SPEED, SENSES, & CONDITIONS

Hellish Resistance. You have resistance to fire damage.

Legacy of Phlegethos. You know the friends cantrip. When you reach 3rd level, you can cast the charm person spell as a 2nd-level spell once with this trait and regain the ability to do so when you finish a long rest. When you reach 5th level, you can cast the suggestion spell once with this trait and regain the ability to do so when you finish a long rest. Charisma is your spellcasting ability for these spells.

RACIAL TRAITS

Telepathic. Once per Long Rest, you can cast the Detect Thoughts spell, without spell slot or components. You can also cast it using spell slots you have of the appropriate level. Your spellcasting ability for this spell is Charisma.

Additionally, you can speak telepathically to any creature you can see within 60ft. of you. Your telepathic utterances are in a language you know, and the creature understands you only if it knows that language. This effect doesn't give the creature the ability to respond to you telepathically.

Spellcasting. You can use an Arcane Focus as your Spellcasting Focus. Whenever you gain a Sorcerer level, you can replace one of your cantrips with another Sorcerer cantrip of your choice.

Innate Sorcery (Bonus Action—2/Long Rest). For 1 minute, you can increase your spell save DC by 1 and have Advantage on the attack rolls of Sorcerer spells you cast. While Innate Sorcery is active, you can use up to two Metamagic options on each spell you cast.

If you have no uses of this feature left, you can expend 2 Sorcery Points when you take the Bonus Action to activate it.

Font of Magic (Bonus Action). You have 12 Sorcery Points. You can transform unexpended sorcery points into one spell slot (2 > 1st, 3 > 2nd, 5 > 3rd, 6 > 4th, 7 > 5th) on your turn. Alternatively, you can expend one spell slot and gain a number of sorcery points equal to the slot's level (no action required).

Metamagic. You can use only one Metamagic option on a spell when you cast it, unless otherwise noted. You can replace one of your Metamagic options whenever you gain a Sorcerer level.

Careful Spell (Sorcery Point). When you cast a spell that forces other creatures to make a saving throw, choose up to 5 of those creatures. A chosen creature automatically succeeds on its saving throw against the spell, and it takes no damage if it would normally take half damage on a successful save.

Subtle Spell (Sorcery Point). When you cast a spell, you can do so without any Verbal, Somatic, or Material components, except Material components that are consumed by the spell or that have a cost specified in the spell.

Twinned Spell (Sorcery Point). When you cast a spell that can be cast with a higher-level spell slot to target an additional creature, you can increase the spell's effective level by 1.

Extended Spell (Sorcery Point). When you cast a spell that has a duration of 1 minute or longer, you can double its duration, to a maximum duration of 24 hours. You also have Advantage on any saving throw you make to maintain Concentration on that spell.

Sorcerous Restoration (1/Long Rest). When you finish a Short Rest, you can regain up to 6 expended Sorcery points.

Power of Shadow. Eyes of the Dark: You have Darkvision 120 ft. and Blindsight 10 ft. You can see normally through Darkness created by your spells.

Strength of the Grave (1/Long Rest): When you would drop to 0 HP and not die outright, make a Charisma saving throw (DC = 5 + damage taken). On a success, your HP instead becomes 5 + 12.

Superior Darkvision. You can see in dim light within 120 feet of you as if it were bright light, and in darkness as if it were dim light.

Blindsight. You perceive your surroundings within 10 feet without relying on sight.

Beasts of Ill Omen (Bonus Action). You can spend 3 Sorcery Points to cast Summon Beast without a spell slot, without preparation, and without Material components. The summoned shadow-beast causes enemies within 5 feet of it to have Disadvantage on saving throws against your spells.

You can modify the spell to not require Concentration; if you do, its duration becomes 1 minute and it ends early if you cast it again.

CHARACTER PORTRAIT

NAME

SYMBOL

ALLIES & ORGANIZATIONS

I always want to know how things work and what makes people tick.
I like to talk at length about my profession.

PERSONALITY TRAITS

Freedom. Everyone should be free to pursue his or her own livelihood. (Chaotic)

IDEAL

I will get revenge on the evil forces that destroyed my place of business and ruined my livelihood.

BOND

I'm quick to assume that someone is trying to cheat me.

FLAW

In your earlier days, you were a personage of some significance in a noble court or a bureaucratic organization. You might or might not come from an upper-class family; your talents, rather than the circumstances of your birth, could have secured you this position.

You might have been one of the many functionaries, attendants, and other hangers-on in the Court of Silverymoon, or perhaps you traveled in Waterdeep's baroque and sometimes cutthroat conglomeration of guilds, nobles, adventurers, and secret societies. You might have been one of the behind-the-scenes law-keepers or functionaries in Baldur's Gate or Neverwinter, or you might have grown up in and around the castle of Daggerford.

Even if you are no longer a full-ft edged member of the group that gave you your start in life, your relationships with your former fellows can be an advantage for you and your adventuring comrades. You might undertake missions with your new companions that further the interest of the organization that gave you your start in life. In any event, the abilities that you honed while serving as a courtier will stand you in good stead as an adventurer.

