Handbook

Misty Step

2nd-level conjuration

CASTING TIME	Bonus Action
RANGE	Self
DURATION	Instantaneous
COMPONENTS	V

Briefly surrounded by silvery mist, you teleport up to 30 feet to an unoccupied space you can see.

Fey-Touched Player's Handbook (2024)

Scorching Ray

2nd-level evocation

CASTING TIME	Action
RANGE	120 feet
DURATION	Instantaneous
COMPONENTS	V, S

You hurl three fiery rays. You can hurl them at one target within range or at several. Make a ranged spell attack for each ray. On a hit, the target takes 2d6 Fire damage.

Using a Higher-Level Spell Slot. You create one additional ray for each spell slot level above 2.

Level 1: Spellcasting (Sorcerer) Player's Handbook (2024)

Web

2nd-level conjuration

CASTING TIME	Action
RANGE	60 feet
DURATION	Concentration, up to 1 hour
COMPONENTS	V, S, M (a bit of spiderweb)

You conjure a mass of sticky webbing at a point within range. The webs fill a 20-foot Cube there for the duration. The webs are Difficult Terrain, and the area within them is Lightly Obscured.

If the webs aren't anchored between two solid masses (such as walls or trees) or layered across a floor, wall, or ceiling, the web collapses on itself, and the spell ends at the start of your next turn. Webs layered over a flat surface have a depth of 5 feet.

The first time a creature enters the webs on a turn or starts its turn there, it must succeed on a Dexterity saving throw or have the Restrained condition while in the webs or until it breaks free.

A creature Restrained by the webs can take an action to make a Strength (Athletics) check against your spell save DC. If it succeeds, it is no longer Restrained.

The webs are flammable. Any 5-foot Cube of webs exposed to fire burns away in 1 round, dealing 2d4 Fire damage to any creature that starts its turn in the fire.

Level 1: Spellcasting (Sorcerer) Player's Handbook (2024)

Counterspell

3rd-level abjuration

CASTING TIME	Reaction, which you take when you see a creature within 60 feet of yourself casting a spell with Verbal, Somatic, or Material components
RANGE	60 feet
DURATION	Instantaneous
COMPONENTS	S

You attempt to interrupt a creature in the process of casting a spell. The creature makes a Constitution saving throw. On a failed save, the spell dissipates with no effect, and the action, Bonus Action, or Reaction used to cast it is wasted. If that spell was cast with a spell slot, the slot isn't expended.

Level 1: Spellcasting (Sorcerer)

Player's Handbook (2024)

Fear

3rd-level illusion

CASTING TIME	Action
RANGE	Self (30-foot Cone)
DURATION	Concentration, up to 1 minute
COMPONENTS	V, S, M (a white feather)

Each creature in a 30-foot Cone must succeed on a Wisdom saving throw or drop whatever it is holding and have the Frightened condition for the duration.

A Frightened creature takes the Dash action and moves away from you by the safest route on each of its turns unless there is nowhere to move. If the creature ends its turn in a space where it doesn't have line of sight to you, the creature makes a Wisdom saving throw. On a successful save, the spell ends on that creature.

Level 3: Draconic Spells (Sorcerer)

Player's Handbook (2024)

Fireball

3rd-level evocation

CASTING TIME	Action
RANGE	150 feet
DURATION	Instantaneous
COMPONENTS	V, S, M (a ball of bat guano and sulfur)

A bright streak flashes from you to a point you choose within range and then blossoms with a low roar into a fiery explosion. Each creature in a 20-foot-radius Sphere centered on that point makes a Dexterity saving throw, taking 8d6 Fire damage on a failed save or half as much damage on a successful one.

Flammable objects in the area that aren't being worn or carried start burning.

Using a Higher-Level Spell Slot. The damage increases by 1d6 for each spell slot level above 3.

Level 1: Spellcasting (Sorcerer)

Player's Handbook (2024)

Fly

3rd-level transmutation

CASTING TIME	Action
RANGE	Touch
DURATION	Concentration, up to 10 minutes
COMPONENTS	V, S, M (a feather)

You touch a willing creature. For the duration, the target gains a Fly Speed of 60 feet and can hover. When the spell ends, the target falls if it is still aloft unless it can stop the fall.

Using a Higher-Level Spell Slot. You can target one additional creature for each spell slot level above 3.