BACKGROUND STORY

Feature: Court Functionary

Your knowledge of how bureaucracies function lets you gain access to the records and inner workings of any noble court or government you encounter. You know who the movers and shakers are, whom to go to for the favors you seek, and what the current intrigues of interest in the group are.

Barrier Tattoo. Produced by a special needle, this magic tattoo depicts protective imagery and uses ink that resembles liquid metal.

Tattoo Attunement. To attune to this item, you hold the needle to your skin where you want the tattoo to appear, pressing the needle there throughout the attunement process. When the attunement is complete, the needle turns into the ink that becomes the tattoo, which appears on the skin.

If your attunement to the tattoo ends, the tattoo vanishes, and the needle reappears in your space.

Protection. While you aren't wearing armor, the tattoo grants you an Armor Class of 18. You can use a shield and still gain this benefit.

Bloodwell Vial, +1. To attune to this vial, you must place a few drops of your blood into it. The vial can't be opened while your attunement to it lasts. If your attunement to the vial ends, the contained blood turns to ash. You can use the vial as a spellcasting focus for your spells while wearing or holding it, and you gain a +1 bonus to spell attack rolls and to the saving throw DCs of your sorcerer spells.

In addition, when you roll any Hit Dice to recover hit points while you are carrying the vial, you can regain 5 sorcery points. This property of the vial can't be used again until the next dawn.

Cape of the Mountebank. This cape smells faintly of brimstone. While wearing it, you can use it to cast the *dimension door* spell as an action. This property of the cape can't be used again until the next dawn.

When you disappear, you leave behind a cloud of smoke, and you appear in a similar cloud of smoke at your destination. The smoke lightly obscures the space you left and the space you appear in, and it dissipates at the end of your next turn. A light or stronger wind disperses the smoke.

Helm of Comprehending Languages. While wearing this helm, you can use an action to cast the *comprehend languages* spell from it at will.

Fire Bolt

Evocation Cantrip

CASTING TIME	Action
RANGE	120 feet
DURATION	Instantaneous
COMPONENTS	V, S

You hurl a mote of fire at a creature or an object within range. Make a ranged spell attack against the target. On a hit, the target takes 1d10 Fire damage. A flammable object hit by this spell starts burning if it isn't being worn or carried.

Cantrip Upgrade. The damage increases by 1d10 when you reach levels 5 (2d10), 11 (3d10), and 17 (4d10).

Level 1: Spellcasting (Sorcerer) *Player's Handbook (2024)*

Friends

Enchantment Cantrip

CASTING TIME	1 action
RANGE	Self
DURATION	Concentration, up to 1 minute
COMPONENTS	S, M (a small amount of makeup applied to the face as this spell is cast)

For the duration, you have advantage on all Charisma checks directed at one creature of your choice that isn't hostile toward you. When the spell ends, the creature realizes that you used magic to influence its mood and becomes hostile toward you. A creature prone to violence might attack you. Another creature might seek retribution in other ways (at the DM's discretion), depending on the nature of your interaction with it.

Legacy of Phlegethos (Tiefling (Fierna)) *Player's Handbook*

Mage Hand

Conjuration Cantrip

CASTING TIME	Action
RANGE	30 feet
DURATION	1 minute
COMPONENTS	V, S

A spectral, floating hand appears at a point you choose within range. The hand lasts for the duration. The hand vanishes if it is ever more than 30 feet away from you or if you cast this spell again.

When you cast the spell, you can use the hand to manipulate an object, open an unlocked door or container, stow or retrieve an item from an open container, or pour the contents out of a vial.

As a Magic action on your later turns, you can control the hand thus again. As part of that action, you can move the hand up to 30 feet.

The hand can't attack, activate magic items, or carry more than 10 pounds.

Level 1: Spellcasting (Sorcerer) *Player's Handbook (2024)*

Mind Sliver

Enchantment Cantrip

CASTING TIME	Action
RANGE	60 feet
DURATION	1 round
COMPONENTS	V

You try to temporarily sliver the mind of one creature you can see within range. The target must succeed on an Intelligence saving throw or take 1d6 Psychic damage and subtract 1d4 from the next saving throw it makes before the end of your next turn.

Cantrip Upgrade. The damage increases by 1d6 when you reach levels 5 (2d6), 11 (3d6), and 17 (4d6).

Level 1: Spellcasting (Sorcerer) *Player's Handbook (2024)*

Minor Illusion

Illusion Cantrip

CASTING TIME	Action
RANGE	30 feet
DURATION	1 minute
COMPONENTS	S, M (a bit of fleece)

You create a sound or an image of an object within range that lasts for the duration. See the descriptions below for the effects of each. The illusion ends if you cast this spell again.

If a creature takes a Study action to examine the sound or image, the creature can determine that it is an illusion with a successful Intelligence (Investigation) check against your spell save DC. If a creature discerns the illusion for what it is, the illusion becomes faint to the creature.

Sound. If you create a sound, its volume can range from a whisper to a scream. It can be your voice, someone else's voice, a lion's roar, a beating of drums, or any other sound you choose. The sound continues unabated throughout the duration, or you can make discrete sounds at different times before the spell ends.

Image. If you create an image of an object—such as a chair, muddy footprints, or a small chest—it must be no larger than a 5-foot Cube. The image can't create sound, light, smell, or any other sensory effect. Physical interaction with the image reveals it to be an illusion, since things can pass through it.

Level 1: Spellcasting (Sorcerer) *Player's Handbook (2024)*

Prestidigitation

Transmutation Cantrip

CASTING TIME	Action
RANGE	10 feet
DURATION	Up to 1 hour
COMPONENTS	V, S

You create a magical effect within range. Choose the effect from the options below. If you cast this spell multiple times, you can have up to three of its non-instantaneous effects active at a time.

Sensory Effect. You create an instantaneous, harmless sensory effect, such as a shower of sparks, a puff of wind, faint musical notes, or an odd odor.

Fire Play. You instantaneously light or snuff out a candle, a torch, or a small campfire.

Clean or Soil. You instantaneously clean or soil an object no larger than 1 cubic foot.

Minor Sensation. You chill, warm, or flavor up to 1 cubic foot of nonliving material for 1 hour.

Magic Mark. You make a color, a small mark, or a symbol appear on an object or a surface for 1 hour.

Minor Creation. You create a nonmagical trinket or an illusory image that can fit in your hand. It lasts until the end of your next turn. A trinket can deal no damage and has no monetary worth.

Level 1: Spellcasting (Sorcerer) *Player's Handbook (2024)*

Shadow Embrace

Illusion Cantrip

CASTING TIME	1 action
RANGE	60 feet
DURATION	Instantaneous
COMPONENTS	V, S

You cause shadows to manifest around a creature within range. The target must make a Wisdom saving throw or receive a -2 penalty to their attack rolls and disadvantage on Dexterity saving throws until the end of their next turn as they become engulfed by a dark embrace.

Level 1: Spellcasting (Sorcerer) *Grimlore's Grimoire*

Absorb Elements

1st-level abjuration

CASTING TIME	1 reaction, which you take when you take acid, cold, fire, lightning, or thunder damage
RANGE	Self
DURATION	1 round
COMPONENTS	S

The spell captures some of the incoming energy, lessening its effect on you and storing it for your next melee attack. You have resistance to the triggering damage type until the start of your next turn. Also, the first time you hit with a melee attack on your next turn, the target takes an extra 1d6 damage of the triggering type, and the spell ends.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, the extra damage increases by 1d6 for each slot level above 1st.

Level 1: Spellcasting (Sorcerer) *Xanathar's Guide to Everything*

Bane

1st-level enchantment

CASTING TIME	Action
RANGE	30 feet
DURATION	Concentration, up to 1 minute
COMPONENTS	V, S, M (a drop of blood)

Up to three creatures of your choice that you can see within range must each make a Charisma saving throw. Whenever a target that fails this save makes an attack roll or a saving throw before the spell ends, the target must subtract 1d4 from the attack roll or save.

Using a Higher-Level Spell Slot. You can target one additional creature for each spell slot level above 1.

Level 3: Shadow Spells (Sorcerer) *Player's Handbook (2024)*

Charm Person

1st-level enchantment

CASTING TIME	1 action
RANGE	30 feet
DURATION	1 hour
COMPONENTS	V, S

You attempt to charm a humanoid you can see within range. It must make a Wisdom saving throw, and does so with advantage if you or your companions are fighting it. If it fails the saving throw, it is charmed by you until the spell ends or until you or your companions do anything harmful to it. The charmed creature regards you as a friendly acquaintance. When the spell ends, the creature knows it was charmed by you.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, you can target one additional creature for each slot level above 1st. The creatures must be within 30 feet of each other when you target them.

Legacy of Phlegethos (Tiefling (Fierna)) *Player's Handbook*

Inflict Wounds

1st-level necromancy

CASTING TIME	Action
RANGE	Touch
DURATION	Instantaneous
COMPONENTS	V, S

A creature you touch makes a Constitution saving throw, taking 2d10 Necrotic damage on a failed save or half as much damage on a successful one.

Using a Higher-Level Spell Slot. The damage increases by 1d10 for each spell slot level above 1.

Level 3: Shadow Spells (Sorcerer) *Player's Handbook (2024)*

Magic Missile

1st-level evocation

CASTING TIME	Action
RANGE	120 feet
DURATION	Instantaneous
COMPONENTS	V, S

You create three glowing darts of magical force. Each dart strikes a creature of your choice that you can see within range. A dart deals 1d4 + 1 Force damage to its target. The darts all strike simultaneously, and you can direct them to hit one creature or several.

Using a Higher-Level Spell Slot. The spell creates one more dart for each spell slot level above 1.

Level 1: Spellcasting (Sorcerer) *Player's Handbook (2024)*

Shield

1st-level abjuration

CASTING TIME	Reaction, which you take when you are hit by an attack roll or targeted by the Magic Missile spell
RANGE	Self
DURATION	1 round
COMPONENTS	V, S

An imperceptible barrier of magical force protects you. Until the start of your next turn, you have a +5 bonus to AC, including against the triggering attack, and you take no damage from *Magic Missile*.