Level 3: Draconic Spells (Sorcerer)

Player's Handbook (2024)

Haste

3rd-level transmutation

CASTING TIME	Action
RANGE	30 feet
DURATION	Concentration, up to 1 minute
COMPONENTS	V, S, M (a shaving of licorice root)

Choose a willing creature that you can see within range. Until the spell ends, the target's Speed is doubled, it gains a +2 bonus to Armor Class, it has Advantage on Dexterity saving throws, and it gains an additional action on each of its turns. That action can be used to take only the Attack (one attack only), Dash, Disengage, Hide, or Utilize action.

When the spell ends, the target is Incapacitated and has a Speed of 0 until the end of its next turn, as a wave of lethargy washes over it.

Level 1: Spellcasting (Sorcerer)

Player's Handbook (2024)

Arcane Eye

4th-level divination

CASTING TIME	Action
RANGE	30 feet
DURATION	Concentration, up to 1 hour
COMPONENTS	V, S, M (a bit of bat fur)

You create an Invisible, invulnerable eye within range that hovers for the duration. You mentally receive visual information from the eye, which can see in every direction. It also has Darkvision with a range of 30 feet.

As a Bonus Action, you can move the eye up to 30 feet in any direction. A solid barrier blocks the eye's movement, but the eye can pass through an opening as small as 1 inch in diameter.

Level 3: Draconic Spells (Sorcerer)

Player's Handbook (2024)

Banishment

4th-level abjuration

CASTING TIME	Action
RANGE	30 feet
DURATION	Concentration, up to 1 minute
COMPONENTS	V, S, M (a pentacle)

One creature that you can see within range must succeed on a Charisma saving throw or be transported to a harmless demiplane for the duration. While there, the target has the Incapacitated condition. When the spell ends, the target reappears in the space it left or in the nearest unoccupied space if that space is occupied.

If the target is an Aberration, a Celestial, an Elemental, a Fey, or a Fiend, the target doesn't return if the spell lasts for 1 minute. The target is instead transported to a random location on a plane (DM's choice) associated with its creature type.

Using a Higher-Level Spell Slot. You can target one additional creature for each spell slot level above 4.

Level 1: Spellcasting (Sorcerer)

Player's Handbook (2024)

Charm Monster

4th-level enchantment

CASTING TIME	Action
RANGE	30 feet
DURATION	1 hour
COMPONENTS	V, S

One creature you can see within range makes a Wisdom saving throw. It does so with Advantage if you or your allies are fighting it. On a failed save, the target has the Charmed condition until the spell ends or until you or your allies damage it. The Charmed creature is Friendly to you. When the spell ends, the target knows it was Charmed by you.

Using a Higher-Level Spell Slot. You can target one additional creature for each spell slot level above 4.

Level 3: Draconic Spells (Sorcerer)

Player's Handbook (2024)

Polymorph

4th-level transmutation

CASTING TIME	Action
RANGE	60 feet
DURATION	Concentration, up to 1 hour
COMPONENTS	V, S, M (a caterpillar cocoon)

You attempt to transform a creature that you can see within range into a Beast. The target must succeed on a Wisdom saving throw or shape-shift into Beast form for the duration. That form can be any Beast you choose that has a Challenge Rating equal to or less than the target's (or the target's level if it doesn't have a Challenge Rating). The target's game statistics are replaced by the stat block of the chosen Beast, but the target retains its alignment, personality, creature type, Hit Points, and Hit Point Dice.

The target gains a number of Temporary Hit Points equal to the Hit Points of the Beast form. These Temporary Hit Points vanish if any remain when the spell ends. The spell ends early on the target if it has no Temporary Hit Points left.

The target is limited in the actions it can perform by the anatomy of its new form, and it can't speak or cast spells.

The target's gear melds into the new form. The creature can't use or otherwise benefit from any of that equipment.

Level 1: Spellcasting (Sorcerer)

Player's Handbook (2024)

Hold Monster

5th-level enchantment

CASTING TIME	Action
RANGE	90 feet
DURATION	Concentration, up to 1 minute
COMPONENTS	V, S, M (a straight piece of iron)

Choose a creature that you can see within range. The target must succeed on a Wisdom saving throw or have the Paralyzed condition for the duration. At the end of each of its turns, the target repeats the save, ending the spell on itself on a success.

Using a Higher-Level Spell Slot. You can target one additional creature for each spell slot level above 5.