Level 1: Spellcasting (Sorcerer) *Player's Handbook (2024)*

Darkness

2nd-level evocation

CASTING TIME	Action
RANGE	60 feet
DURATION	Concentration, up to 10 minutes
COMPONENTS	V, M (bat fur and a piece of coal)

For the duration, magical Darkness spreads from a point within range and fills a 15-foot-radius Sphere. Darkvision can't see through it, and nonmagical light can't illuminate it.

Alternatively, you cast the spell on an object that isn't being worn or carried, causing the Darkness to fill a 15-foot Emanation originating from that object. Covering that object with something opaque, such as a bowl or helm, blocks the Darkness.

If any of this spell's area overlaps with an area of Bright Light or Dim Light created by a spell of level 2 or lower, that other spell is dispelled.

Level 3: Shadow Spells (Sorcerer) *Player's Handbook (2024)*

Detect Thoughts

2nd-level divination

CASTING TIME	Action
RANGE	Self
DURATION	Concentration, up to 1 minute
COMPONENTS	V, S, M (1 Copper Piece)

You activate one of the effects below. Until the spell ends, you can activate either effect as a Magic action on your later turns.

Sense Thoughts. You sense the presence of thoughts within 30 feet of yourself that belong to creatures that know languages or are telepathic. You don't read the thoughts, but you know that a thinking creature is present.

The spell is blocked by 1 foot of stone, dirt, or wood; 1 inch of metal; or a thin sheet of lead.

Read Thoughts. Target one creature you can see within 30 feet of yourself or one creature within 30 feet of yourself that you detected with the Sense Thoughts option. You learn what is most on the target's mind right now. If the target doesn't know any languages and isn't telepathic, you learn nothing.

As a Magic action on your next turn, you can try to probe deeper into the target's mind. If you probe deeper, the target makes a Wisdom saving throw. On a failed save, you discern the target's reasoning, emotions, and something that looms large in its mind (such as a worry, love, or hate). On a successful save, the spell ends. Either way, the target knows that you are probing into its mind, and until you shift your attention away from the target's mind, the target can take an action on its turn to make an Intelligence (Arcana) check against your spell save DC, ending the spell on a success.

Telepathic *Player's Handbook (2024)*

Hold Person

2nd-level enchantment

CASTING TIME	Action
RANGE	60 feet
DURATION	Concentration, up to 1 minute
COMPONENTS	V, S, M (a straight piece of iron)

Choose a Humanoid that you can see within range. The target must succeed on a Wisdom saving throw or have the Paralyzed condition for the duration. At the end of each of its turns, the target repeats the save, ending the spell on itself on a success.

Using a Higher-Level Spell Slot. You can target one additional Humanoid for each spell slot level above 2.

Level 1: Spellcasting (Sorcerer) *Player's Handbook (2024)*

Mirror Image

2nd-level illusion

CASTING TIME	Action
RANGE	Self
DURATION	1 minute
COMPONENTS	V, S

Three illusory duplicates of yourself appear in your space. Until the spell ends, the duplicates move with you and mimic your actions, shifting position so it's impossible to track which image is real.

Each time a creature hits you with an attack roll during the spell's duration, roll a d6 for each of your remaining duplicates. If any of the d6s rolls a 3 or higher, one of the duplicates is hit instead of you, and the duplicate is destroyed. The duplicates otherwise ignore all other damage and effects. The spell ends when all three duplicates are destroyed.

A creature is unaffected by this spell if it has the Blinded condition, Blindsight, or Truesight.

Level 1: Spellcasting (Sorcerer) *Player's Handbook (2024)*

Pass without Trace

2nd-level abjuration

CASTING TIME	Action
RANGE	Self (30-foot Emanation)
DURATION	Concentration, up to 1 hour
COMPONENTS	V, S, M (ashes from burned mistletoe)

You radiate a concealing aura in a 30-foot Emanation for the duration. While in the aura, you and each creature you choose have a +10 bonus to Dexterity (Stealth) checks and leave no tracks.

Level 3: Shadow Spells (Sorcerer) *Player's Handbook (2024)*

Suggestion

2nd-level enchantment

CASTING TIME	1 action
RANGE	30 feet
DURATION	Concentration, up to 8 hours
COMPONENTS	V, M (a snake's tongue and either a bit of honeycomb or a drop of sweet oil)

You suggest a course of activity (limited to a sentence or two) and magically influence a creature you can see within range that can hear and understand you. Creatures that can't be charmed are immune to this effect. The suggestion must be worded in such a manner as to make the course of action sound reasonable. Asking the creature to stab itself, throw itself onto a spear, immolate itself, or do some other obviously harmful act ends the spell.

The target must make a Wisdom saving throw. On a failed save, it purses the course of action you described to the best of its ability. The suggested course of action can continue for the entire duration. If the suggested activity can be completed in a shorter time, the spell ends when the subject finishes what it was asked to do.

You can also specify conditions that will trigger a special activity during the duration. For example, you might suggest that a knight give her warhorse to the first beggar she meets.