Level 1: Spellcasting (Sorcerer) Player’s Handbook (2024)

Legend Lore

5th-level divination

CASTING TIME	10 minutes
RANGE	Self
DURATION	Instantaneous
COMPONENTS	V, S, M (incense worth 250+ GP, which the spell consumes, and four ivory strips worth 50+ GP each)

Name or describe a famous person, place, or object. The spell brings to your mind a brief summary of the significant lore about that famous thing, as described by the DM.

The lore might consist of important details, amusing revelations, or even secret lore that has never been widely known. The more information you already know about the thing, the more precise and detailed the information you receive is. That information is accurate but might be couched in figurative language or poetry, as determined by the DM.

If the famous thing you chose isn't actually famous, you hear sad musical notes played on a trombone, and the spell fails.

Level 3: Draconic Spells (Sorcerer) Player’s Handbook (2024)

Summon Dragon

5th-level conjuration

CASTING TIME	Action
RANGE	60 feet
DURATION	Concentration, up to 1 hour
COMPONENTS	V, S, M (an object with the image of a dragon engraved on it worth 500+ GP)

You call forth a Dragon spirit. It manifests in an unoccupied space that you can see within range and uses the **Draconic Spirit** stat block. The creature disappears when it drops to 0 Hit Points or when the spell ends.

The creature is an ally to you and your allies. In combat, the creature shares your initiative count, but it takes its turn immediately after yours. It obeys your verbal commands (no action required by you). If you don't issue any, it takes the Dodge action and uses its movement to avoid danger.

Using a Higher-Level Spell Slot. Use the spell slot's level for the spell's level in the stat block.

Level 3: Draconic Spells (Sorcerer) Player’s Handbook (2024)

Synaptic Static

5th-level enchantment

CASTING TIME	Action
RANGE	120 feet
DURATION	Instantaneous
COMPONENTS	V, S

You cause psychic energy to erupt at a point within range. Each creature in a 20-foot-radius Sphere centered on that point makes an Intelligence saving throw, taking 8d6 Psychic damage on a failed save or half as much damage on a successful one.

On a failed save, a target also has muddled thoughts for 1 minute. During that time, it subtracts 1d6 from all its attack rolls and ability checks, as well as any Constitution saving throws to maintain Concentration. The target makes an Intelligence saving throw at the end of each of its turns, ending the effect on itself on a success.

Level 1: Spellcasting (Sorcerer) Player’s Handbook (2024)

Teleportation Circle

5th-level conjuration

CASTING TIME	1 minute
RANGE	10 feet
DURATION	1 round
COMPONENTS	V, M (rare inks worth 50+ GP, which the spell consumes)

As you cast the spell, you draw a 5-foot-radius circle on the ground inscribed with sigils that link your location to a permanent teleportation circle of your choice whose sigil sequence you know and that is on the same plane of existence as you. A shimmering portal opens within the circle you drew and remains open until the end of your next turn. Any creature that enters the portal instantly appears within 5 feet of the destination circle or in the nearest unoccupied space if that space is occupied.

Many major temples, guildhalls, and other important places have permanent teleportation circles. Each circle includes a unique sigil sequence—a string of runes arranged in a particular pattern.

When you first gain the ability to cast this spell, you learn the sigil sequences for two destinations on the Material Plane, determined by the DM. You might learn additional sigil sequences during your adventures. You can commit a new sigil sequence to memory after studying it for 1 minute.

You can create a permanent teleportation circle by casting this spell in the same location every day for 365 days.

Level 1: Spellcasting (Sorcerer) Player’s Handbook (2024)

Mass Suggestion

6th-level enchantment

CASTING TIME	Action
RANGE	60 feet
DURATION	24 hours
COMPONENTS	V, M (a snake’s tongue)

You suggest a course of activity—described in no more than 25 words—to twelve or fewer creatures you can see within range that can hear and understand you. The suggestion must sound achievable and not involve anything that would obviously deal damage to any of the targets or their allies. For example, you could say, "Walk to the village down that road, and help the villagers there harvest crops until sunset." Or you could say, "Now is not the time for violence. Drop your weapons, and dance! Stop in an hour."

Each target must succeed on a Wisdom saving throw or have the Charmed condition for the duration or until you or your allies deal damage to the target. Each Charmed target pursues the suggestion to the best of its ability. The suggested activity can continue for the entire duration, but if the suggested activity can be completed in a shorter time, the spell ends for a target upon completing it.

Using a Higher-Level Spell Slot. The duration is longer with a spell slot of level 7 (10 days), 8 (30 days), or 9 (366 days).