If the condition isn't met before the spell expires, the activity isn't preformed. If you or any of your companions damage the target, the spell ends.

Legacy of Phlegethos (Tiefling (Fierna)) *Player's Handbook*

Summon Beast

2nd-level conjuration

CASTING TIME	Action
RANGE	90 feet
DURATION	Concentration, up to 1 hour
COMPONENTS	V, S, M (a feather, tuft of fur, and fish tail inside a gilded acorn worth 200+ GP)

You call forth a bestial spirit. It manifests in an unoccupied space that you can see within range and uses the **Bestial Spirit** stat block. When you cast the spell, choose an environment: Air, Land, or Water. The creature resembles an animal of your choice that is native to the chosen environment, which determines certain details in its stat block. The creature disappears when it drops to 0 Hit Points or when the spell ends.

The creature is an ally to you and your allies. In combat, the creature shares your Initiative count, but it takes its turn immediately after yours. It obeys your verbal commands (no action required by you). If you don't issue any, it takes the Dodge action and uses its movement to avoid danger.

Using a Higher-Level Spell Slot. Use the spell slot's level for the spell's level in the stat block.

Level 6: Beasts of Ill Omen (Sorcerer) *Player's Handbook (2024)*

Wither and Bloom

2nd-level necromancy

CASTING TIME	1 action
RANGE	60 feet
DURATION	Instantaneous
COMPONENTS	V, S, M (A withered vine twisted into a loop)

You invoke both death and life upon a 10-foot-radius sphere centered on a point within range. Each creature of your choice in that area must make a Constitution saving throw, taking 2d6 necrotic damage on a failed save, or half as much damage on a successful one. Nonmagical vegetation in that area withers.

In addition, one creature of your choice in that area can spend and roll one of its unspent Hit Dice and regain a number of hit points equal to the roll plus your spellcasting ability modifier.

At Higher Levels. When you cast this spell using a spell slot of 3rd level or higher, the damage increases by 1d6 for each slot above 2nd, and the number of Hit Dice that can be spent and added to the healing roll increases by one for each slot above 2nd.

Level 1: Spellcasting (Sorcerer) *Strixhaven: A Curriculum Of Chaos*

Counterspell

3rd-level abjuration

CASTING TIME	Reaction, which you take when you see a creature within 60 feet of yourself casting a spell with Verbal, Somatic, or Material components
RANGE	60 feet
DURATION	Instantaneous
COMPONENTS	S

You attempt to interrupt a creature in the process of casting a spell. The creature makes a Constitution saving throw. On a failed save, the spell dissipates with no effect, and the action, Bonus Action, or Reaction used to cast it is wasted. If that spell was cast with a spell slot, the slot isn't expended.

Level 1: Spellcasting (Sorcerer) *Player's Handbook (2024)*

Dispel Magic

3rd-level abjuration

CASTING TIME	Action
RANGE	120 feet
DURATION	Instantaneous
COMPONENTS	V, S

Choose one creature, object, or magical effect within range. Any ongoing spell of level 3 or lower on the target ends. For each ongoing spell of level 4 or higher on the target, make an ability check using your spellcasting ability (DC 10 plus that spell's level). On a successful check, the spell ends.

Using a Higher-Level Spell Slot. You automatically end a spell on the target if the spell's level is equal to or less than the level of the spell slot you use.

Level 1: Spellcasting (Sorcerer) *Player's Handbook (2024)*

Fireball

3rd-level evocation

CASTING TIME	Action
RANGE	150 feet
DURATION	Instantaneous
COMPONENTS	V, S, M (a ball of bat guano and sulfur)

A bright streak flashes from you to a point you choose within range and then blossoms with a low roar into a fiery explosion. Each creature in a 20-foot-radius Sphere centered on that point makes a Dexterity saving throw, taking 8d6 Fire damage on a failed save or half as much damage on a successful one.

Flammable objects in the area that aren't being worn or carried start burning.

Using a Higher-Level Spell Slot. The damage increases by 1d6 for each spell slot level above 3.

The Sphere is Difficult Terrain, and it is filled with strange whispers and slurping noises, which can be heard up to 30 feet away. No light, magical or otherwise, can illuminate the area, and creatures fully within it have the Blinded condition.

Any creature that starts its turn in the area takes 2d6 Cold damage. Any creature that ends its turn there must succeed on a Dexterity saving throw or take 2d6 Acid damage from otherworldly tentacles.

Using a Higher-Level Spell Slot. The Cold or Acid damage (your choice) increases by 1d6 for each spell slot level above 3.

Level 3: Shadow Spells (Sorcerer) *Player's Handbook (2024)*

CASTING TIME	Action
RANGE	120 feet
DURATION	Concentration, up to 1 minute

Each creature in the area who can see the pattern must succeed on a Wisdom saving throw or have the Charmed condition for the duration. While Charmed, the creature has the Incapacitated condition and a Speed of 0.

The spell ends for an affected creature if it takes any damage or if someone else uses an action to shake the creature out of its stupor.

Banishment

4th-level abjuration

CASTING TIME	Action
RANGE	30 feet

COMPONENTS	V, S, M (a pentacle)

One creature that you can see within range must succeed on a Charisma saving throw or be transported to a harmless demiplane for the duration. While there, the target has the Incapacitated condition. When the spell ends, the target reappears in the space it left or in the nearest unoccupied space if that space is occupied.

If the target is an Aberration, a Celestial, an Elemental, a Fey, or a Fiend, the target doesn't return if the spell lasts for 1 minute. The target is instead transported to a random location on a plane (DM's choice) associated with its creature type.

Using a Higher-Level Spell Slot. You can target one additional creature for each spell slot level above 4.

You tap into the nightmares of a creature you can see within range and create an illusion of its deepest fears, visible only to that creature. The target makes a Wisdom saving throw. On a failed save, the target takes 4d10 Psychic damage and has Disadvantage on ability checks and attack rolls for the duration. On a successful save, the target takes half as much damage, and the spell ends.

For the duration, the target makes a Wisdom saving throw at the end of each of its turns. On a failed save, it takes the Psychic damage again. On a successful save, the spell ends.

Using a Higher-Level Spell Slot. The damage increases by 1d10 for each spell slot level above 4.

Level 3: Shadow Spells (Sorcerer) *Player's Handbook (2024)*

Wall of Fire

4th-level evocation

CASTING TIME	Action
RANGE	120 feet
DURATION	Concentration, up to 1 minute
COMPONENTS	V, S, M (a piece of charcoal)

You create a wall of fire on a solid surface within range. You can make the wall up to 60 feet long, 20 feet high, and 1 foot thick, or a ringed wall up to 20 feet in diameter, 20 feet high, and 1 foot thick. The wall is opaque and lasts for the duration.

When the wall appears, each creature in its area makes a Dexterity saving throw, taking 5d8 Fire damage on a failed save or half as much damage on a successful one.

One side of the wall, selected by you when you cast this spell, deals 5d8 Fire damage to each creature that ends its turn within 10 feet of that side or inside the wall. A creature takes the same damage when it enters the wall for the first time on a turn or ends its turn there. The other side of the wall deals no damage.

Using a Higher-Level Spell Slot. The damage increases by 1d8 for each spell slot level above 4.

Level 1: Spellcasting (Sorcerer) *Player's Handbook (2024)*

Contagion

5th-level necromancy

CASTING TIME	Action
RANGE	Touch
DURATION	7 Days
COMPONENTS	V, S

Your touch inflicts a magical contagion. The target must succeed on a Constitution saving throw or take 11d8 Necrotic damage and have the Poisoned condition. Also, choose one ability when you cast the spell. While Poisoned, the target has Disadvantage on saving throws made with the chosen ability.

The target must repeat the saving throw at the end of each of its turns until it gets three successes or failures. If the target succeeds on three of these saves, the spell ends on the target. If the target fails three of the saves, the spell lasts for 7 days on it.

Whenever the Poisoned target receives an effect that would end the Poisoned condition, the target must succeed on a Constitution saving throw, or the Poisoned condition doesn't end on it.

Level 3: Shadow Spells (Sorcerer) *Player's Handbook (2024)*

Creation

5th-level illusion

CASTING TIME	1 minute
RANGE	30 feet
DURATION	Special
COMPONENTS	V, S, M (a paintbrush)

You pull wisps of shadow material from the Shadowfell to create an object within range. It is either an object of vegetable matter (soft goods, rope, wood, and the like) or mineral matter (stone, crystal, metal, and the like). The object must be no larger than a 5-foot Cube, and the object must be of a form and material that you have seen.

The spell's duration depends on the object's material, as shown in the Materials table. If the object is composed of multiple materials, use the shortest duration. Using any object created by this spell as another spell's Material component causes the other spell to fail.

Materials

Material	Duration
Vegetable Matter	24 hours
Stone or crystal	12 hours
Precious metals	1 hour
Gems	10 minutes
Adamantine or mithral	1 minute

Using a Higher-Level Spell Slot. The Cube increases by 5 feet for each spell slot level above 5.

Hold Monster

5th-level enchantment

CASTING TIME	Action
RANGE	90 feet
DURATION	Concentration, up to 1 minute
COMPONENTS	V, S, M (a straight piece of iron)

Choose a creature that you can see within range. The target must succeed on a Wisdom saving throw or have the Paralyzed condition for the duration. At the end of each of its turns, the target repeats the save, ending the spell on itself on a success.

Using a Higher-Level Spell Slot. You can target one additional creature for each spell slot level above 5.

Level 1: Spellcasting (Sorcerer) *Player's Handbook (2024)*

Synaptic Static

5th-level enchantment

CASTING TIME	Action
RANGE	120 feet
DURATION	Instantaneous
COMPONENTS	V, S

You cause psychic energy to erupt at a point within range. Each creature in a 20-foot-radius Sphere centered on that point makes an Intelligence saving throw, taking 8d6 Psychic damage on a failed save or half as much damage on a successful one.

On a failed save, a target also has muddled thoughts for 1 minute. During that time, it subtracts 1d6 from all its attack rolls and ability checks, as well as any Constitution saving throws to maintain Concentration. The target makes an Intelligence saving throw at the end of each of its turns, ending the effect on itself on a success.