Level 1: Spellcasting (Sorcerer) Player’s Handbook (2024)

Otiluke’s Freezing Sphere

6th-level evocation

CASTING TIME	Action
RANGE	300 feet
DURATION	Instantaneous
COMPONENTS	V, S, M (a miniature crystal sphere)

A frigid globe streaks from you to a point of your choice within range, where it explodes in a 60-foot-radius Sphere. Each creature in that area makes a Constitution saving throw, taking 10d6 Cold damage on a failed save or half as much damage on a successful one.

If the globe strikes a body of water, it freezes the water to a depth of 6 inches over an area 30 feet square. This ice lasts for 1 minute. Creatures that were swimming on the surface of frozen water are trapped in the ice and have the Restrained condition. A trapped creature can take an action to make a Strength (Athletics) check against your spell save DC to break free.

You can refrain from firing the globe after completing the spell's casting. If you do so, a globe about the size of a sling bullet, cool to the touch, appears in your hand. At any time, you or a creature you give the globe to can throw the globe (to a range of 40 feet) or hurl it with a sling (to the sling's normal range). It shatters on impact, with the same effect as a normal casting of the spell. You can also set the globe down without shattering it. After 1 minute, if the globe hasn't already shattered, it explodes.

Using a Higher-Level Spell Slot. The damage increases by 1d6 for each spell slot level above 6.

Level 1: Spellcasting (Sorcerer) Player’s Handbook (2024)

While wearing this ring in dim light or darkness, you can cast *dancing lights* and *light* from the ring at will. Casting either spell from the ring requires an action.

The ring has 6 charges for the following other properties. The ring regains 1d6 expended charges daily at dawn.

Faerie Fire. You can expend 1 charge as an action to cast *faerie fire* from the ring.

Ball Lightning. You can expend 2 charges as an action to create one to four 3-foot-diameter spheres of lightning. The more spheres you create, the less powerful each sphere is individually.

Each sphere appears in an unoccupied space you can see within 120 feet of you. The spheres last as long as you concentrate (as if concentrating on a spell), up to 1 minute. Each sphere sheds dim light in a 30-foot radius.

As a bonus action, you can move each sphere up to 30 feet, but no farther than 120 feet away from you. When a creature other than you comes within 5 feet of a sphere, the sphere discharges lightning at that creature and disappears. That creature must make a DC 15 Dexterity saving throw. On a failed save, the creature takes lightning damage based on the number of spheres you created.

Spheres Lightning Damage

- 4 2d4
- 3 2d6
- 2 5d4
- 1 4d12

Shooting Stars. You can expend 1 to 3 charges as an action. For every charge you expend, you launch a glowing mote of light from the ring at a point you can see within 60 feet of you. Each creature within a 15-foot cube originating from that point is showered in sparks and must make a DC 15 Dexterity saving throw, taking 5d4 fire damage on a failed save, or half as much damage on a successful one.

You have resistance to cold damage while you hold this staff.

The staff has 10 charges. While holding it, you can use an action to expend 1 or more of its charges to cast one of the following spells from it, using your spell save DC: *cone of cold* (5 charges), *fog cloud* (1 charge), *ice storm* (4 charges), or *wall of ice* (4 charges).

The staff regains 1d6 + 4 expended charges daily at dawn. If you expend the last charge, roll a d20. On a 1, the staff turns to water and is destroyed.

Forged deep within the heart of the frozen North, the Inevitable Force Necklace was a labor of both devotion and necessity. Orv Bezmadan, master smith and cleric of the Forge, saw in the raw, bitter magic of the North a force that could be channeled, but not tamed. Alongside his unlikely apprentice, Neryssa Snow—a scion of ancient draconic blood—they crafted the necklace as a conduit to weave inner strength into the biting cold of magic. While Orv hammered the silvered threads under sacred flames, Neryssa infused them with whispers of her lineage, the ancient breath of frost dragons pulsing within the metal. The result was an artifact that merged heart and ice: a boon to those who embraced their strength, but a beacon for forces drawn to overwhelming power.

This intricate necklace is fashioned from braided silver threads, with a centerpiece resembling a frozen, swirling vortex. Upon attunement, a faint chill clings to the wearer's presence.

While attuned to this necklace, when you cast a spell that deals cold damage, you add your Charisma modifier to the damage dealt by the spell.