Level 1: Spellcasting (Sorcerer) *Player's Handbook (2024)*

Eyebite

6th-level necromancy

CASTING TIME	Action
RANGE	Self
DURATION	Concentration, up to 1 minute
COMPONENTS	V, S

For the duration, your eyes become an inky void. One creature of your choice within 60 feet of you that you can see must succeed on a Wisdom saving throw or be affected by one of the following effects of your choice for the duration.

On each of your turns until the spell ends, you can take a Magic Action to target another creature but can't target a creature again if it has succeeded on a save against this casting of the spell.

Asleep. The target has the Unconscious condition. It wakes up if it takes any damage or if another creature takes an action to shake it awake.

Panicked. The target has the Frightened condition. On each of its turns, the Frightened target must take the Dash action and move away from you by the safest and shortest route available. If the target moves to a space at least 60 feet away from you where it can't see you, this effect ends.

Sickened. The target has the Poisoned condition.

Barrier Tattoo

Wondrous Items

Produced by a special needle, this magic tattoo depicts protective imagery and uses ink that resembles liquid metal.

Tattoo Attunement. To attune to this item, you hold the needle to your skin where you want the tattoo to appear, pressing the needle there throughout the attunement process. When the attunement is complete, the needle turns into the ink that becomes the tattoo, which appears on the skin.

If your attunement to the tattoo ends, the tattoo vanishes, and the needle reappears in your space.

Protection. While you aren't wearing armor, the tattoo grants you an Armor Class of 18. You can use a shield and still gain this benefit.

Tasha's Cauldron of Everything

Bloodwell Vial, +1

Wondrous Items

To attune to this vial, you must place a few drops of your blood into it. The vial can't be opened while your attunement to it lasts. If your attunement to the vial ends, the contained blood turns to ash. You can use the vial as a spellcasting focus for your spells while wearing or holding it, and you gain a +1 bonus to spell attack rolls and to the saving throw DCs of your sorcerer spells.

In addition, when you roll any Hit Dice to recover hit points while you are carrying the vial, you can regain 5 sorcery points. This property of the vial can't be used again until the next dawn.

When you disappear, you leave behind a cloud of smoke, and you appear in a similar cloud of smoke at your destination. The smoke lightly obscures the space you left and the space you appear in, and it dissipates at the end of your next turn. A light or stronger wind disperses the smoke.

You can douse a creature, object, or space with Oil or use it as fuel, as detailed below.

Dousing a Creature or an Object. When you take the Attack action, you can replace one of your attacks with throwing an Oil flask. Target one creature or object within 20 feet of yourself. The target must succeed on a Dexterity saving throw (DC 8 plus your Dexterity modifier and Proficiency Bonus) or be covered in oil. If the target takes Fire damage before the oil dries (after 1 minute), the target takes an extra 5 Fire damage from burning oil.

Dousing a Space. You can take the Utilize action to pour an Oil flask on level ground to cover a 5-foot square area within 5 feet of yourself. If lit, the oil burns until the end of the turn 2 rounds from when the oil was lit (or 12 seconds) and deals 5 Fire damage to any creature that enters the area or ends its turn there. A creature can take this damage only once per turn.

Fuel. Oil serves as fuel for Lamps and Lanterns. Once lit, a flask of Oil burns for 6 hours in a Lamp or Lantern. That duration doesn't need to be consecutive; you can extinguish the burning Oil (as a Utilize action) and rekindle it again until it has burned for a total of 6 hours.

Mantle of the Sacred Ash

Wondrous Items

Legend says the cloth was soaked in holy oils and quenched three times in the ashes of burned fiendish texts. During his campaigns, Discount was known to descend from the sky like an avenging meteor—his dark coat unfurling into a torrent of divine embers as he cast Radiant Flames and Fiery Strikes from above.

Woven from threads spun in sanctified embers and trimmed with dark leather, this imposing overcoat pulses with the heat of an inner furnace. Its hem glows like molten iron, leaving a faint trail of ash wherever its wearer treads.

Fire Resistance. You have Resistance to fire damage. Additionally, you are immune to the effects of extreme cold, and you gain Advantage on saving throws against spells that deal cold damage.

Flight of the Pyre. You can use an action to cast the Fly spell on yourself without expending a spell slot or material components. When cast in this way, the spell requires no concentration, and a mantle of fiery embers billows from the coat's hem while you are aloft. Once used, this property cannot be used again until you finish a long rest.

Purifying Conflagration. When you cast a spell that deals fire damage, you can choose to change spells damage to radiant damage instead. You can use this feature a number of times equal to your proficiency bonus, and you regain all expended uses when you finish a long rest.

Telepathic — Player's Handbook (2024)

Level 1: Spellcasting

Class Feature

Drawing from your innate magic, you can cast spells.

Cantrips. You know four Sorcerer cantrips of your choice. *Light*, *Prestidigitation*, *Shocking Grasp* and *Sorcerous Burst* are recommended. Whenever you gain a Sorcerer level, you can replace one of your cantrips from this feature with another Sorcerer cantrip of your choice.