Flaws:

Tempest Strike. Once per turn, when making a weapon or spell attack, the wielder may channel the storm's wrath, dealing an additional 1d6 Lightning Damage on a successful hit.

Windswept Ascent. Once per day, as a bonus action, the wielder can gain a flying speed of 30 feet (hover) for 1 minute. During this time, the wielder can also double their movement speed for only one turn with no action required. When wielder uses this feature, arcs of lightning crackle around their form, and the air trembles with the whisper of a distant thunderstorm.

Even in death, the titan's core roars — a gift to those who bend flame and fury alike.

This majestic crown, jagged crystal pulses with inner flame. It was carved from the smoldering core of Koralith's fused elemental soul.

While attuned, when you cast a spell that deals fire, cold, lightning, or thunder damage, you may deal additional 1d4 damage as per instance. You can use this feature a number of times equal to your Spellcasting modifier, and you regain all expended uses when you finish a Long Rest.

Blinding Shockwave: Once per long rest, as a reaction to being hit by a melee attack, you can release a shockwave of heat. The attacker takes 2d8 fire damage and must succeed against your Spell Save DC Constitution saving throw or be blinded until the start of their next turn.

Ember Refutation: When casting a spell that deals fire damage, you can choose to make that spell ignore resistance to fire damage once per short rest.

These crystal lenses fit over the eyes. While wearing them, you can see much better than normal out to a range of 1 foot. You have advantage on Intelligence (Investigation) checks that rely on sight while searching an area or studying an object within that range.

This wand has 7 charges for the following properties. It regains 1d6 + 1 expended charges daily at dawn. If you expend the wand's last charge, roll a d20. On a 1, the wand crumbles into ashes and is destroyed.

Spells. While holding the wand, you can use an action to expend some of its charges to cast one of the following spells (save DC 17): *hold monster* (5 charges) or *hold person* (2 charges).

Assisted Escape. While holding the wand, you can use your reaction to expend 1 charge and gain advantage on a saving throw you make to avoid being paralyzed or restrained, or you can expend 1 charge and gain advantage on any check you make to escape a grapple.

While holding this wand, you gain a +1 bonus to spell attack rolls. In addition, you ignore half cover when making a spell attack.

You gain a +1 bonus to AC and saving throws while you wear this cloak.

An arcane focus is a special item—an orb, a crystal, a rod, a specially constructed staff, a wand—like length of wood, or some similar item designed to channel the power of arcane spells. A sorcerer, warlock, or wizard can use such an item as a spellcasting focus.

A backpack is a leather pack carried on the back, typically with straps to secure it. A backpack can hold 1 cubic foot/30 pounds of gear.

You can also strap items, such as a bedroll or a coil of rope, to the outside of a backpack.

This tin box contains a cup and simple cutlery. The box clamps together, and one side can be used as a cooking pan and the other as a plate or shallow bowl.

This small container holds flint, fire steel, and tinder (usually dry cloth soaked in light oil) used to kindle a fire. Using it to light a torch—or anything else with abundant, exposed fuel—takes an action. Lighting any other fire takes 1 minute.

A torch burns for 1 hour, providing bright light in a 20-foot radius and dim light for an additional 20 feet. If you make a melee attack with a burning torch and hit, it deals 1 fire damage.

Rations consist of dry foods suitable for extended travel, including jerky, dried fruit, hardtack, and nuts.

Rope, whether made of hemp or silk, has 2 hit points and can be burst with a DC 17 Strength check.

Transparent blue-white, canary, pink, brown, or blue.

This fine black cloth, soft as silk, is folded up to the dimensions of a handkerchief. It unfolds into a circular sheet 6 feet in diameter. You can use an action to unfold a *portable hole* and place it on or against a solid surface, whereupon the *portable hole* creates an extradimensional hole 10 feet deep. The cylindrical space within the hole exists on a different plane, so it can't be used to create open passages. Any creature inside an open *portable hole* can exit the hole by climbing out of it.

You can use an action to close a *portable hole* by taking hold of the edges of the cloth and folding it up. Folding the cloth closes the hole, and any creatures or objects within remain in the extradimensional space. No matter what's in it, the hole weighs next to nothing.

If the hole is folded up, a creature within the hole's extradimensional space can use an action to make a DC 10 Strength check. On a successful check, the creature forces its way out and appears within 5 feet of the *portable hole* or the creature carrying it. A breathing creature within a closed *portable hole* can survive for up to 10 minutes, after which time it begins to suffocate.