When you reach Sorcerer levels 4 and 10, you learn another Sorcerer cantrip of your choice, as shown in the Cantrips column of the Sorcerer Features table.

Spell Slots. The Sorcerer Features table shows how many spell slots you have to cast your level 1+ spells. You regain all expended slots when you finish a Long Rest.

Prepared Spell of Level 1+. You prepare the list of level 1+ spells that are available for you to cast with this feature. To start, choose two level 1 Sorcerer spells. *Burning Hands* and *Detect Magic* are recommended.

The number of spells on your list increases as you gain Sorcerer levels, as shown in the Prepared Spells column of the Sorcerer Features table. Whenever that number increases, choose additional Sorcerer spells until the number of spells on your list matches the number in the Sorcerer Features table. The chosen spells must be of a level for which you have spell slots. For example, if you're a level 3 Sorcerer, your list of prepared spells can include six Sorcerer spells of level 1 or 2 in any combination.

If another Sorcerer feature gives you spells that you always have prepared, those spells don't count against the number of spells you can prepare with this feature, but those spells otherwise count as Sorcerer spells for you.

Changing Your Prepared Spells. Whenever you gain a Sorcerer level, you can replace one spell on your list with another Sorcerer spell for which you have spell slots.

Spellcasting Ability. Charisma is your spellcasting ability for your Sorcerer spells.

Spellcasting Focus. You can use an Arcane Focus as a Spellcasting Focus for your Sorcerer spells.

Spell save DC = 8 + your proficiency bonus + your Charisma modifier

Spell attack modifier = your proficiency bonus + your Charisma modifier

An event in your past left an indelible mark on you, infusing you with simmering magic. As a Bonus Action, you can unleash that magic for 1 minute, during which you gain the following benefits:

- The spell save DC of your Sorcerer spells increases by 1.
- You have Advantage on the attack rolls of Sorcerer spells you cast.

You can use this feature twice, and you regain all expended uses of it when you finish a Long Rest.

Sorcerer — Player's Handbook (2024)

Level 2: Font of Magic

Class Feature

You can tap into the wellspring of magic within yourself. This wellspring is represented by Sorcery Points, which allow you to create a variety of magical effects.

You have 2 Sorcery Points, and you gain more as you reach higher levels, as shown in the Sorcery Points column of the Sorcerer Features table. You can't have more Sorcery Points than the number shown in the table for your level. You regain all expended Sorcery Points when you finish a Long Rest.

You can use your Sorcery Points to fuel the options below, along with other features, such as Metamagic, that use those points.

Converting Spell Slots to Sorcery Points. You can expend a spell slot to gain a number of Sorcery Points equal to the slot's level (no action required).

Creating Spell Slots. As a Bonus Action, you can transform unexpended Sorcery Points into one spell slot. The Creating Spell Slots table shows the cost of creating a spell slot of a given level, and it lists the minimum Sorcerer level you must be to create a slot. You can create a spell slot no higher than level 5.

Any spell slot you create with this feature vanishes when you finish a Long Rest.

You can use only one Metamagic option on a spell when you cast it unless otherwise noted in one of those options.

Whenever you gain a Sorcerer level, you can replace one of your Metamagic options with one you don't know. You gain two more options at Sorcerer level 10 and two more at Sorcerer level 17.

Level 3: Power of Shadow

Archetype Feature

You gain the following benefits.
Eyes of the Dark. You have Darkvision with a range of 120 feet and Blindsight with a range of 10 feet. In addition, if a spell you cast creates an area of Darkness, you can see normally through that spell's Darkness.
Strength of the Grave. If you would drop to 0 Hit Points and not die outright, you can make a Charisma saving throw (DC 5 plus the damage taken). On a successful save, your Hit Points instead change to a number equal to your Charisma modifier plus your Sorcerer level. After you succeed on this save, you can't use this benefit again until you finish a Long Rest.

Superior Darkvision

Vision

Many creatures in the worlds of D&D, especially those that dwell underground, have darkvision. Within a specified range, a creature with darkvision can see in darkness as if the darkness were dim light, so areas of darkness are only lightly obscured as far as that creature is concerned. However, the creature can't discern color in darkness, only shades of gray.

Level 3: Power of Shadow — Internal

Blindsight

Vision

A creature with blindsight can perceive its surroundings without relying on sight, within a specific radius. Creatures without eyes, such as oozes, and creatures with echolocation or heightened senses, such as bats and true dragons, have this sense.

Level 3: Power of Shadow — Aurora Legacy Essentials

Level 6: Beasts of Ill Omen

Archetype Feature

You can call forth a howling creature of shadow to hound your foes. You can spend 3 Sorcery Points to cast *Summon Beast* as a Bonus Action without expending a spell slot, without preparing the spell, and without Material components. The summoned creature appears as a beast made of shadow, and enemies within 5 feet of the summoned creature have Disadvantage on saving throws against spells you cast.
Whenever you cast the spell, you can modify it so that it doesn't require Concentration. If you do so, the spell's duration becomes 1 minute for that casting, and the spell ends early if you cast the spell again.