Placing a *portable hole* inside an extradimensional space created by a *bag of holding*, *handy haversack*, or similar item instantly destroys both items and opens a gate to the Astral Plane. The gate originates where the one item was placed inside the other. Any creature within 10 feet of the gate is sucked through it and deposited in a random location on the Astral Plane. The gate then closes. The gate is one-way only and can't be reopened.

A *spell scroll* bears the words of a single spell, written in a mystical cipher. If the spell is on your class's spell list, you can use an action to read the scroll and cast its spell without having to provide any of the spell's components. Otherwise, the scroll is unintelligible.

If the spell is on your class's spell list but of a higher level than you can normally cast, you must make an ability check using your spellcasting ability to determine whether you cast it successfully. The DC equals 10 + the spell's level. On a failed check, the spell disappears from the scroll with no other effect.

Once the spell is cast, the words on the scroll fade, and the scroll itself crumbles to dust.

The level of the spell on the scroll determines the spell's saving throw DC (13) and attack bonus (+5), as well as the scroll's rarity (Uncommon).

A *spell scroll* bears the words of a single spell, written in a mystical cipher. If the spell is on your class's spell list, you can use an action to read the scroll and cast its spell without having to provide any of the spell's components. Otherwise, the scroll is unintelligible.

Once the spell is cast, the words on the scroll fade, and the scroll itself crumbles to dust.

The level of the spell on the scroll determines the spell's saving throw DC (17) and attack bonus (+9), as well as the scroll's rarity (Rare).

This ornate wooden board has the letters of the Common alphabet printed on one side, alongside the words "Yes" and "No" and symbols representing "Weal" and "Woe." The board comes with a heart-shaped, wooden planchette. This planchette must be resting on the lettered side of the board for the board's magic to function.

This board has 3 charges and regains 1 expended charge daily at dawn. While touching the planchette, you can take 1 minute to cast one of the spells on the table below. The table indicates how many charges you must expend to cast the spell. As you cast the spell, you call on the spirits of the dead to help guide the planchette across the board's surface, answering your questions by pointing to the letters or words on the board.

SPELL CHARGE COST

Augury 1
Commune 3

While holding this rod, you gain a +1 bonus spell attack rolls and to the saving throw DCs of your warlock spells.

In addition, you can regain one warlock spell slot as an action while holding the rod. You can't use this property again until you finish a long rest.

Spells you cast ignore Cold Resistance. In addition, when you roll damage for a spell you cast that deals Cold damage, you can treat any 1 on a damage die as a 2.

Increase your Charisma by 1, to a maximum of 20.

4th-level sorcerer feature
Whenever you reach a level in this class that grants the Ability Score Improvement feature, you can do one of the following, representing the magic within you flowing in new ways:

- Replace one of the options you chose for the Metamagic feature with a different Metamagic option available to you.
- Replace one cantrip you learned from this class's Spellcasting feature with another cantrip from the sorcerer spell list.

You gain the following benefits:

Initiative Proficiency: When you roll Initiative, you can add your Proficiency Bonus to the roll.

Initiative Swap: Immediately after you roll Initiative, you can swap your Initiative with the Initiative of one willing ally in the same combat. You can't make this swap if you or the ally has the Incapacitated condition.

Drawing from your innate magic, you can cast spells.

Cantrips. You know four Sorcerer cantrips of your choice. *Light, Prestidigitation, Shocking Grasp* and *Sorcerous Burst* are recommended. Whenever you gain a Sorcerer level, you can replace one of your cantrips from this feature with another Sorcerer cantrip of your choice.

When you reach Sorcerer levels 4 and 10, you learn another Sorcerer cantrip of your choice, as shown in the Cantrips column of the Sorcerer Features table.

Spell Slots. The Sorcerer Features table shows how many spell slots you have to cast your level 1+ spells. You regain all expended slots when you finish a Long Rest.

Prepared Spell of Level 1+. You prepare the list of level 1+ spells that are available for you to cast with this feature. To start, choose two level 1 Sorcerer spells. *Burning Hands* and *Detect Magic* are recommended.

The number of spells on your list increases as you gain Sorcerer levels, as shown in the Prepared Spells column of the Sorcerer Features table.

Whenever that number increases, choose additional Sorcerer spells until the number of spells on your list matches the number in the Sorcerer Features table. The chosen spells must be of a level for which you have spell slots. For example, if you're a level 3 Sorcerer, your list of prepared spells can include six Sorcerer spells of level 1 or 2 in any combination.

If another Sorcerer feature gives you spells that you always have prepared, those spells don't count against the number of spells you can prepare with this feature, but those spells otherwise count as Sorcerer spells for you.

Changing Your Prepared Spells. Whenever you gain a Sorcerer level, you can replace one spell on your list with another Sorcerer spell for which you have spell slots.

Spellcasting Ability. Charisma is your spellcasting ability for your Sorcerer spells.

Spellcasting Focus. You can use an Arcane Focus as a Spellcasting Focus for your Sorcerer spells.

Spell save DC = 8 + your proficiency bonus + your Charisma modifier

Spell attack modifier = your proficiency bonus + your Charisma modifier

An event in your past left an indelible mark on you, infusing you with simmering magic. As a Bonus Action, you can unleash that magic for 1 minute, during which you gain the following benefits:

- The spell save DC of your Sorcerer spells increases by 1.
- You have Advantage on the attack rolls of Sorcerer spells you cast.

You can use this feature twice, and you regain all expended uses of it when you finish a Long Rest.

You can tap into the wellspring of magic within yourself. This wellspring is represented by Sorcery Points, which allow you to create a variety of magical effects.

You have 2 Sorcery Points, and you gain more as you reach higher levels, as shown in the Sorcery Points column of the Sorcerer Features table. You can't have more Sorcery Points than the number shown in the table for your level. You regain all expended Sorcery Points when you finish a Long Rest.

You can use your Sorcery Points to fuel the options below, along with other features, such as Metamagic, that use those points.

Converting Spell Slots to Sorcery Points. You can expend a spell slot to gain a number of Sorcery Points equal to the slot's level (no action required).

Creating Spell Slots. As a Bonus Action, you can transform unexpended Sorcery Points into one spell slot. The Creating Spell Slots table shows the cost of creating a spell slot of a given level, and it lists the minimum Sorcerer level you must be to create a slot. You can create a spell slot no higher than level 5.

Any spell slot you create with this feature vanishes when you finish a Long Rest.

CREATING SPELLSLOTS

Spell Slot Level	Sorcery Point Cost	Min. Sorcerer Level
1	2	2
2	3	3
3	5	5
4	6	7
5	7	9

Because your magic flows from within, you can alter your spells to suit your needs; you gain two Metamagic options of your choice. You use the chosen options to temporarily modify spells you cast. To use an option, you must spend the number of Sorcery Points that it costs.

You can use only one Metamagic option on a spell when you cast it unless otherwise noted in one of those options.

Whenever you gain a Sorcerer level, you can replace one of your Metamagic options with one you don't know. You gain two more options at Sorcerer level 10 and two more at Sorcerer level 17.

Cost: 1 Sorcery Point
When you cast a spell that deals a type of damage from the following list, you can spend 1 Sorcery Point to change that damage type to one of the other listed types: Acid, Cold, Fire, Lightning, Poison, Thunder.

Cost: 2 Sorcery Points

When you cast a spell that has a casting time of an action, you can spend 2 Sorcery Points to change the casting time to a Bonus Action for this casting. You can't modify a spell in this way if you've already cast a level 1+ spell on the current turn, nor can you cast a level 1+ spell on this turn after modifying a spell in this way.

Cost: 1 Sorcery Point

When you cast a spell, you can spend 1 Sorcery Point to cast it without any Verbal, Somatic, or Material components, except Material components that are consumed by the spell or that have a cost specified in the spell.

Cost: 1 Sorcery Point

When you cast a spell that forces other creatures to make a saving throw, you can protect some of those creatures from the spell's full force. To do so, spend 1 Sorcery Point and choose a number of those creatures up to your Charisma modifier (minimum of one creature). A chosen creature automatically succeeds on its saving throw against the spell, and it takes no damage if it would normally take half damage on a successful save.

When you finish a Short Rest, you can regain expended Sorcery Points, but no more than a number equal to half your Sorcerer level (round down). Once you use this feature, you can't do so again until you finish a Long Rest.

The magic in your body manifests physical traits of your draconic gift. Your Hit Point maximum increases by 3, and it increases by 1 whenever you gain another Sorcerer level.

Parts of you are also covered by dragon-like scales. While you aren't wearing armor, your base Armor Class equals 10 plus your Dexterity and Charisma modifiers.

Your draconic elemental affinity is Cold.
